tendered his resignation

at the Honble Residents

represented to him
that it was almost impossible
for the Native gentlemen
to attend the meeting on
that day or on any other
day during the Doojra Pooja
and recommended that
the meeting should ^{be} postponed
till after the Holidays - He
kindly consented to this and
said he would be happy

to meet the convenience of
the Native gentlemen
but urged the necessity of
the meeting being held at
an early day after the boys
so as the arrangement
for the appointment of a
New Principal ^{might} be made
enable him to take charge

the opening of the College (25 Oct)

As the question is of
great importance I beg
again to urge the necessity

suggesting an early day

My dear Sir

I think it will be desirable to have a special meeting of the Winter College arranged as soon as possible to consider the nomination of a new Principal in the place of Capt Richardson, so that Richardson in fact may be ready to assume his charge at the opening of the classes. If convenient to you, I will propose Thursday next at five o'clock P.M. at my house, & I beg that you will urge on the native members the importance of their attending on this occasion.

Yrs truly

are various. - He further states that
the three points viz: the results
of

of the Scholarship Examination, the appointment of Repinothling and the readmission of Opendu Comar within which from the grounds of the Principals report, did not receive their publications from him but that they were known at the College long before he was aware of them, and accordingly solicits that the Committee will be pleased either to reconsider the order in question or institute an enquiry into the matter & trace these reports to their proper sources.

I may as well mention here
that I have been informed
in conversation by Mr. Lodge
the Principal of the Hindoo
College that he usually receives
his first intelligence of the
orders of our Committee through

the first intimation he received

the date of our convocation
he had received
no printed copy of
the Annual Report.
Mr. Lodge made no
complaint on the
subject, but mentioned

will give very good Demy of Paper
Monthly @ 3/8 per Ream, that in

supply at that rate could be
depended on - forwarding a letter
from the Secretary to School Book
Society communicating that the
Society has not received supply
of Stationery and probably will
not do so for some time and stating
that a large quantity of Paper
or might be at once purchased

to 2/8 per Ream, The Principal
further states that if the Committee
wish it, he will make the
best

best terms he can for obtaining
Paper but he can not go about
the Bazaar simply to make enquiries.

The meeting of the
Principal. Dated 24 April 1900
calling the attention of the Committee
to his letter of 12 April respecting
the College servants and reporting
that the avariciousness therein
complained of still continues

Kind also extract from
the Proceedings of the Council
of Education of 8th May 1899, item
1. intimating that the Council
are of opinion that the servants
of the Sanskrit College ought
to be under the control of the

be extended to maintaining
of order and regularity in
the classes of the Sanskrit College

of the Hindu College will
ascertain if the Principal

127
is willing to undertake this
additional duty.

Read also correspondence
between the Secretary & the Principal
on the subject the latter repre-
sents that as the servants are
of no assistance in maintaining
order and regularity in a class
and are never used for such
a purpose he is afraid that
unless there is a control over
the Teachers the proposed arrange-
ments would be productive
of nothing but continued
disputes whereas he would
attempt the slightest interfe-
rence - remain in the room in
the Hall - influence & create
scenes of discipline - one of the most
difficult part of the Principals
duties simply because he has
not sufficient power granted
him that a student's reply

12.
to his Master if you had not
furnish me for if you do not
petition the Committee that the
policy that a petition of this
nature would be attended to,
and the Principal called upon
for a report and an investigation
school foot involving the Principal,
Head Master, and Teachers with
official correspondence and
the waste of much time, presents
any punishment at all taking
place in innumerable instances
and that in reality this Committee
and not the Principal has
Charge of the discipline of
the College.

that the Committee feel surprised that he
at this time ^{disregards} stood the passport of
Extract 1 from the proceedings of the Council
measures of 8 May 1850 which was forwarded
for his information with the letter of 11 May 1850 -
asking him whether he was willing to undertake
the additional duty of maintaining order &
regularity in the classes of the Seminary College
during the time the students remained in the College.
It was intended that the Teachers should also be
under his control, with the proviso that the sanction
of the Council will be requisite & should be obtained through
the Secretary of the College from the Principal of the students.

Principal Wardens

Wm.

Sir

I am directed by the Committee of the Wardens to express their disapproval of the tone of your letter to us of the 26th Sept last - Your comments upon the remarks contained in the Precedents minute, especially those in which you ~~expressed your belief~~ ^{stated your belief} of the opinion which ~~was~~ ^{is} entertained of your disposition to perform the duties of your office, appears to the Committee highly disrespectful - I am directed to warn you to be more guarded in your future communications

Wm.

2 The Committee are at a loss to discover how you could fail to understand that the fourth master, when the question was made, whether or not his place should be supplied, was Mr. Jagg; and that the appropriate

of the time supposed to exist in the
College is taken from the account,
of which I annex a copy, for needed by
yourself, and therefore supposed to
be accurate, while Mr Foggo was
still on its establishment. The

~~The Committee~~
Committee however, conceding that
these points were really not understood
by you, and also that you really felt
doubtful whether or not you were
called upon "to draw out a new
course reading in mathematics history
&c" have directed me to inform
you that this is not their wish: but
that you should furnish them with
such a scheme of appropriation of time
to the different subjects of study, included
in the present course, as you after
communication with Professor Sutcliffe
