To the Members of the
Council of Education

It would be every
very convenient for us if any
son Remondeth Holden were to
attend the College in the early part
of the day. Without creating
any disturbance in the domestic
economy, I consider it would
be advantageous to have morning
school.

Dear Sir
I have promised on the day
I expected you to attend the College within
a few days - but unfortunately another
fever attack prevents me from fulfilling
my promise. The doctor also advises me
to try the effect which is now of use may
have upon my health. I must

Certified, that Baboo Kuntunoo

 attack of colic - followed by
 the passing of a large worm
 he is now suffering from
 general debility - and, I consider
 it necessary that he be allowed
 a further leave of absence
 for a period of one month
 or six weeks. If, however,
 the Baboo's strength be
 re-established - at the end of
 a month he will not avail
 himself of the remaining

Sir,

I beg you will have the kindness
 to represent to the Committee the necessity
 of appointing another deer for the collection
 of the schooling bills of the Philadelphia
 members of the House, drawn in very small bills
 from 100 to 170 which it is impossible for me
 to collect. As the collecting can hardly
 be made unless a house is frequented for
 4 or 5 times at least, one deer is quite unequal
 to attend 100 houses or in other words to return
 400 times in the course of 30 days.
 Under these circumstances much money of
 schooling have accumulated which it has
 been found very difficult to realize unless
 another deer is allowed by the Committee.

Dear Sir

The death of Mr. Jones creating a vacancy in the Junior department, I beg most respectfully to request the favor of your laying my application for promotion before the H. College Committee.

I am employed as a Junior teacher in the H. College about 3 years. I trust I have given satisfaction to my immediate superintendents Mr. Jones and to Mr. Lewis, the head teacher in the Senior department, who examined my class last two years. Mr. Jones favored me, 6 or 7 months ago, with a commendatory note to the principal, requesting him to take my course into his consideration and grant me a testimonial. Mr. Lewis has given favorable reports of the progress which the class made under me during the year he examined my class.

I received my education at the H. College, was in the 1st Class about 3 years, and passed successfully two senior scholarships examinations. I am going tomorrow to stand the chance of an examination for the 3rd grade of schoolmasterships before the examining committee of schoolmasters. In the mean time I

Sir.

With reference to the order of
 the Committee, relative to the collection of schooling
 of the Philistines, I have the honor to state that the
 arrangements made by them, will scarcely afford me
 time for the performance of the other important part
 of my duties. I need scarcely mention that it is at
 least as necessary to draw out Bibles as well as to
 examine and have them entered. In addition to this,
 should the Collection department entirely devolve on
 me, I will have work sufficient in hand to engage
 my attention for the greater part of the month. At
 the end of every month, I will have to prepare and
 make the Bibles ready for delivery on the 1st of the next
 month; while from the 1st to the 15th, I will have to
 make the Collection as well as to keep accounts
 thereof. This will not only preclude me from
 attending to the more important parts of my duties,
 but will defeat the object, the Committee had in
 view in the appointment of a Superintendent.
 Under these circumstances, I would request the
 Committee to reconsider the propriety of engaging

Yours

my attention, in a great measure, to the Collection
Department, to the exclusion of all other important
matters, immediately connected with the instruction
of boys entrusted to my charge.

I beg further to add that as much
reluctance is shown by the Parents or Guardians
of boys to pay the schooling money even when our
Schools call on them for several times together, I
entertain much doubt as to their sending the
same of their own accord through their children.
Besides as the Pootahalla is principally composed
of boys of very age, their Guardians' words, I am
afraid, be found reluctant to send their schooling
through them, lest they should, in this way, lose or
apply it to any childish objects, attractive to
them & circumstances that may, in all probability,
tend to impede Collection.

Sir! I beg to bring to your notice that I was absent from my duties on Saturday the 17th of May last; and that I forwarded to the offg. Head Master, a medical Certificate from Doctor Vof, accounting for such absence.

On receiving my salary for that month, I was surprised to find a deduction made according to the provisions of Rule 2nd of the Absentee Regulations, and not of Rule 3rd to which I submit I am liable.

I may ask the favor of your attention to the subject, that the mistake may be rectified.

Respectfully Sheweth

That your Petitioner in order to prove his
 sons Durga Churn and Jyotsna Churn Mookerjee educated
 in a liberal manner in the English Language, had them the said
 Durga & Jyotsna Churn admitted as types of the English Language in
 the School Society School, an appendix of the Hindoo College, some
 months ago, where they were hitherto been receiving an excellent education.

That your Petitioner's said sons were from some
 urgent affairs constrained to leave Calcutta in order to be present at the
 solemnization of the Marriage of one of their nearest relatives - and
 thus to absent themselves from the School for some 8 days; and
 such circumstance also caused a delay in the regular payment
 of their education fees for one month.

That your Petitioner's said sons were from
 the above trifling circumstances, excluded from the School, as students
 and thus almost deprived of the means of being educated; all future
 prospects, of their being improved as English Scholars are lost; and they

now stand almost hopeless of their procuring any way useful to their family
or their Country, for education is the source of all future greatness.

Your Petitioner therefore most humbly forwards
the matter unto the kind considerations of the Members of the
Council of education and most fervently trusts of them that their
Body whose object is to impart education to the Needy and the
helpless should ^{not} for any trifling circumstances at once deprive
young Petitioner of the ~~invaluable~~ means of education.
And thus to do an irreparable injury to their good infantine temper.

Your Petitioner would advance nothing on
the behalf of his Son, but appealing only to your feelings of
justice and mercy, remain your
Obedient Son in the School.

In reply to your letter No. 67 dated 28th June, I have the honor by direction of the Council of Education to inform you, that as both the proposals submitted with respect to Homers Chunder Dutt would be opposed to the regulations of each of the Colleges and as his wish is the very unselfish and laudable one of being unwilling to deprive the Fever Hospital of the benefit of his Scholarship allowance, the Council cannot think of permitting his generosity to interfere with his desire to study Medicine. They therefore propose foregoing the remainder of the Baboo's allowance, to changing or modifying the rules of the Colleges or interfering with the object of the applicants in studying a liberal and enlightened Profession, in the successful prosecution of which his high literary and Mathematical acquirements will be of the greatest service to

The Secretary to the Council of Education

Dacca 19th April 1845

I take the liberty of bringing to the notice of
the Council the following remarks, regarding the obstacles
I have had to encounter in employing natives acquainted
with the English, and Bengalee, but who are ignorant
of Persian.

English Writing. It is a common and the object of the native to suppose
that they write English left to right by the same long pen.
I have endeavored to ascertain whether this be true, and
if true, what is the cause of the native's error.

Many natives hold their pen when writing
English very much in the same manner, as when writing
Bengalee, instead of holding straight in his chain
like an European, the native turns his face to the left.
The bottom of the paper in which he writes being inclined
to the right, the consequence is that he brings his hand
before the pen, and must lift it up after writing a
few

few letters; the Bengalee, on the contrary, can write several
letters without moving his hand, and his style of
writing is much less laborious. My opinion, however, that
may not be sufficiently clear, but if any person will
let a native, improperly taught, write before him,
what he means will at once be understood.

4 The experience leads me to believe, that the
slow manner of some natives is caused by a defective
manner of holding the pen, a point on forehead or the action
of some boys when they commence their writing.

Many boys come from the public schools reading well enough
unintelligently well grounded in Bengali, but incapable
of reading written Bengali; it should think this defect
might easily be overcome by carrying a standard
word in the Bengali language to be written out, not
by one but by several rapid copies; in the interim this can
easily be accomplished, if every head of an office will only
direct each of his Am-lahs to write a few pages. The
student after reading this copy for a few months will
be able to decipher any legible Bengali writing.

5 A student has acquired a good English Dissertation made
on the local Bengali
conversation and can read and write his own language
with ease. He might reasonably be supposed qualified
for employment in the local office, but he there
meets

meets with a serious obstacle, for instead of the language written in the Bengali Character, being always Bengali, it is a sort of non-descript jargon composed chiefly of Persian words with Bengali terminations, and even these are sometimes dispensed with. All officers are not alike in this respect, but I do not understand why Persian should be used under the disguise of Bengali after the Government has directed the latter language to be introduced; the introduction of Persian words however adds to the old language, and their constant underlings to keep out the students educated under the new system, who are ignorant of Persian, and so there is much patronised by such old school.

It appears to me that were a circular issued to all heads of offices, there could not be much difficulty in obtaining a list of those Persian terms and phrases, indispensably necessary in conducting public business, either from there not being any corresponding words in Bengali or from the Persian words having, by long use, become so familiar to the people generally, as to be considered a part of the Bengali language; from the list so called for, a selection might be made by competent authority, and the public officers in the interior be enjoined, not to use any Persian words or phrases, excluded from the selected list.

If some rules be not framed to check the
 use of Persian, I fear great difficulty will be
 experienced by Imperial officers, in promoting for
 students, ignorant of that language, for although
 one officer may endeavour to have some Bengali
 written in his office, the heads of an independent
 office may not think it advisable, to pass any orders
 on the subject.

Pro. 9 August 1895

Sir

Needy August 1895 - I beg to inform you that in company with Mr. Rowe I yesterday inspected the building in course of erection for the School Society's school and ascertained by actual measurement that it will not accommodate more than 400 boys, whereas it is proposed that the school should consist of 500

I further beg to state that should it be the wish of the Committee to enlarge the building, it may be done by carrying on the two rooms to the south to the full extent of the wings. The building, with these additions, would accommodate 500 boys and also admit of one of the rooms being walled off to form a library which is very much required

College by the prospect being held out
to him of a permanent appoint-
ment in it, on the basis of tenure.
There are two ways in which he might
be very usefully employed, viz either
as a lecturer on Natural Philosophy,
or as an illustrated Teacher of the
Sciences.

It is understood that the Council are
now looking out for a lecturer
on Natural Philosophy. Why not offer
the Brunswick? The subject is a favor-
ite one with him; it requires none
at present much of his attention, and
his experiments are usually very
successful. It would make him
happy for life to appoint him
lecturer on Natural Philosophy
with a salary of 300 Rs a month.

Again, it is a favorable idea
to the Council to have independent
of the Lecturer a Classical Master
for the Mathematics, and a Mathematical
Master exclusively for the Mathematics,
by the Senior Lect. in Brunswick
might act with great advantage
to the College, in the latter capacity.

in short there would be no difficulty of finding a place for him if any the Council should authorize his permanent appointment.

I have next to observe

that should Mr. Brewster be appointed to Houghly he will be allowed, I hope, to remain here till Mr. Lewis's arrival. It would be a most unhappy thing should he be sure to be deprived of his services at an earlier period, thus adding more to the loss of service which, during the last two years, have nearly amounted to the service of the Service Department.

The salary of 300 Rs. allowed to the Principal of Houghly is a great deal more than the Principal of this College is entitled to. He ought to have 100 Rs. per annum, as far as it is generally estimated, as 400 Rs. in Calcutta, & yet more

I should have said my 250 a month
It is not to be expected that good
Teachers will either be attracted
to the Quaker College or be induced
to remain in it, unless the salaries
are made equivalent, every thing
being considered, to those of other
Colleges

I have to remain to be, Sir
Yours most respectfully

Extract from the Proceedings of the
Council of Education dated the 9th July 1855.

A. XXX The Secretary brought to the notice of the Council
with reference to an Indent for books forwarded to
him by Mr. Rieu of the Hindoo College the fact of
a large amount of the book allowance of that
Institution being expended in the purchase of
numerous class books which the boys ought to
possess themselves and not obtain from the College
Library. That the system of paying for their
own books on the part of the school boys was
being generally adopted in the Madras with
great success and advantage where the means of
paying for them were not so great as they are
known to be in Calcutta. and that the adoption
of a similar system in the Presidency Institutions
would be productive of equal good, and enable the
book fund, gradually to introduce a much
more valuable and extensive library of general
reference into each Institution than it possibly
could do under existing circumstances.
Ordered: That the above be recommended to the
Authorities of each Institution to be considered by
Council, and the pupils to be encouraged as far as
possible, to pay for their own books, and that
only being provided in duplicate copies as
from

from their high price and extent, are beyond the
reach of the generality of Students. That all
orders for books in future, be framed upon this
principle, and the Masters of every class be directed
to inform their pupils of the regulation now
ordered.

211.

That with respect to the Hindu College,
Mr. R. be informed again, that all communica-
tions relating to that Institution must be
properly addressed to the regular authorities and
not forwarded directly either to the Government Book
Agent, or to the Council of Education.

For

I beg to forward an application
from Mr. Brewster, Acting Collector
of the Bureau of Fish for an increase
to his salary. As during the last six
months of his service there will be
2500 dollars per annum at the disposal
of the Committee, I hope one half of
that sum will be given to Mr. Brewster,
and I would at the same time ask
the Committee to consider whether the
other half might not be given to Mr.

helped, &c. as in full answer to the
Committee has been lately examined
& has consequently been put to great
expense in various ways.

I have to serve like him

To Puroomoy Dutt Esq.
Secretary to the Hindoo College

Sir

When I entered on my duties as
Officiating 2nd Master of the Hindoo College
it was under the impression that at the expiration
of six months an increase would be made to the
salary of 125 Rs per month which I should receive
during that time. I have now been seven months in
my present situation and therefore request you will
be so good as to submit this my application in an
advance for the favourable consideration of the committee
of the Hindoo College.

I have the honour to be,

Recd 11 Aug 1865 Secy to the Union College Committee

With reference to the accompanying
application, should the proposed discharge
be approved by the Committee,
may I beg the favor of their giving me
a testimonial of my services under them, such
as in their judgment I may deserve.

As in the event of my appointment to the
line he required to leave within a week or so,
may I also ask the indulgence of receiving
my salary up to the day of my relinquishing
my situation at this college.

Dear to the Madras College Committee

Madras Aug^t 11/45

Sir, I beg you will have the goodness to deliver in
Circulation, both Committee of the College, by application
for permission to exchange the situation where the
house of the said, under them, with Mr. Ranganatha
Kumar, who is now at Calcutta, and who is
affiliated to the Madras Hospital of the College.

The Committee will remain in how often in it should
be interfered with the discharge of my duties, and will
therefore appreciate the motives that induce such
a proposition. In the early part of the year I thought
my medical advice, to the College for some more
healthy state, but it is now no suitable opportunity has
presented itself. This arrangement, to which I submit
the approbation of the Committee, will be mutually
very advantageous, without at all prejudicing the
interests of the Institution.

of the Madras College dated 7th November 1864

At the whole of the first class are candidates
for Senior Scholarships they were det. examined in detail.
They read and explained to me passages from the play
of Hamlet and Milton's Paradise Lost and were exam-
ined in Natural Philosophy in all the subjects
they acquainted themselves with. They were not only
able to explain the principles of the various sciences
but also to give a good account of the progress of the
various sciences. Their answers were quick, intelligent
and original. Some of the questions appeared not only to have been
repeated in the examination but also to have become
familiar to them. The success of the examination was
very satisfactory. It was a success in the English studies
and of giving off the degree which is attached to the
English Department of the College.

At the whole of the 2nd class in the language
of Sanskrit, being candidates for Junior
Scholarships, were likewise only subjected to a very general
examination and acquitted themselves in a satisfactory
manner.

On a review of the whole proceedings, attendant
upon the Examination, I have no hesitation in expressing
an opinion that the Department has improved as much
as could be expected under the circumstances that if it should
continue to progress in a similarly creditable and
satisfactory manner, a very few years will remove the
 stigma at present attached to it and prove that the
 Institution was quite as capable as the others
 of examining sound and profound English scholars.
