I have much pleasure in certifying that --
Mr. Susil Kumar De, B.Sc. has been known to me as
a student of the Department of Mathematics. He has
had a very successful academic career. He joined
the Honours Mathematics class in 1926 with a very
good previous record which he was able to maintain
during the remainder of his student life in as -
much as he was placed First in the First Class at
both his B.Sc. Honours as well as his B.Sc. degree
examinations which he passed in the year 1929 and
1930 respectively. I have formed a high opinion of
his Mathematical ability and general industry and
believe that he will be able to give a good account
of himself in any sphere of life for which he may
be fitted by his education and attainments. So far
as I know he bears an excellent character.
