To

The Principal of the Patna College

From

Presidency College the 25th July 1874

Req to forward question Papers for the Survey Teachership Examination which is to be held under your supervision at Patna on Monday the 3rd August and following days. The Papers are to be given out as follows.

3 rd August	10-1	Mensuration
4 th do	10-2	Drawing
5 th do	10-1	Surveying

2 you will be good enough to arrange for holding the practical Survey-Examination on Thursday in strict accordance with the directions contained in clause 11 of the Rules for the Examination. The whole of the answers should be despatched afterwards to me by Parcel Post.

3 There are two candidates to be examined in English, one in Hindi, and one in Urdu. I have been unable to get a translation of the Papers made into Hindi and Urdu but as only one paper will be given out daily, there will probably be no difficulty in your getting translations made daily of each Paper half an hour before the time fixed for opening the Examination by some competent person. If any delay should arise in giving out the Paper in consequence of this you can grant extra time to the Examinees for answering the questions.

4

The names of the Examinees are subjoined

Superintending Engineer.

Sir

Presidency College the 1st August 1874

I have the honor to request that you will be good enough to have an estimate prepared of the cost of removing the marble Statue of the late David Hare from its present position in the quadrangle of the Sanskrit College to a new site in the compound between the Hare school and the Presidency College. It seems to me that the most suitable position for the Statue would be in a line with the east ends of the two buildings and half way between each, and the Statue might be placed facing the street. At present there is a very unsightly Cupola over the Statue, and it would be well to consider whether some thing of a more artistic kind could not be placed over the Statue in its new position. I may mention that your Department will not be asked to provide any funds for carrying out this requisition. The funds will be provided by private subscription, and by the grant of a portion of the surplus fee of the school.

To

Babu Nuffer Chunder Paul Chowdhury
Jamindar Latordah Zillah Khairah

Sir

Presidency College the 3rd August 1874

I have very great pleasure in acknowledging the receipt of Rupees (4000) Four thousand, which you have generously placed at my disposal for the purpose of providing the Presidency College building with a turret clock. For this act of liberality I beg to tender you the warmest thanks on behalf of all connected with the College, and I shall bring your handsome donation to the notice of His Honor the Lieutenant Governor. In providing the college with a clock which will be really worthy of the Institution to which it belongs, you have not only supplied a want which the College feels keenly, but you have also contributed a public convenience which will be gratefully acknowledged by the entire community of this portion of the City. I have not yet received the Estimate of the cost of erecting a suitable tower in the College building for the reception of the clock but it is in course of preparation and immediately after it reaches me, I will forward you a copy as also of the Drawing showing the position the clock will occupy.

Dated 4th August 1874

Refers to the Repair of a Drawing Piece

The undersigned has the honor to forward for repair the accompanying Drawing Piece & to request that it may be returned to this office as soon as practicable

Sd/ J. Sutcliffe
Principal Presidency College

No 1437

To H. S. Atkinson Esq. M.A.
Director of Public Instruction
Presidency College the 14th August 1874

I have the honor to report that Babu Saffer Chund Pal Chowdhury Zamindar of Lataodah-Kishnagone has generously placed at my disposal the sum of Rupees 400/- for the purpose of providing the Presidency College with a really good Turret clock, and I beg that Government will permit me to accept the Babu's handsome donation for carrying out this useful purpose. Not only will this clock meet an acknowledged want at the College, but it will be a public benefit to the entire community in this part of the Town, and I would recommend that the thanks of Government be awarded to the Babu for his liberal gift.

2 When I was in England last year, I thought it probable that I should soon after my return to India meet with some Native gentleman, whose liberality would enable me to place on the South front of the College building a suitable clock, and I made enquiries as to the cost of a first class Turret clock - packed and placed on boardship for Calcutta. Two estimates are in my hands, one for a clock with 5 feet copper dial, and a 4 cwt. bell for striking the hours and half hours only - The other for a similar clock as regards works, but with additional bells for chiming the Quarter hours. The cost of the first would be £155/- and of the latter £225/- free on board ship. Of course I should very much prefer to have a clock striking the quarters but I am afraid that the cost of erecting a frame for the clock and a tower for the bells will be more than 2000 Rs. The Executive Engineer is now preparing an estimate of the cost of the alterations, and also a drawing to show the effect on the South front and on receiving his estimate, I shall be in a position to determine whether the cheaper or more expensive clock can be ordered. I beg that Government will permit me to use the

necessary order to London for the construction of the
Clock, and also to make all the arrangements for In-
surance &c and for the payment of the cost of the clock

I have &c.

To Norman Chevers Esquire M. D.

Principal Medical College

Presidency College The 7th August 1874

Sir,

The Director of Public Instruction has request-
-ed me to enter into communication with you for the pur-
-pose of making an equitable division of the Rupees 2,000/-
per mensem set apart in letter N^o 2248 of 10th July from
the Government of Bengal for the payment or part pay-
-ment of the tuition fees of Mahomedan boys in our res-
-pective Institutions. In dividing the amount I think the
relative fees in the two colleges should be considered. Our
fee is 12 rupees a month. yours is Rupees 5/- I believe bearing
this in mind Rupees 1400/- for the Presidency College and
Rupees 600/- for the Medical College would not be an in-
-equitable division. I should be glad to hear your views on
the matter.

I have the honor to be &c

being about to be permanently appointed an assistant in the Chemical Laboratory attached to the Presidency College I have the honor to request that you will be good enough to grant him the usual Certificate of health in terms of the Government Notification published in the Calcutta Gazette Page 1022 dated 24th June 1874

Yours &c
J. C. H. Sawney
Off. Principal Pres. College

My dear Baba

Aquet 20/74

I have now received from the D.P.M. an Estimate of the Cost of putting up the room for the Clock & bells and of preparing a handsome elevation on the South front of the College building for the Clock face, and I give you below an Estimate of the entire Cost for a Clock which strikes the hours on 4 CWT bell and the quarter hours on two smaller bells. You will see that the amount required will not fall short of Rs 4500. I can however procure a Clock similar to the other in every respect except that it will not chime the quarter hours for Rupees 400 of the amount you have already been generous enough to place in my hands. Perhaps you would be kind enough to consider which description of Clock you would prefer. and if you should prefer (as I hope you will) the quarter hour Chiming Clock, I trust you will increase the obligation under which you have placed us all by subscribing a further sum of Rs 500/- I am going to meet the Lt Governor at Gwalands on Saturday & I shall not fail to bring to his Honors notice your great liberality.

Yours very truly
J. H. Cliffe

Baba Muffer Chundoo Paul (Chandhari) Katoobah, Kishnupur

N^o 11449

To James Sutcliffe Esquire M. A.

Offg. Director of Public Instruction

Presidency College the 21st August 1874

Sir,

I have the honor to report that owing to there being^{no} railing round the Presidency College and Hare School Buildings, it is impossible to prevent outsiders from trespassing on the college and school premises

2 The other day one of our servants discovered an outsider making use of the college latrines. I have reason to believe that other altercations have taken place between our servants and passengers in the street. The Head Master of the Hare School also informs me that passengers are apt to take shelter in the School Building - a circumstance which tends to interfere with the discipline of his scholars

3 The Chemical Laboratory and lecture rooms are very unfortunately circumstanced in this respect. They are situated close to Bhavani Charan Dutta Street in which there is a large number of native houses. Mr. Piddar informs me that it is necessary to keep the doors open for purposes of ventilation, and that he is subject to incursions of children, Goats and Monkeys which materially impede him in the exercise of his professional duties

4 It is also very difficult owing to the wide range of our Premises to guard the college and School Property, and if some of the things in the Chemical Laboratory are stolen it will be impossible to replace them in India.

5 I feel it my duty to bring the above circumstances to your notice, and at the same time I have the honor to suggest that the expenditure necessary for providing railings both for the School and the College might possibly be met out of the Surplus funds of the Hare School and Hindu School.

6 According to a letter No. 3070 of Mr. Secretary Bernard's dated 29th August 1872 to the Director of Public Instruction Para: 5 the savings from the grant or from the fees of any collegiate School in one year are to go on to the next year and will not lapse to Government, we have therefore on account of the Hindu School a surplus of Rupees 1933/- and on account of the Mare School Rupees 6515/- for the year 1873-74 - I anticipate a similar surplus for this year. I have the honor to propose therefore that the necessary funds should be provided from this source.

7 At the same time, I may mention that when the hired house now occupied by the college at the corner of the college street is given up which will be on the 1st of next month, there will be no godowns for the servants and we shall be deprived also of part of our stable accommodation - I therefore have the honor to recommend that the building of godowns and stables should be undertaken immediately.

8 It may be possible to hire stables in the neighbourhood, but unless there is some accommodation for the college servants, I do not see how they are to be always on the spot to take care of the building.

9 I hope I shall not be considered importunate in bringing this urgent need before the consideration of Government.

I have the honor to be Sir
 Sd/ Charles A. Sawney
 Offg. Principal, Presidency College.

To J. Sutcliffe Esquire M. A.

officiating Director of Public Instruction
 Presidency College the 11th September 1874

Sir,

With reference to the letter N. 2685 from the Under-Secretary to the Government of Bengal Dated 20th ult. forwarded with your endorsement N. 4115 of 1st instant I have the honor to enclose herewith a letter which I have this day received from Babu Nafar Chandra Palchowdhary the Donor of Rupees 4000 for a Turret clock for the Presidency College.

2. The Babu expresses an earnest hope that the Rules for indenting for European articles through the Secretary of State may not be held to be applicable to the Donation made by him, and that the ordering of the clock from England may be left to the Principal of this College or to himself with such assistance from the Principal as he can render in the matter, the Babu it would seem is under the belief that it will in this way be possible to procure the clock more expeditiously.

3. It seems to me that the case is exceptional, and I therefore beg that you will ^{be} so good as to move Government to authorize the Principal of the Presidency College to order the clock direct from home.

4. The Babu also hopes that the clock when put up will be maintained and repaired at the expense of the college which seems reasonable.

I have the honor to be

N^o 1491

To J. Sutcliffe Esquire M. A.
Officiating Director of Public Instruction
Presidency College the 17th September 1874

Sir,

I have the honor to request that you will sanction our hiring, at Barrackpore, the Bungalow which was occupied last year by the Surveying students for the months of November, December and January at a rent of Rupees 40/- a month to be charged to the Survey Account.

The house has been just done up, and Mr. Scott thinks the owner will not let it for Rupees 40/- as he did last year.

I have the honor to be
Sd/- G. H. Lawrence
Offs. Prinl. Presidency College.

N^o 1492

To J. Sutcliffe Esquire M. A.
Officiating Director of Public Instruction
Presidency College the 17th September 1874

Sir,

I have the honor to request that you will obtain the sanction of Government to our drawing an increase of Rupees 10/- a month to the salary of Babu Raj Krishna Mitra Assistant in the Physical Science Laboratory from June 15th of this year.

2 It appears from a letter of Mr. Secretary Bernard to the Director of Public Instruction Dated 3rd August 1873 that the Lieutenant Governor sanctioned the appointment of two Laboratory Assistants on a salary of 60/- each a month rising by annual increments of Rupees 10/- to 100/- a month. Babu Raj Krishna Mitra has already been 9 years in his present post on salary of Rupees 70/- a month and therefore it seems

to me that his annual increment ought to commence from the date of the separation of the Physical and Chemical Laboratory.

3 The new assistant in the Chemical Laboratory will after the lapse of a year from the date of his appointment will become entitled to his annual increment of 10 Rupees a month, and it seems unfair that a man of approved skill and 9 years' service should obtain no better terms. I therefore request that his annual increase may commence from the 15th June 1874

I have the honor to be, Sir,
Sd/ Charles. H. Sawney
Offg. Principal, Presidency College.

To W. S. Atkinson Esq M. A.

Director of Public Instruction
Presidency College the 3rd November 1874

With reference to the letter from this office N 1511 of 14 October I have the honor to report that my appeal against the valuation of the new college premises at an annual Assessment of Rupees 8400 for Municipal Sanitation has been unsuccessful and I beg that the Accountant General may be instructed to pay the quarterly Rates due on this Assessment. I considered now, as I did before lodging an appeal, that the rate is on a pie when compared with the rates at which similar buildings in other parts of the Town are assessed, but had the assessed value been 10 or 12000 Rupees per annum. I believe the appeal would have been equally unsuccessful. The appellate Court ought to consist of independent officers, and not merely of the Vice Chairman and a couple of Justices, who are in my opinion not likely to give due consideration to arguments urged by occupants of Government Premises, against excessive assessments which have been made by Municipal Officers.

I have &c
J. J. Lutchiff

J. Hutchiff
Principal of College

N^o 1520

To

C. Gay Esquire, Officiating Accountt Genl Bengal.
Presidency College the 11th November 1874

Sir,

With reference to your Memorandum N^o 874 of 7th November, I beg to point out that the discrepancies pointed out in the Memorandum, which I return, are probably due to mistakes in your office in copying out the amounts credited in the Banks of Bengal daily accounts for February and September 1873, Under 17 February a sum of 5 Rupees has been omitted in the

Hindu School account, and under date 19th September
Rupees 15- have not been credited to that school. Again
under date 10 September the amounts credited to the two schools
have been transposed. The sum of Rupees 62/- credited to the
Hare School belongs to the Hindu School, and Rupees 164/-
credited to the Hindu School belongs to the Hare School -
The above corrections being made the discrepancies will
disappear.

I have &c.
Edw J Lutchiffe
Prinl Presy College

N. 1521
To W. L. Atkinson Esq. M. A.
Director of Public Instruction
Presidency College the 11th November 1874
Sir,

I have the honor to request that you will
be good enough to move Government to sanction the erection
of gymnastic apparatus by the Department of Public Works
in the compound of the Hindu School of a similar kind
to that which has been put up on the premises of the
Sabutta Mudressa. The accumulation of surplus funds
during the current session is already far in excess of the cost
of carrying out my proposal, - and I beg that I may be
authorised to draw upon these surplus fees in payment
of the bill. The cost of the apparatus at the Mudressa was
about Rupees 65/- I believe, and the cost of the similar
apparatus at the Hindu School will not exceed that sum.
It would be convenient if the apparatus could be set up
between 10th December and 10th January when the school will
be closed.

I have the honor &c.

To The Executive Engineer, 2^d Calcutta Division

Presidency College the 5th December 1874

Sir,

Under instructions from the Superintending Engineer, I beg to enclose a cheque on the Bank of Bengal in your favor for Rupees (1500) one thousand and five hundred, the estimated cost of the clock tower at the Presidency College. The classes are now closed, and will remain so till the 11th Jan. and it is desirable that the work should if possible be finished by that date, I need hardly say that if you can finish the work under the estimate I shall be very glad, as I have only a sum of Rupees 4000 at my disposal for the clock and works connected with it.

good enough to send workmen to the university building to remove the plaster from the western wall of the office room you will find the furniture removed to enable them to do what is wanted I trust however that in 2 days the room can be reoccupied.

I have the honor &c
 Edw. S. Sutcliffe
 Principal, Presidency College

No. 1527
 To W. S. Atkinson Esquire M. A.
 Director of Public Instruction
 Presidency College the 5th December 1876

Sir,

As this is the most favorable time for putting in foundations, I have the honor to request that you will represent to Government the urgent need for proceeding with the construction of the out-offices connected with the college building the plans and estimates for which have been approved some time ago. I understood that the necessary provision was made in the D.P.W. Budget of the current year for the cost of a portion of the work at least, and if the completion of the out-offices could be managed before the next rains set in - it would relieve the College of a most serious inconvenience - At present as you are aware, we have not a single hut on the premises for servants, and much valuable property is subject to risks which would not be incurred if we had the means of keeping all the servants on the premises. The railings round the compound will doubtless be provided for by the Hare School Surplus, as soon as the amount of these has been furnished by the Accountant General in accordance with instructions already given him.

I have &c

Edw. S. Sutcliffe

Sd/ J. Sutcliffe
Principal, Presidency College.

N^o. 1529.

To W. Smith Esquire C. E.

Superintending Engineer

Sir,

Presidency College the 9th December 1874

The enclosed demi official note refers to a proposal made by me that Government should sanction the erection of a set of Gymnastic apparatus in the compound of the Hindu School (old college building) in all respects similar to that which has been set up in the quadrangle of the Calcutta Madrasah - By an oversight the necessary order was not passed for the construction of the apparatus - but you will observe that the proposal is now sanctioned - As the Lieutenant Governor wishes to have a Gymnastic Exhibition in the Belvedere grounds on the 6th January, I suggested that the Hindu School apparatus should first of all be set up temporarily at Belvedere, and afterwards removed to the School compound - This too you will see is approved, and as there is very little time to spare, I have the honor to request that you will be good enough to move the Executive Engineer to proceed without delay in the preparation of the apparatus - I was under the impression that the work would devolve on Mr. Stewart and I accordingly wrote to him on the subject yesterday, but it appears that Mr. Mansfield is the Engineer who ought to be instructed - The cost of the apparatus will be paid by the Hindu School ultimately, but all charges connected with the sitting up at Belvedere will be paid by the Director of Public Instruction, or the Secretary to the Government of Bengal.

I have seen
Sd/ J. Sutcliffe
Principal, Presidency College.

To The Accountant General Government of Bengal.

Presidency College the 9th December 1874.

Sir

With reference to the Statement of Receipts on account of the Presidency College for November and December Dated 4th Instant already furnished to your office, I have the honor to request that you will note that the sums of Rupees 424/- and Rupees 480/- stated to have been received on the 3rd November under the head of Hindu and Aare Schools respectively, and deposited in the Treasury with Challan N^o. 255 of the 4th Idem, should be transposed, that is Rupees 480 should be put down for the Hindu School and Rupees 424/- for the Aare school.

I beg that the challan may be corrected accordingly.

Sir

I beg to forward question papers for the Survey Teachership Examination which is to be held under your supervision at Patna on Monday the 1st February and following days as follows:

1 st February	10-1 Mensuration
2 nd " "	10-2 Drawing
3 rd " "	10-1 Surveying

You will be good enough to arrange for holding the practical Survey examination on Thursday in strict accordance with the directions contained in clause 4 of the

rules for the examination - The whole of the answers should be despatched afterwards to me by parcel post.

3 There are two candidates to be examined in urdu. I have been unable to get a translation of the papers made but as only one paper will be given out daily, there will be probably no difficulty in your getting translations made daily of each paper half an hour before the time fixed for opening the examination, by some competent person - If any delay should arise in giving out the Paper in consequence of this you can grant extra time to the examinees for answering the questions.

4 The names of the examinees are Mahomed Basit and Sheo Charan Singh both teachers of Government school at Patna.

5 The question papers should be returned with the answers in Mensuration and Surveying.

I have &c.

Y^r S. Sutcliffe

the first Monday in August next submitting his application a month before the Enamuration.

J. G. G. G.
Principal of the College

July 6/75

My dear Nicholas

The Executive Engineer of the 2^d Division has sent me for perusal your letter N 330 of 18th Instant to the Superintendent Engineer about the out-offices of the College. The plan for these was settled between myself and Mr Roberts after a great deal of consideration and the accommodation provided is the least that we require. I should be certainly sorry if any departure from these plans were now made, and I agree with a suggestion made by Mr Smith, that the lower story should be now finished as designed leaving the upper rooms to be put up when funds can be provided. I partly expect that during the coming official year I may be able to get some 5000 Rs from the surplus fees of the two Schools, and I hope that under these circumstances you will allow the lower story to be completed with as little delay as possible. The studies are absolutely indispensable as our Professors come and go at all hours of the day, and there is no place whereon for their conveyance now, and no studies can be held in this part of the house. The upper story is wanted for the reception of our Surveying Instrument. Stones, Scales &c. and also for the Philosophical apparatus for which we have no room in the College building. I feel quite sure that I can provide means for completing the whole as now designed if you will allow the lower floor to be finished.

Yours truly
Signed J. G. G.

Mr. J. G. G.

the plans and Estimate received with your Memo: N/128 of
9th instant duly counterchecked.

Signed J. H. C. Principal Deputy
Residency of Calcutta 16/2/75

My dear Sir,

In considering the question of stabling for
the Residency of Calcutta, it should be remembered (1) that our Professor
cannot hire stables in the part of the Town & (2) that owing
to the distance horses and conveyances must remain during
hours of lectures. These considerations induced the L. G.
to allow the plan to be passed as they now are. Of course
in any case there will be stabling provided for the Principal
and I would suggest that the ground floor should be put
up as in the present plan - leaving each Professor to get
up his stables for. The inconvenience and annoyance will be
otherwise so great that must endeavor to bring the L. G.
to take the same view as Sir George Campbell.

Yours truly
Signed J. H. C.

To Mr J. H. C. Clerk.

ParkhullyporeDated 19th February 1875

Refers to No. 106 Dated 15th Feb. 1875

Regrets that the request contained in the Memo
referred to above cannot be complied with

S. J. Sutchiff
Principal, Free College

stabling it will be necessary for horses and conveyances to stand exposed to the weather. It is unnecessary to point out how undesirable such a state of things would be - and as I think that it will be possible to provide against this without entailing a larger expenditure during the next financial year than has already been sanctioned. I hope that my proposal may meet with favorable consideration.

3 I would suggest that the ground floor accommodation of the existing plan for the out offices be provided next year, leaving the store room on the upper floor to be provided at some future day. At present the stores are located in one of the unoccupied rooms of the College building, and it is probable they can remain there for some years without inconvenience. To lessen the expense of providing stabling I would suggest that each Professor should provide his own fittings.

I have the honor &c.

S^d J. Sutcliffe

Principal, Presidency College

N^o. 1640

To W. S. Atkinson Esquire M. A.

Director of Public Instruction

Presidency College the 24th February 1876

Sir,

I have the honor to report the result of the examination for Survey Teacherships which was held during the first week in February at Dacca, Patna, and Calcutta.

2 Five candidates were examined in Calcutta, one in English and four in Bengali. all failed. The candidate examined in English succeeded in getting a little over one-third of the marks in each subject, but the candidates examined in Bengali failed utterly - the highest marks in Mensuration being only 13 out of 100.

3

Two candidates were examined at Patna in Urdu - both failed - one of them gained one third marks in each subject, but the other only got 35 marks out of a total of 500.

4.

One candidate was examined at Dacca in English. He failed to pass, but he gained the highest marks of all that went up on this occasion viz 198 out of a total of 500.

5

I recommend the sum of Rupees 20/- from the candidates as Examination fees which I propose to divide on the principle followed in the previous Examination viz:

Mr. Downing ————— 13-5-4

Mr. Grant ————— 6-10-8

Total Rupees 20-0-0

I have the honor V.

J. Whiteliff

Principal King's College

No 1682

To The Executive Engineer, 2nd Calcutta Divn
Sir Presidency College the 4th March 1878

I have the honor to return the Plans and Estimate of the College out office forwarded with your No 203 of the 3rd Instant duly counter signed - I would suggest that the two partition walls marked A in

the Plan he omitted to allow two rooms measuring 21-2 by 26-1 instead of 4 long narrow rooms 9-9 by 26-1. I notice that there is not even provision for the Principal's horse & conveyance in this Plan. There is probably no public office in Calcutta that is not provided with accommodation of this kind for at any rate the head of the office and I very much regret that a really grand public building like the College should be denied so necessary a convenience.

Sir

With reference to the letter from Bahadur Saheb
Mulla forwarded with your endorsement N^o. 1556 of 1st April,
I have the honor to say that I cannot recommend the accep-
tance of the Bahadur's proposals so far as regards the admission
of 20 boys into the Engineering Department of this College.
The fee now levied - 5 Rupees a month is already low enough
to permit of every class of society taking advantage of the
training it offers, and it should be a retrograde step to lower
the fee for any class of students to 2 Rupees a month. I do not
know whether you expect me to express an opinion as to the
admission of boys on a fee of 2 Rupees into the other
Institutions named by the Bahadur, but it seems to me that
it should be most unwise to sanction the Bahadur's proposals
as regards admissions to any of them. The most suitable
way of enabling poor boys to pursue their studies in the

No 1714

To H. S. Atkinson Esq. M.A.

Director of Public Instruction

Sir Presidency College the 26th April 1875

I have received by the mail which has just arrived, the Invoice and Bill of Lading for the turret clock and bells which Bahu Naffer Chunder Pal Chowdhury has been good enough to present to the College. The Invoice cost of the clock is £230-10-0 and duty upon this amount at $\frac{1}{2}$ per cent will be levied at the Calcutta Custom House. As the Bahu has engaged not only to provide the clock, but to meet the expense of putting it up and also the cost of the tower which the Public Works Department is about to erect for the erection of the clock. I think that there are good grounds for asking Government to remit the duty payable on the clock, or what would practically amount to the same thing, that the duty should be paid from the Contingent allowance of the College and I beg therefore that you will obtain the sanction of Government to the payment of the Customs duty on the clock from the Contingent grant for the College. The steamer "Duke of Buccleuch" brings out the clock and she is due here early in May.

I have &c.
J. S. Atkinson

Remdeway/dage
apl 27/75

My dear Smith

I am expecting the clock and bells during the 1st or 2nd week of May, and I should be obliged if you would now direct the Executive Engineer to finish the rooms in which they are to be placed. I have already lodged with the Executive Engineer 2nd Division the amount of the Estimate Rs 1500/- The place will be closed from 15 May to 15 June, and during that time the work could possibly be finished. - Yours truly

W. Smith Esq. Suptg Engineer / Signed J. H. Cliffe

Dear Sir In reply to your note I cannot grant the leave applied for. There is nothing in Dr. Charles' Certificate which prevents him from coming to me. Should you persist in keeping him at home, I shall expel him without further reference. - Yours truly

John Aswote Shore. / Signed J. H. Cliffe

No 1715

No 1717

To H. S. Atkinson Esq. M.A.
Director of Public Instruction
Presidency College the 30th April 1875

As the Executive Engineer is pressing for the payment of the Bill for the sand which has been laid down in the Gymkhana of the Hindu school I beg that you will authorize the payment of the amount either out of the surplus fees existing on 30th March or those to the credit of the school for the month of April which are in excess of the amount required viz: Rs 168/6/4. In Mr. Cotton's letter No 514 of 18th February last forwarded under your endorsement No 802 dated 26th Idem it was settled that the amount of surplus fees to be transferred from the schools to the Department of Public Works for putting up the railing was to be the balance remaining after the expenses of putting up the gymnastic apparatus was defrayed any reference to the Accountant General on the subject does not therefore seem necessary - and with this explanation I trust that Government will be pleased to sanction payment of the amount.

I am &c.

No 1719

To The off^{ce} Executive Engineer1st Calcutta DivisionPresidency College the 1st May 1875With reference to your letter No 1907 of the 28th

April. I am sorry there shall be any delay in the payment of the Rs 168/5/4 for sand supplied to the Gymnasium of the Hindu school, and I hope the Bill will be adjusted in a few days. The delay arises thus. I asked the sanction of Government to the expenditure of Rs 65 of for the purpose of putting up Gymnastic apparatus in the Hindu school in every way similar to that which has been erected in the Calcutta Maddispa - I mentioned Rs 65 because that was, I believe, the cost of the Maddispa apparatus including the laying down of sand. The Under Secretary to the Government of Bengal in letter No 514 of 15th February last to the Director of Public Instruction sanctioned the payment of Rs 65 of on account of the Hindu school apparatus and had your Bill for the apparatus itself amounting to Rs 524/5/8 been passed through this office I could have drawn at once for the sand the sum of Rs 125-10-4 leaving the Balance Rs 32-11-0 to be paid under a fresh sanction. I have explained to Government how the matter stands and I hope to receive a reply in a day or two. If you have already drawn only Rs 524-5-8 out of the amount of Rs 65 of sanctioned by Government it seems to me that you could at once draw the sum of Rs 125-10-4 on account of the sand without further reference.

J. Hulcliff
Principal P. S. S.

No 1722
To H. S. Atkinson Esq. M.A.
Director of Public Instruction
Presidency College the 5th May 1875.

In supersession of my letter No 1708 of 9th April and No 1717 of 30th April, having reference to the payment of the Executive Engineer's Bill for Rupees 158/5/4 on account of laying down sand in the Gymnasium of the Hindu school I beg to submit for your countersignature a Bill for Rupees 125-10-4 in part-payment of the same with the following explanation. In my letter No 1521 of 11 November to your address I requested that the sum of Rupees 650 might be sanctioned out of surplus fees to defray the cost of erecting a similar set of apparatus to that in the compound of the Calcutta Madrasa, which, I was informed, had cost about Rs 650 including the cost of laying down

In Mr. Cotton's letter No 514 of 18th February forwarded under your endorsement No 802 of 25th February, the grant of Rupees 550/- was sanctioned for the payment of the cost of a Gymnasium. The apparatus was erected in the Hindu school compound in March but before taking charge of it I pointed out that no sand had been laid down, and that it could not be used till this had been done. I had then been furnished with no Memo of the cost of the apparatus as it then stood, and I did not expect that the entire cost of apparatus and sand would exceed Rupees 550/- the amount which had been expended at the Madrasa. It appears now however that the cost of apparatus is Rupees 524-6-8 and that this amount has been charged against the grant (Rs 550/-) in the Department of Public Works. There remains then only Rupees 125-10-4 of the original grant available & for this amount I beg now to submit a Bill for counter signature to enable me to draw it from the Treasury.

2 As regards the Balance still due Rs 32/11/- I beg that you will move Government to sanction payment of this from the Surplus fund of April which amounts to Rupees 297/- in the Hindu school.

I am,

J. Sutcliffe

Principal P. G. College

Presidency College May 5/75

My dear Babu

Perhaps you can now send me Rupees 500 on account of the clock and I will note over the difference till the month of December as you wish. I ordered the more expensive clock of the two for which I had estimated, because you told me that you would subscribe Rupees 500 more on its arrival - if therefore you will be kind enough to send me that amount now I shall be able to put up the clock without delay. Failing this my only course must be to ask some other Babu to assist me which I would not like to do - in as much as I should like the gift of the clock to be entirely your own.

To Babu N. S. Chundrabhaskar Churi.

Yours truly

To W. Smith Esquire C. E.

Superintending Engineer
Presidency College the 28th May 1875

Sir

I regret to say that owing to some settlement in the south end corner of the Presidency College, the rain water does not run off from one part, and consequently the ground all around is damp. There is a crack on the arch just above the place where the water settles. The matter should be looked to before the rains.

2 The entrance of the Presidency College building as apparently now planned, will be so exceedingly narrow that it will require a good driver to take the Governor General or the Prince of Wales up to the College without gazing the wheels against the posts. Moreover at all times so narrow a gate will look mean and out of keeping with the building.

3 The paint on the stair case of the College was put on probably before the plaster was dry. It has melted or deliquesced and has run down in most unsightly dark streaks, causing offensive hues and blotches. The upper portion of the stair case looks absolutely unsightly and some. I have moreover as Principal a personal interest in asking that the staircase may have a coat of paint. The present appearance suggests a want of discipline in the College. It looks as if hundreds of students had ascended and descended the stair case with mouths filled with paw, causing a plentiful supply of dark colored saliva, and had expectorated fortuitously at the balustrades.

I have seen.

To

J. Lutchiff Esq. M. A.

Offs. Director of Public Instruction

Presidency College the 17th June 1875

Babu Akhay Chamar Ghosh who passed the B.A. in the second division in 1875 begs to be exempted from attendance at the first year's class of the Engineering College and to enter at once the 2nd year's class I beg to know if you allow exemptions of this kind or if you think them desirable

I have &c.

J. H. Woodrow

Offs. Principal Presidency College.

N^o 1758

To

J. Lutchiff Esq. M. A.

Offs. Director of Public Instruction

Presidency College the 18th June 1875

Mr. Scott has thrown the Engineering classes into great confusion by not marking his Papers. He could not mark them because he was seriously ill. Had he been well and neglected to do this

duty he would have incurred the penalty of entire loss of pay and perhaps of degradation from the 2nd to the 3rd grade under these circumstances. I think it expedient for him to take sick leave from a date previous to the 14th and such that he could have marked his Papers in the interval had he not been ill.

2 I recommend that leave of 3 months from the 16th and of one week before the 14th June or in all 3 months and week be granted to him.

Superintendent of the Geological Survey of India

Sir

Presidency College the 17th June 1876

In continuation of my letter No 1745 dated 3rd instant

I am requested by Meri Lal Singh one of the candidates for the Geological Survey to testify that his marks were such that he would have passed fairly in the B.A. Examination. In the B.A. Examination the pass marks for Chemistry Physical Science and Mathematics are one third and for optional Mathematics one fourth of the Total Marks for these subjects

I have &

Yrs J. Woodman

Offs Principal Presidency College

No 1761

To

J. M. Scott Esq M.A.

Professor Civil Engineering Dept Presidency College

Sir

Presidency College the 18th June 1876

Until the return of Mr. Dawning on Monday last the 14th June I had been of opinion that the Rolls containing Marks of Examination Papers of the Engineering Dept which were delivered to me by Mr. Scott contained the marks of your Papers. In this supposition I was wrong. You had not examined your Papers and in consequence the Engineering classes for the new session were thrown into the utmost confusion and it was impossible to make the promotion from one class to another these promotions depending on total Marks and the marks of your Papers being absent

2

You were I am aware, very ill at the time, but the Government has provided regular means for relieving an officer unable from ill health to discharge his duties. During the month ending the 14th June you had to discharge your important duty of examining your Papers you could not do the work and extreme inconvenience to the Engineering classes was the result.

3

If you had not been ill the confusion arising from the absence of your Marks would have

incurred such a grave neglect of duty that it would have been necessary for me to have cut the whole of your Pay and recommended your degradation from the second to the third grade.

4 I know that your neglect of duty has been due to severe illness. To maintain the discipline of the College and to remove the penalties which would have been incurred had you been well I must call on you to take sick leave from such a date as would have given you sufficient time to mark your Papers before the 14th June. Perhaps I may fix the 7th June as the date from which you must take sick leave.

Yours faithfully

J H Woodrow

No 1768

To

J. Sutcliffe Esquire M.A.

Officiating Director of Public Instruction

Presidency College the 25th June 1876

Sir,

With reference to the opinions I am requested to give on the subject of Surveying classes I beg to inform you that I have consulted Messrs Downing and Scott both on this matter and on the subject of workshops for Technical instruction.

Mr. Dawning has already supplied you with his advice about the course and Mr. Grant has given his views in a paper on which for both Surveying and workshops he recommends general instruction in Drawing in the schools as an important preparatory step. This paper I herewith enclose.

2 I must confess that I am disappointed that Drawing is not now taught in our schools. I trust that if Sir Richard Temple will enquire what is done in Germany and Austria from the Baltic to the Adriatic and from Hanover to Russia he will learn that in every school whether for the rich or for the poor, whether for classical education as in the Gymnasias or for the more practical education of the Real Schulen Drawing is always insisted on. In Bengal we can still learn much from Germany. A knowledge of Drawing should go hand in hand with writing and should be learned with it, at least as far as to draw with the hand and eye a straight line through two points in any direction and to make a circle fulfilling certain conditions. In hand writing the straight lines and potbooks of English and straight lines and curves of oriental characters would both be acquired more carefully and completely by breaking early the stiffness of the fingers. The Gurm Mahesays of our village schools spend two months in what they call breaking the stiffness of the hands of a new boy. They make him scribble, they ought to make him draw. I strongly recommend that in India in our schools we follow as regards drawing the example set to us by Germany, France and to some extent America.

3 As to the proposed Surveying schools. I fear that they will not answer. If they are started on a large scale with highly trained teachers, and are designed for Road Surveyors and Amceens who will draw about 15 or 20 Rupees a month I fear that they will answer without a plentiful supply of scholarships and without an engagement expressed or understood that Government will find employment for all who pass well. It was scholarships and promises

of employment that enabled the Medical College to live. It would have collapsed at any month in the first twenty years of its existence had these artificial means of support been swept away. It was just the same with the Engineering College. Both these institutions have now survived the critical period of early life, and can almost go on by themselves. If Government will not give a very large number of four Rupee scholarships, it will see its schools after starting with a goodly number of pupils attracted by the novelty of the thing, gradually decline, and then after several attempts at tinkering the scheme by amalgamating schools that are small, the whole will be probably by some future Lieutenant Governor be condemned as too expensive for the results obtained and will be accordingly abolished.

4 I still believe that the most natural way to start schools of Surveying or any other new subject in India is to pay the pupils to attend by scholarships and to give good appointments to successful students, and when the scheme is seen and known and its results felt, to reduce gradually both the appointments given and the scholarships, and then to let the schools develop by their natural growth. Self-help in adopting new lines of life is not readily learned by a people tenacious of old customs and isolated by caste. They must first see by the experience of a few men more venturesome or destitute of help and therefore more desperate than their fellows that the scheme does give good results and therefore does answer. For any Surveying school intended to give instruction to 100 pupils, I would enter as my first charge.

50 stipends of Rupees 4 a month or Rupees 48 per annum each payable for two years Rupees 4800 per annum.

I do not know the sum which His Honor may be willing to spend on such schools. This one charge may trench so deeply on the sum available that it will be necessary to exercise economy in the matter of teachers salaries and house rent.

5

It was this consideration that induced me when debating the question with Mr. Croft to recommend that the Surveying Schools should be attached to the Normal schools, where at Hooghly and Pacca they would be under men exceedingly competent to start the experiment with success. When the Surveying schools became well grounded they might be severed from this connection, but at first it is useful, just as the partial shade of other trees is at first useful to the Mahogany, but after a while it is unnecessary.

6

If the Surveying schools are attached to the Higher Normal schools, house rent would generally be saved. An overseer who was a really good Surveyor and a Drawing master who had some knowledge of Mathematics would form the establishment first necessary to start the schools. Their salaries might be Rs. 100/- and Rs. 50/- each. They would want instruments and mapping materials and the assistance of chain men. Every year the class might be sent to some large town in the district and make a map of it for the Magistrate. This map if tested properly and found to be accurate might be found useful by the district authorities.

7

The sum necessary for setting up each school with apparatus would be say Rs. 400/- and the monthly charge that sanctioned by Sir George Campbell for the Higher Engineering classes say Rs. 150/-.

8

In all the yearly expense of each Engineering School attached to each of the Higher class Normal schools would be

50 stipends for two years	Rs. 400	Monthly 400	Yearly 4,800
2 Teachers		150	1,800
Servants and contingencies		108	1,300
Total yearly cost	658		7,900
First charge for apparatus for 100 students			400;

perhaps some of the instruments purchased for College could be transferred to the New Schools.

8

But though the surveying classes will be useful eventually in the country, they are not exactly the class of officers for which the Commissioners and Magistrates feel an immediate

and urgent need. The great want of the country is communications and a cheap agency for carrying into execution branch roads or canals is what the district officers require. Road Surveyors as Lord Ellick Brown informed me would be more efficient if they knew just a little of brickwork and carpentry and ironwork and could superintend the smaller engineering works. For real use the surveying schools should have a workshop attached and the establishment should consist of two sub assistant Engineer or overseers or practical mechanics one whose special work would be surveying, and the workshops and other surveying and the school, and the latter should have the assistance of a young man for drawing and Mathematics in the school.

9 For these three men perhaps Rspees 100 each for the two overseers and Rspees 50 for the assistant in drawing and Mathematical class would be sufficient. This would be Rspees 250 a month or Rspees 3,000 per annum. The Engineer officers at a station execute their work by contract I believe. It will probably be somewhat difficult to arrange matters for the pupils to see all the contractors' proceedings still if the Engineering officers takes an interest in the workshops this might be arranged.

10 My recommendation if I might be allowed to offer one, would be to start in the Moffussil both surveying and workshops in connection with normal schools. In Calcutta a different and independent arrangement might be made which will be mentioned in the letter on workshops.

J. Lubbock Esq. M.A.

Offr. Director of Public Instruction.

Sir

Presidency College the 10th July 1875.

With reference to your request for a report on a project for a Government Technical school and Workshop I have consulted with Mr. Downing and Grant. Mr. Downing is a civil Engineer and points out that civil Engineering is a widely different profession from that of Mechanical Engineering. He has already given you a sketch of the routine for surveying slopes. Mr. Grant has also furnished you with his views on the subject of drawing and they apply both to surveying and to Engineering.

2 I think Mr. Grant's views are sound and should recommend that drawing from the round should be taught and practised in every school as an accompaniment with writing.

3 Mr. Scott Russell's book takes it as granted that for success in Technical schools a certain standing in General instruction must first be obtained. The commission issued by the late Emperor of the French to report on Technical schools in Germany and Austria made the same statement. It is therefore desirable that some standard of knowledge should be obtained previous to admission to the Government Workshops. I would place the standard as that for primary scholarships with similar knowledge where English is the vernacular. In the present state of our schools the boys training for carpenters and blacksmiths must learn in the Technical institution just so much drawing as to sketch out plans and sections of what they want to make.

4 I have looked through the course of instruction in several of the Technical schools in Germany but am surprised to find ^{that} the standard of instruction even in the lowest are far higher than that to which we in Bengal can at present hope to attain. As to Colonel Nicoll's recommendation that the Educational Department should find the money and the Department of Public Works should spend it, every Educational officer would at once object. Confusion in the Department Public Works is carried on in a grand scale.

5 Colonel Nicolls recommends the purchase of ground bordering on the circular canal at the north end of Calcutta. This part of Calcutta was once considered unhealthy, but drainage has improved it. I do not think it better situated for the sake of mistries than any other parts. The building to be erected though at first temporary will eventually be "pucka" and will cost a large sum. Before commencing on a scheme which may involve heavy expenditure in building houses for teachers and students I would recommend that the Government see whether the Society for the propagation of the Gospel would not be willing to sell Bishop's College. The great difficulty would be about the Chapel, and if the Government undertook either to keep it up permanently as a Chapel or to pull it down and build it elsewhere I believe that there would be no objection on the part of the society to sell.

6 I saw that there is a bridge across the Hooghly. Bishop's College is not so inaccessible in bad weather as it used to be, but the delay caused by the closing of the old Railway bridge has occasioned great inconvenience to residents at Siliguri and the southern part of Howrah.

7 Again I believe that it is possible that the Trustees of the Benevolent Institution would lease their premises to Government for a Technical institution. They have not been successful in the management of their schools. This locality would be central for all parties, but it would not have the advantage of water carriage. It might be made a branch school for beginners and a depot for finished work. I strongly object to Colonel Hyde's recommendation that the Technical schools be restricted to natives - unless the usual definition of the word natives extended and taken to mean all persons born in this Country.

8 The population of the poor Europeans and Eurasians is every day sinking deeper into poverty and to their children the Technical schools ought to be open. They would go to Assam and Cachar and other out of the way places much more readily than natives would go. Every Tea estate of 300 acres can find employment for a good team worker.

or carpenter, and Christians from the Government workshops willing to work on low salaries would probably be preferred to natives

9

It is a backward step for Government to say anything about creed or race in a public school whether General or Technical. All who want to learn should be admitted whatever their race or creed. I think that some apt students as blacksmiths could be had from the jungles of the Subarnarekha where I have seen the wild tribes smelt iron and fashion it into guns with locks. The admission test in reading, writing and arithmetic would unfortunately keep them out, unless some special provision were made in their behalf.

10

As to the financial part of the scheme it is most difficult to give an opinion. If the Government were to say that it would give at once three or four lakhs and then half a lakh a year a scheme suitable to this expenditure could be drawn out, but in entire ignorance of what the Government is able or willing to give there is great difficulty in suggesting any details; every plan is a matter of money. With Mr Croft I suggested for the Mofussil certain plans by which at a cheap cost workshops could be initiated up first in connection with Normal schools and as the workshops became appreciated and were found to do good work, they might go on independently. I believe that this proposal was not considered worthy of Government. It was too small and cheap. I still believe it to be the best plan for the Mofussil. For Calcutta an independent school would perhaps be best, and a beginning might at once be made at the Kidderpur dock yard. If the East Indian Railway authorities would open their workshops at Howrah to apprentices another Technical school might be commenced. At both these places I am afraid that it would be necessary to grant stipends or scholarships at first to a considerable number of the pupils.

No 1823

To The Inspector of Schools A. P. M. Circle G. A. G. G. G.
S. Presidency College the 19th July 1875.

I have the honor to send you 3 sets of

English questions for the Enamuation of Candidates for Survey Teaships, notes
in the margin. The papers should be given out in the order noticed below
and the answers should be sent to me by Parcel Post. The questions
should also be returned with the answers. If the Papers should not
arrive in time for the Enamuation on the date fixed viz the 2nd of
August they should be given out as soon after that date as may
be practicable.

1 st Day	10 - 1	Measurement
	1 1/2 - 4 1/2	Survey Paper
2 nd Day	10 - 2	Drawing

There should also be an Enamuation in Practical Surveying on the 3rd day - arrangement for which should be made by you. The surveying should be executed with the Chain and Compass and should be of an extent to occupy not less than 3 hours during which time the officer in charge of the Enamuation should be on the ground - after plotting the surveying in the presence of the same officer the field Book & plan should be despatched to this office. One candidate has requested to be examined in Bengali. I have to request that the English papers may be translated into Bengali by some responsible officer.

I have not yet received the fees from the candidates for this Enamuation. The survey Enamuation for teachers has ceased in Bengal, and no papers either in English or Bengali have been sent out this year except to him.

To

J. Sutcliffe Esq. M.A.

Offg. Director of Public Instruction

Sir

Presidency College the 20th July 1875

With reference to your letter No 3275 of 8th Instant I have the honor to forward for favorable consideration a letter from Mr. Pedler dated 16th Idem, stating that he is exempted from passing the Vernacular Examination and requesting that if required to do so he may be allowed 12, or at least 6 months grace to pass the Examination, as his time is rather fully employed at the Presidency College and with other Government work. He further says that he cannot find the rule by which his annual increase in the 3rd grade can be affected pending such Examination. The increase of salary in a grade being different from promotion in as much as promotion from a lower to a higher grade involves necessarily steps of salary in the higher grade.

I have to

J. H. Woodman
Offg. Principal Presidency College

To

J. Sutcliffe Esq. M.A.

Offg. Director of Public Instruction

Sir

Presidency College the 20th July 1875

With reference to your No 3245 of 14th Instant I have the honor to inform you that the scholarship stipend of Sigmund Chatterjee for May amounting to Rupees (14-0-6) Eastern and simple, has been drawn at this Institution but the student having since withdrawn from the College.

the amount remains unpaid. The cause of this office not drawing the full amount of his stipend is that he was subject to deduction of 6 days stipend on account of his absence on Medical certificate. The stipend for May is that for 27 days and not for 31 days. The student did not make application for his scholarship at this College. It is possible that at Patna he drew for 31 days.

N^o 1849

To

J. Lubbock Esq. M. A.

off^r Director of Public Instruction
Presidency College the 23rd July 1875

As you have selected Balu Hara Mohan Chatterjee to act in the place of Mr. Gonoo who has retired on pension, I have the honor to state that his successor will not be allowed to draw his salary of Rs 150 from the Presidency College and Hindu school with Rs 25 from the Mau school. His salary will be Rs 100 from the Presidency College and Hindu school together and Rs 25 from the Mau school.

2 I find that Balu Traylukho Nath Banerji has been librarian of the College on Rs 50 a month for 10 years and that Balu Nolin Chunder Kundra has been clerk of the Mau school for 12 years. These old servants ought to have some increase to their pay.

3 The office of Assistant Secretary is most important and I require for the post a very superior man. The best man I know for it is Balu Brojo Nath Lahiri, the Head clerk of the office of the Inspector of schools Presidency circle. I recommend that he be appointed to discharge all the duties now performed by Balu Hara Mohan; and that his salary be Rs 100 a month. Rs 20 in addition to his present salary should be given to Balu Traylukho Nath Banerji and Rs 5 to Balu Nolin Chunder Kundra. The arrangement is shown in the following table.

Present Establishment	Proposed Establishment
Balu Hara Mohan Chatterjee — 175	Balu Brojo Nath Lahiri — 100
" Traylukho Nath Banerji — 50	" Traylukho N. Banerji — 70
" Nolin Chunder Kundra — 15	" Nolin Chunder Kundra — 25
<u>240</u>	<u>Total Rs 195</u>
	savings to Govt — 50
	<u>240</u>

4 I shall be prepared to give up the services of Balu Hara Mohan Chatterjee on the 1st August when I shall direct him to take his new appointment. Although I have every confidence in the ability of Balu Brojo Nath Lahiri yet no one can fully discharge the duty of Balu Hara Mohan Chatterjee who during a long career of 41 years has, as you are aware, won the esteem and regard of all the officers who have presided over the Institution. No small part of the honor in which this college is held by all classes of the community is due to the discretion, tact, gentlemanly deportment and business like habits of Balu Hara Mohan.

I am, Sir,
Yours faithfully,
J. Lubbock

No 1850

To

The Executive Engineer 2nd Calcutta Division

Dated 27th July 1875

The undersigned has the honor to request that the following repairs which are absolutely needed should be taken up at once in hand.

- 1 The punkha escape pipes require to be set right. They were so badly made that they are coming to pieces continually.
- 2 The tank in the bath room on the west side of the building is never supplied with water. This tank was proposed to be lowered down and estimates made, but no action appears to have been taken.
- 3 The water pipe in the Physical Laboratory is out of order and the supply of water stopped.
- 4 A pipe going through the stone beam of the Laboratory leaks badly.
- 5 A low wall also requires to be built in the

197

same room to prevent waste water flowing over the whole floor
6 Ventilators are required for the Chemical Laboratory
If gumlat ventilators are used they should be carefully constructed so as to keep out drifting rain.

7 Sloping punkhas require to be fitted over the galleries

No 1853

To The Secretary to the Government of Bengal
Public Works Department
Presidency College the 27th July 1875.

With reference to your No 3509 of 19th instant I have the honor to inform you that there was student of the name of Dwarka Nath Sankar in the first or highest class of the old Civil Engineering College in the year 1862/63, but as his name does not appear in the sheet which contains the result of the examination for that year. I cannot say what qualifications he obtained while in the Institution.

2 With regard to Mohendro Nath Mozoomdar the other applicant I find that a student of that name joined the first year or lowest class in 1871-72. He was promoted to the second year class in the following year, but failed in the examination held at the end of that year. He was allowed to continue in the class for another year, and in this year also he failed, and then left the college.

3 There is nothing in the record to show that these students were recommended for employment on leaving the college.

4 The examination result sheets of the lower classes do not appear to have been presented in the year 1862/63.

Off. Director of Public Instruction

Sir

Presidency College the 28th July 1875

The leave of absence for 3 months without pay
granted to Abdul Kureem draughtsman attached to the Civil
Engineering Department of the Presidency College under your order
dated 24th March 1875 No 1435, having expired, and the incumbent
being not likely to return, I have the honor to request that Golam
Ruhuman the officiating draughtsman may be confirmed in the
appointment with effect from the 8th June 1875.

2 Golam Ruhuman was attached as a draughts-
man to the Chief Engineer's office at Rangoon, but having obtained
leave of absence for 6 months on medical certificate he came
to Calcutta. Before however this leave expired he again applied
for leave of absence for 3 months on urgent private affairs, and
in the meantime took service in this college. To punish him
for this misconduct I propose that his salary be reduced for 3
months by 5 Rupees a month from the 8th June the date from which
he is permanently appointed to the post.

The Chief Engineer at Rangoon
complained to me that the moonshee had not behaved
well to the office at Burmah by leaving his appointment
without notice.

To

J Sutcliffe Esq. M. A.

Offs. Director of Public Instruction

Presidency College the 17th August 1875

Sir

In forwarding herewith a copy of a letter from the officiating Concurrence Engineer Second Calcutta Division on the subject of the removal of the statue of the late David Hare, I have the honor to state that a sum of Rupees 500/- was raised by private subscriptions and is available for the purpose, but the balance of the estimate of the cost for the removal Rs 75/- cannot now be raised and has to be provided for from other sources. I beg therefore to recommend that the same be sanctioned payable from the surplus funds of the Hare school which are sufficient to meet it.

J. H. Woodrow
Off. Principal Res. College

No 1917

To

The Executive Engineer, Madras District

Date 27 August 1875. Madras

Sir, I am happy to state that after I directed the Examiner in Drawing (Mr Grant) to prepare another paper for Babu Gossai Dass so that he found the candidate papers. The papers were neat, but the candidate made the great mistake of omitting to show the construction by which he arrived at his results, thus mission nearly involve his failure. He passed well in other subjects.

J. H. Woodrow
Off. Principal Res. College

No 1918

To

The Executive Engineer, 2^d Calcutta District

Residency College the 30 August 1875

I understand from the officers at the Residency College that the Executive Engineer objects to give the Gumlat Ventilators in the Chemistry theatre. His reason is that there are above the seats several windows by which ventilation can be obtained. Unfortunately the wood of which the window frames are made is new and swells in the rains or warps in the dry season and consequently the rigidity of the window will not open. They are fast fixed.

Again the trees that will open have no brackets attached to them and it is difficult to find means of fastening the string and so they flap about. Moreover, when the windows are opened the birds fly in, and Mr Pedler complains that in the pairing season especially the birds are a serious nuisance and distract the attention of the students. Hence wire nets should be placed in the windows one half of the netting on the outside and one half on the inner side of each window so as not to interfere with the opening of the window.

I have therefore Request (1) that the contractor who supplied the windows be directed to make them open and shut readily (2) the brackets by which the ropes of each window may be fastened be attached to the walls (3) that nets be put up to keep out the birds.

To

J Sutcliffe Esq M. A.
officiating Director of Public Instruction
Presidency College the 14th September 1875

Sir

I have the honor to inform you that formerly

219

the following two items were appended regularly to the Budget for the Hindu school

Contingencies	600
Punkha pullus in hot weather	140

The Accountant General has directed the Punkha pullus to be paid from the contingent allowance, but without stating whether the contingent allowance would be increased by a corresponding amount

The Head Master of the Hindu school does not see his way to effect the required retrenchment, except by a lapse into general untidiness, which is most undesirable in a school intended for the Hindus of the higher ranks of society in Calcutta. As I cannot pay the Rupees 140/- from the contingent bill, I beg to know if the boys are to be left without punkhas.

For the year ending 31st March 1874 the receipts of the school from fees were Rupees 22,339, the total expenditure was Rupees 19576-11-1, so that the absolute profit to Government from the school was Rupees 2762-16-11.

I am afraid that the reductions required by the Accountant General may result in such excessive discomfort to the pupils that they will leave the school because they are not properly treated. It would be bad economy to lose a large sum in order to effect a retrenchment of Rupees 140/- in punkha pullus.

To S. Sutchiff Esquire M. A. Offg. Director of Public Instruction
Presidency College, the 13th September 1876

Sir,

I have the honor to forward herewith for your orders a copy a letter from the officiating Executive Engineer Second Calcutta Division with an estimate for improving the compound paths and drainage of the new Presidency College building.

The rain water now lodges in several places in the compound and cannot be carried off without a proper outlet. Hence I agree with Mr. Mansfield in his remarks made in paras: 3 and 4 of his letter, and I accordingly recommend that the estimate submitted by him be passed.

J. Sutcliffe Esq. M.A.
Offr. Director of Public Instr.

Residence College No 14 Sept 1875

I have the honor to inform you that the candidate whom Mr. Nash recommended as the best of his class for mathematical honors seems to me to be too young for the work of teaching the Irish Arts class in Mathematics. I accordingly forward the applications of Ser Sukhar D. of the Free Church's Institution and Narendra Nath Sircar of the Residence College, both M.A. graduates in 1875. Both of these candidates were in third division, Ser Sukhar D. being first and Narendra Nath Sircar third. The latter gentleman is the nephew of the Assistant Professor Panna Chandra Sircar, while the former states that he was first in Mathematics in the B.A. Examination. There is but little difference between their merits.

The remuneration would be Rs 125/- a month, and the period of service would be about seven weeks.

To The Officiating Director of Public Instruction
Presidency College, the 17th September 1875

Sir,

I regret to report the death of Mr. J. Mc Scott professor of Engineering in the Civil Engineering Department of the Presidency College. He died at sea between Ceylon and Australia on the 13th August last.

I recommend that Mr. Downing take up Mr. Scott's duties permanently and become senior Professor of the Civil Engineering Department and that an Assistant Professor be appointed in the fourth grade of the Educational Service to teach practical Engineering.

I beg to recommend that the Government of Bengal be requested to ask the Department of Public Works to select a man from Bengal or the upper provinces able and willing to fill the post satisfactorily. Practical experience in the Irrigation Branch as well as in the general branch is desirable. The new professor to commence his work on the 1st November 1875.

Prinl.

No. 1963

To

The Accountant General Bagal

Presidency College the 25th September 1878.

With reference to your Memo No 504 dated 14th instant. I have the honor to state that it appears that the wages of Puckhapullus were, in the Accountant General's statements entered under the head of Contingent charges where as they were in the Principals accounts charged in the establishment bills of the Hien school, hence the difference in the two accounts.

With reference to the Contingent charges of the two schools I am at a loss to account for the differences pointed out, as the entries in the Principals statements all agree with the original bills passed by the Accountant General.

I beg to point out that under the head Contingent charges for December the Principals statement contains an entry of Rupees 50/- while in the copy of the account sent in by the Accountant General Rupees 47-4-0 is found leaving unnoticed the item of Rs-2-12- charged for copying him for the surveying maps. Similarly in the copy of the Hone school account for July, the Accountant General's office enters Rupees 45/- while should be Rupees 55/-

The amount of Rupees 435-0-0 drawn for surveying instruments for the Hien and Hone schools appears to have been omitted from the Principals statement.

To A. Woodrow Esquire, M. A. Offg. Director of Pub. Instruction
Presidency College, the 20th October 1875.

Sir,

I have the honor to acknowledge receipt of your N^o 44 dated 15th September and herewith forward a report in accordance with your orders.

In order to obtain information with regard to the working of the Hindu Hostel in Bowbazar, Calcutta, I requested the Superintendent of the Hostel to call upon me, and he has in conversation favored me with a few remarks which seem to me to be of some importance, with regard to the question whether it is desirable further to extend the present system.

There can be no doubt that the Hostel affords great advantages to students. Their food is procured for them, and they have no household cares. This leaves their time free for study. The wholesome restraint of being under the eye of the Superintendent and the restriction which the rules of the Institution put upon their liberty seem to be beneficial. I am informed by the Superintendent that he has only once had to expel a boy. With regard to its financial success I learn that in year there was a surplus of Rupees 260; but at present there is usually a deficit ^{of Rupees 675 - this was a deficit} of Rupees 68-6-3. In May of Rupees 52-2-0, in June of Rupees 31-1-9, in July of Rupees 40-4-6, in August of Rupees 25-14-0. The number of students in the Hindu Hostel at the present time is 34.

8 belong to the Presidency College General Department

3 to the General Assembly's Institution.

1 to St. Xavier's College.

5 to the Medical College

1 to the Civil Engineering Department of the Presidency College.

3 to the Metropolitan Institution

1 to the Cathedral Mission College.

1 is preparing for B.L. He used to belong to the Sanskrit College.

1 used to be in the Sanskrit College and is now studying medicine with a Kaliraj.

I am given to understand that the number has largely fallen off lately and that the result may be accounted for by the fact that High schools have been established at Medinipur and other places. Besides many students

have gone to Houghley to study for the native Civil Service.

4 With regard to the fifth paragraph of the minute by His Honor the Lieutenant Governor it appears that owing to the high rent of the present house and the expensive establishments kept up in it, the students of the Calcutta Colleges find it cheaper to live in private lodging houses. Five or six of them club together to hire a house and in this way their living costs them from seven to eight rupees a month, whereas at the Hindu Hostel the first class boarders pay 12 Rupees, the second class 11 Rupees, and the third class 10 Rupees, the superintendent is of opinion that a house might be obtained in the northern quarter of the town at about 60 Rupees a month, whereas the rent of the present house is Rs 130 per month, and the taxes Rupees 8-9-. The Superintendent informs me that there is one great drawback to such Hostels being established by masters. Unless the boys were very young, the master would be unable to keep his family in the house. If the master merely provided a lodging, the students having to supply their own food would be no better off, than they are when they take a house for themselves. Therefore it appears doubtful to me whether 8 annas a head from each student will make it worth any masters while to keep a Hostel in Calcutta, unless the students show a more decided preference for this mode of accommodation than they do at present.

5 The measures which seem to be required to make the Calcutta Hostel more popular with the students are according to the Superintendent the following (1) That the Institution should be near the Presidency College (2) That it should be placed under the supervision of the Principal (3) That the monthly charges required from students should be reduced to seven Rupees a month. I may add that it would be conducive to the good order of the present Hostel if it were made the rule that students should be placed there by their parents or guardians and should not be allowed to leave the house without their parents or guardians communicating with the superintendent.

6 With regard to paragraph No. six of the Lieutenant Governor's minute I may mention that there are only four wealthy students at present in the Hindu Hostel, so that our Calcutta experience does not seem to point to the

likelihood of establishments for rich students being self-supporting.

7. I have thought it my duty to lay before you the facts connected with the working of the Hostel established in Calcutta.

8. The fact that the Hostel is in an expensive situation, while good dwelling houses with water laid on may be procured in the northern quarter of the town for light rents; seems to me sufficiently to account for the circumstance which is perhaps at first sight somewhat surprising, that the students from remote parts of Bengal, who study at the Presidency College do not avail themselves in larger numbers of the advantages furnished by the Hindu Hostel.

9. I venture to think that the case of Calcutta is altogether peculiar and does not warrant us in concluding that Hostels at our other great educational centres would not be an incumbrance to the youth of Bengal.

No. 2016

To The Officiating Director of Public Instruction
Presidency College the 12th November 1875.

Sir

At the opening of each Session it has hitherto been the practice at this College to allow First Arts Candidates the option of taking up Psychology or Chemistry at the University Examination. In the Profusib College, where there is a lecture on Chemistry this option is not allowed. I decline and at this College only a small percentage of students have hitherto availed themselves of the option of taking up Psychology. In the present Session out of 84 Candidates presented for the First Arts Examination, only 12 have selected Psychology and the preparation of this small number of Candidates involves the same demand on a Professor's time as a class comprising 30 or 4 times the number of students. It is not, however, on account of the smallness of the Psychology class that I wish to

See it discontinued, but on account of the greater advantages
from every point of view, which an Elementary course of
Chemistry holds out to students in this stage of their
Career. Psychology and Philosophy form very properly
a part of the course which students for the B.A. Degree
may take up, and I should regret to see any change
which would ~~be~~ ^{be} ~~debar~~ ^{debar} students after passing the First
Art Examination from taking up these important
Subjects for the Degree: but the case of students before
passing the First Art Examination is wholly
different. In their case the time both of Professors and
students might be far more profitably employed upon
a subject more within the reach of the capacities of the
class, and I would ask your sanction to my proposal
to withdraw from the students of this College the option
of taking up Psychology at the First Art Examination
from the opening of the next session and to compel them
to take up the Elementary course of Chemistry laid
down by University Regulations. The Professor Mr. Parry
who has had charge of the First Art Psychology class
fully concurs in my views, and in support of the
change I advocate he says: "Precocious as native students
are generally supposed to be, the majority of them as is
well known, and, indeed, it would be unreasonable
to expect it to be otherwise, are not ripe enough when
they enter the College, for any thing beyond
the most elementary stages of the least abstract of
the higher University studies. It is idle to say, in
justification of beginning with one of the most abstract
and difficult of all (and that too by the way with
one of the most unsuitable of text books) that it
trains the mind to deep thinking. The first and most
important requisite of mental training is accurate
and systematic thinking. Nature itself clearly points
out to us what should be our course. Left to itself the
mind prefers fact to abstractions and the more tangible
they are the more readily are they comprehended. What
appeals itself to the senses naturally makes the
deepest impression: and the first step in mental
education is to educate the senses, since they are the
inlets to the mind. Accordingly the Experimental
Sciences are, at the out-set, the most suitable and
effective means of Education. The more abstract
studies should follow, without a suitable basis of
observation, to construct theories in like building
a Pyramid upon a point"

"Again of all the mental faculties the

Memory is the earliest developed: and although I would not be partial to a system that cultivates the faculties solely at the expense of the higher faculties, still as youth is the best period for storing the mind with information, seeing it is then fresh and quick to catch impressions though not drawn from them, it is ~~one~~ our wisest plan to fall in with this natural course, not to force on the mind subjects that it is not, except in very rare instances, ripe enough to grapple with. Accordingly a training in the Experimental Sciences & those sciences of observation which deal with the natural world is I deem it, the best suited for that class, as it harmonizes the natural development of their minds & is decidedly the best preparation for the abstruse studies of their more advanced course."

It would be convenient if the students could be informed of the decision on which you come on this question before the college closes for the vacation and I beg that you will take it into early consideration.

The Officiating Director of Public Instruction
Presidency College The 13th November 1875.

Sir

The Students of the College having asked me to recommend the grant of an extension of the usual winter holidays in consequence of the visit of His Royal Highness the Prince of Wales. I have much pleasure in recommending that the College should be opened on the 17th January instead of the 10th January. Apart however from the grant of this extension of the holidays in connection with the visit of His Royal Highness. I doubt whether it would be possible to make more than a formal opening of the College on the 10th January, as the B. A. Examination has been postponed to the 5th January and in consequence of the closing of the Public Office from 23rd Decr. to 3rd January, it will not be possible for you to have the Scholarship list ready by the 10th January.

Very little can be done in the college till the scholarship lists are published, and this in itself is a valid reason for postponing the opening of the session to the 17. January.

To The Executive Engineer - Second Calcutta Division.

Presidency College, the 23rd November 1875

Sir,

I understand from the Sub. Engineer in
charge of the work now in hand at the compound of the
Presidency College and Hare school that the funds at his dis-
posal for clearing the compound and making it tidy are
insufficient to carry out the work properly. The Lieutenant
Governor on the occasion of every visit he has paid to the
College has remarked on the untidy state in which the com-
pound has been left, and expressed a desire that all the
rubbish should be removed and the whole laid down
with grass. As the railing will soon be completed, I
be glad to have an estimate made of the amount in

excess of present grant required to put all the roads into thorough repair and to level and lay down with grass the rest of the compound.

I should also be obliged if you would submit a separate estimate of the amount required to set up gymnastic apparatus to the west of the Sans School in all respects similar to that created in the Hindu School compound.

The off. Director of Public Instruction
Presidency College the 26 November 1875

Sir

The Superintending Engineer estimates that a sum of Rs 700 will be required in order to put the roads in order in the compound of the Sans School and Presidency College and also to level and lay down with grass the rest of the compound. His Honor the Lieutenant Governor has frequently remarked on the untidy state in which the compound was left by the Department of Public Works after the completion of the buildings, and the present application, if sanctioned, will enable me to have the entire compound put into good order.

I have the honor to request therefore that you will move Government to sanction the expenditure of the above sum from the surplus fees of the Sans School for the current year, which are more than sufficient to bear this charge. An early order is desirable in order that the work may be completed by the time His Royal Highness the Prince of Wales arrives.

Principal Presidency College

No 2031

To the Principal of the Roostee College

The 6th December 1875

The undersigned is desirous of knowing when the new Edition of the Roostee Treatise Vol II is likely to be ready. In January or February the new Treatise should be in the hands of the students of the Civil Engineering Department of this office.

I have
Sd/ J Sutcliffe Esq^r

N^o 2032.

List of Candidates for Junior Scholarships from the
Beccles & Hare School

Forwarded to the Director of Public Instⁿ

W. J. Lubbock

4th Decr -

Principal Beccles

N^o 2033

List of Candidates for Senior Sch^r from the Beccles

N^o 2034

From the Principal Beccles College

To the Director of Public Instⁿ

Dated the 6th Decr 1883

Sir,

In reply to yours N^o 5015 of the 3^d Decr I have
the honor to say that the schools and colleges will be closed
for the winter vacation at the time of the visit of Her Royal
Highness the Prince of Wales. I have however desired
the Head Master of the Beccles & Hare School to request
the boys of the 5 Senior classes in each school to assem-
ble at school on the morning of the 20th Decr in order
that they may learn what arrangements you have
made as to the time and place of meeting. The College
Students are not now in attendance and it is
doubtful how many could be assembled for such
a gathering as you contemplate. Probably 100
could be got together by an advertisement in
the daily news papers after the fixing of a day
for the gathering.

You will see from the enclosed return
that about 250 boys from the Hare School and 150
boys from the Beccles might join the gathering
whose ages would vary from 12 to 16 years and
benches could be supplied from the school
for the accommodation of these boys. I would
on no account advise the admission of
younger boys to the gathering as they would
not be able to protect themselves in such an assem-
-blage as you contemplate

Yours

It would not be possible to find any building that could accommodate the boys likely to attend and if held at all, there is no place except the Maidan that would be suitable. To accommodate probably some thousands of boys on seats raised in any way artificially would entail a very large expenditure, and I can see no advantage in such an arrangement.

None of the pupils from any Schools could take part in any musical exercise as the time for training is far too short.

I beg that I may receive your further instructions on the subject by Saturday the 18th Dec^r at the latest.

I have &c

Yr. L Subleffa

Principal, Presidency College

N^o 2035-

To The off^r Director of Pub. Instⁿ

Dated 7th Decr 1875

Sir,

With reference to the last para of your letter N^o 4956 of the 29th Nov^r, I have the honor to state that if it should turn out that I am obliged to form the new admissions to the 1st year class into two sections I shall require the services of two lecturers or Ap^r Professors in place of the late Balu Peary Jeevan Siria. I think however, that the new admissions will not be numerous enough to necessitate two sections and in that case Balu Jeevan Chandra Dutt should take up the work of the late Balu Peary Jeevan.

If Vishwaghar College is to be raised to the status of a full College from the opening of next session, it will be indispensable that a Institutional Lecturer should be appointed solely for the College classes and probably the present Head Master of the Vishwaghar Collegiate School would have the best claim to such an appointment. His transfer to the College (where his entire time should be spent) would leave the Head Mastership at your disposal for Mr. Lefevre. With only 3 college classes I do not see how two Teachers of English Literature (viz the Principal & Balu Jeevan Chandra) could find adequate employment; and it would be

most -

most undesirable at the outset of the new order of things
to mix up the teaching in the College and College
School. Each should have its own separate staff -

I have &c

of J. Sutcliffe

Principal Presidency College

N° 2036

To The Off. Director of Pub. Instⁿ

(Dated 7th Dec 1875)

Sir,

In reply to your letter N° 5028 of the 4th Instⁿ,
I beg to point out that it will be somewhat inconvenient
to arrange for another party commencing
to learn surveying after the other students have been
at work for a month; but if you think that the students
who now desire instructions could best have use of
an earlier application I will make arrangements
for their being taught in a separate class during
the rest of this month and next. I beg however that
the candidates (9 in number) may in that case
be directed to meet me at the College on Monday
the 13th Instⁿ at 10 AM. and they should then be prepared
to pay in advance Rs 16/each for the instructions
they are to receive in surveying -

The enclosure of your letter is herewith returned

I have &c

Principal, Presidency
College

N^o 2039

To The Asst. Acc^t General Bengal

Dated 8th Dec^r 1875

Refers to his Memo N^o 416 dated 7th Dec^r.

The P.W.D. having had no funds at their disposal at the time
the requisition for this work was made, the Asst. Principal guaranteed
the payment from the Education Dept^t, if approved by the
Director of Pub. Instⁿ. The Asst. Director has approved of the expenditure
here and countersigned the bill deliverable to petty repairs fund
at his disposal.

The undersigned hopes that the above statement
will satisfy the Asst. Accountant for the payment of the bill

J. J. Sultcliffe

Principal, Presidency College

N^o 2040

To The Asst. Director Pub. Instⁿ

Dated 8th Dec^r 1875

Sir,

With reference to your Circular N^o 51 dated 17th Nov^r
I quite agree with the Asst. Principal of the Dacca College that it is
desirable to lay down some Rules for holding the Scholarship holders
in a class responsible for insubordinate acts on the part
of their class friends so far at any rate as to require them to
furnish information to the Principal when called upon
as to occurrences of this kind which may have taken
place in their presence. To maintain discipline in
large institutions where there will always be found a
few intriguing discontented, ill-mannered students
it is requisite that the Principal should be invested
with the fullest power to punish without appeal the
first signs of insubordination or want of due deference to

a professor on the part of a student - my own experience tells me that when power of this kind is judiciously used the occasions are rare on which it is necessary to exercise it - It seems to me therefore that if it were authoritatively put forth that Schoolship holders were expected to assist in the maintenance of discipline in a class by furnishing to the Principal any information which there is good reason to believe they could give as to the ring leaders or participants in acts of insubordination - Such a declaration would accomplish all that it is necessary to be done at present. If Schoolship holders refused to give the information expected from them then the Principal should be empowered to suspend payment of their allowances wholly or in part at his discretion -

On occasions like that which led to the disturbance at Patna a responsible Master should always be appointed to be in attendance in order that the Principal might have the means of identifying any student who misbehaved

In August 1870

1 Akhoy Kumar Mookerjee

No 17.

To The off^d Director of Public Instruction
 in Presidency College the 10th January 1876.

With reference to the No. 2186 U.S. dated 21st December from the off^d Secretary to the Government of Bengal forwarded under your endorsement No. 4 of 4th January, I have the honor to submit the arrangements which it seems to me should be adopted in consequence of the vacancy in the Junior Law Professorship of the College.

2. On receiving the letter announcing the vacancy I asked Mr. Ingram to meet ^{me} for the purpose of discussing some such arrangement as that sanctioned by the Lieutenant Governor in the Resolution of 9th April 1875. It appeared to me that so long as the Senior Professor of Law Mr. Ingram continued to draw a salary of Rs 700 per mensem, it would hardly be desirable to propose any arrangements involving a material decrease in his duties. Mr. Ingram readily acknowledged this and proposed to give up Rs 200 a month from his salary on condition that he be allowed to accept mofussil briefs and to bring his lectures to conclusion in time to be able to avail himself of the annual High Court vacation about the end of September. Mr. Ingram did not anticipate, if the privilege of taking mofussil briefs were allowed, that he would be absent from Calcutta more than once or twice a year and should he be required to proceed to the mofussil during the period of delivering lectures he proposed to give a substitute who should be approved by Government. These terms seem to me to be reasonable and fair and I would recommend that they be approved by Government.

3. If Mr. Ingram's proposal be accepted there would be Rs 700 per mensem - viz Rs 500 the Junior Professor's salary and a deduction of Rs 200 from that of the Senior Professor - available for carrying out any new scheme that may commend itself. It would not I think be a wise course to increase the expenditure of the Law Department just now, because the mofussil colleges at Hooghly, Dacca & Patna are open to Law students and I do not expect a larger income in this College than will be sufficient to cover all charges on the assumption that Rs 1200 a month is expended in the payment of Lecturers. I think moreover that the amount now available for the payment of the additional lecturers is sufficient to secure the services of competent men.

men from the Bar of the High Court.

4. In place of the Junior Professor I propose that three Lecturers be engaged and the following is the division of subjects which I would recommend between them and Mr Ingram.

I Jurisprudence, Legal History and

VI	Constitutional Law	36 Lectures	} Mr Ingram
VI & VII	Criminal Law and Procedure	40 " "	
IV	Land Tenures and Revenue Laws	16 " "	
		92	

II Contracts and Torts

U	Evidence and Civil Procedure	32 " "	} Lecturer to be appointed - col. W. J. P.
IV	Registration, Limitation and Prescription, Mortgages	18 " "	
		70	

III Hindu Law

IV Mahomedan Law

In framing this division of subjects and assigning each a definite number of Lectures I have been assisted by Mr Ingram and the entire course of Law prescribed in the University Regulations for the degree of B.A. is included.

5. I would propose that a lecturer be selected from the Bar of the High Court to deliver ^{the} 70 lectures under head II on a salary of Rs 400 a month or Rs 4800 per annum and that separate Lecturers on Hindu and Mahomedan Law be engaged each receiving a fee of Rs 1800 for a course of 25 lectures. There will probably be no difficulty in securing the services of a competent Barrister on the salary I have proposed for the lectures on the subjects under head II when the conditions of the appointment are made known. I have received an application from Baboo Jyotlukhya Nath Chatterjee for employment as a Lecturer under any of the heads into which the subjects may be divided and I forward the same with this letter. Baboo Jyotlukhya Nath was appointed during last session Lecturer on Hindu Law in the resolution of 9th April and I would recommend that he should be again appointed to this office. In the same Resolution Mr. Amir Ali was appointed Lecturer on Mahomedan Law and I would recommend that

he should ~~be~~ again^{be} offered the same appointment. These Lectureships might be tenable for a period of 3 years after which the Lecturers might be eligible for reappointment.

6. It is desirable that a decision should be arrived at on the above proposals as early as possible as the new session opens on the 17th January, and the Law Lectures should commence on or about the 24th January. If the scheme now submitted be approved I will at once lay down a programme for lectures extending over the entire course and it seems now that the teaching of Law will then be placed on as satisfactory a footing as present circumstances permit.

I have.

Presidency College the 11th January 1876.

Sir With reference to your endorsement No. 5232 of 21st December on Mr. Secretary Reynolds's letter No. 3560 of the 11th December, I have the honor to say that the object the Lieutenant Governor has in view would in my opinion be most effectually attained if the Rs 4000 of amount devoted entirely to the foundation of Junior Mohsin & Scholarships each worth 10 of Rs per annum, and available for two years by successful Proteome candidates in art colleges or the Engineering Dept. of the Presidency College. These scholarships might be awarded to the Mahomedan candidates throughout Bengal who stand highest in

in the general list and do not gain a Government scholarship.

I have &c.

Sir

Babu Behari Lal Banerjee the present
 lecturer in Mathematics of the Engineering department placed his
 resignation of that appointment in my hands on the afternoon of the
 17th January with a view to becoming a Pleader in the High Court.
 I recommend that his resignation be accepted. As the classes were partly
 employed in Field Work during the whole of January, I did not think
 it necessary to fill up the appointment till the classes reassembled at
 College for regular class work. All the classes returned to College on 3rd Feb
 and from that date I recommend that Babu Norwender Nath Sen
 be appointed temporarily assistant lecturer on Rs. 125 per month
 till further orders. My intention is to offer the permanent appointment
 to one of the young men who have just appeared at the Haur Exam-
 ination in Mathematics if the result of the Examination be as favorable
 as I expect. Meanwhile I beg that Norwender Nath Sen may be
 appointed till the result is known.

Offs Director Public Instruction

Sir

Presidency College the 12th July 1876

It is with very great regret that I have to report to you the death of Mr. W. G. Willson Professor of Physical Science on the evening of the 8th July

2 Before proposing arrangements for carrying on the duties appertaining to the Professorship of Physical Science I have very carefully considered whether it would be possible to transfer

any Professor from one of the Madras Colleges to this appointment and I have come to the conclusion that it is not desirable to do so, but rather to provide for instruction in Physics during the current session by a re-arrangement of duties among the existing members of the College staff and by engaging a Native Assistant Professor to discharge those duties for which I cannot otherwise provide.

3 The late Mr. Willson's duties were to lecture on Physical Geography and on Physical Science (i.e., on Heat, Light, Sound, Electricity and Magnetism) both for the pass degree and for Honours, he also took the Mathematics of the first year class. Mr. Nash as you are aware attended lectures at Oxford on Experimental Physics and he is ready to take up the late Professor's duties at once on being relieved of his present Mathematical duties. After giving the matter my best consideration I am convinced that it is desirable at any rate as a temporary arrangement to place Mr. Nash in charge of the Physical Science classes and to transfer Mr. Griffiths from the Engineering department to the General department supplying his place temporarily in the Engineering department by appointing Bala Sunda Krishna Rao an Assistant Professor of Mathematics on Rs. 300 a month. This Bala has always stood well in the College in Mathematics and he has just passed the Examination for Honours in that branch and gained a good place in the Second division.

4 Mr. Pedler has studied the subject of Light and when in London delivered a course of lectures on this branch of Physics. He has been good enough to offer to deliver a course of lectures on Light with a view to relieving Mr. Nash from the pressure of work he would otherwise feel in being suddenly called upon to undertake entirely new duties which require a good deal of time for the elaboration of experiments. I have availed myself of Mr. Pedler's offer and he is now engaged in the delivering of a course of lectures on Light.

5 The above arrangements seem to me to be the best that could just now be made and I trust that they will meet with your approval but I would strongly advise that the Secretary of State should be moved to send out a Professor of Physical Science with as little delay as possible. In writing to the Secretary of State that the qualifications required in a Professor should be very distinctly laid down. I should say that he ought at least to be a fair Mathematician and that he ought to be at the same time acquainted with the practice of experimental Physics. There are several Physical Laboratories now in England in which the practical work is taught and some experience of this kind ought to be a quæ qua non

It is desirable too that the person selected should have some acquaintance with Physical Geography. These qualifications are essential for the Physical Science Professorship and a person being found who possesses them, it is a question for Government to consider whether the Meteorological Reportership should not also be held by him. There is a Physical Laboratory at South Kensington under Professor Guthrie: there is another at Glasgow under Sir William Thomson which has turned out some good men. Either of these gentlemen might be able to recommend a competent man and I would advise that they should be consulted.

5 If Mr. Elliot of the Mues College Allahabad were desirous of being transferred to Bengal and the consent of the Government of the N. W. Provinces could be got to his transfer there could not be a more fitting appointment to the Professorship of Physical Science.

No 96

To

H. M. M. Esq. M. A.

Off. Director of Public Instruction

Presidency College the 15th February 1876

I have circulated your letter No 156 of 28th January to the Head Masters of the schools with a request that they would report on the question of establishing Hostels in the Northern part of the Town under the immediate supervision of some of the ~~of the~~ Native Masters. I have now the honor to forward the reports I have received from Babu G. N. Chandra and Babu B. K. Datta.

2 You will observe that no Native Master is willing to set up a Hostel on the terms laid down in the Lieutenant Governor's Minute of 31st August and I confess that I do not see how they could do so without incurring the risk of loss. As regards Calcutta the only hope of establishing a suitable Hostel seems to me to depend upon a building being erected specially for the purpose. The Government owns land in the immediate neighbourhood of College Square and possibly an exchange of a portion of this land for other land in a better situation for the purposes of a Hostel might be effected. If some public spirited and wealthy natives would then subscribe the amount that might be required to meet a well designed building I would recommend that Government be asked to contribute the land. In this way we might hope to get a really good Hostel which if managed with economy would provide accommodation at a rate within the means of all who care to send their sons to a Calcutta Institution for education.

To

H. Woodrow Esq. M.A.
Director of Public Institution
Presidency College 25th February 1876

Sir

I have the honor to submit statements showing the anticipated Receipts and Disbursements of the Hindu and Hare schools for the year which expires on 31st March Next

2. These statements contain the actual receipts for 11 months and the receipts for March will rather exceed than fall short of the amounts set down. The expenditure will be the actual expenditure of the year for each school so that the surplus of Rs 1952 for the Hindu school and of Rs 3220 for the Hare school may be safely considered as being within the amounts that will actually be shown when the accounts for the year are closed.

3. My object in forwarding this statements is to ask you to sanction the payment of Rs 1800 of the surplus of the Hindu school and of Rs 2800 of the surplus of the Hare school in gratuities to the masters of each school according to the schedules annexed. These Schedules have been prepared by my consultation with the Headmasters and they include only those masters whose services during the entire year I consider to be worthy of special recognition so far as the surplus funds in each school permit the Headmaster should in my opinion participate more largely in any such distribution of surplus funds than the other masters as upon their careful superintendence the welfare of the schools is mainly dependent and the proposed grants to them may also be considered in the light of compensation for the non receipt of promotion which their length of service might lead them to expect if the constitution of the department permitted.

I beg to recommend my proposals to your favourable consideration

I have &
H. Sutcliffe
Principal Presidency College

Schedules showing the proposed distribution of surplus funds amongst the masters.

 to the Govt. of India.

Refus to his ltr. No. 476 date 26th Feb 1876
 Informs that Kedar Nath Das has papered the Entrance examination for the grade of accountants
 J. Hulcliff
 Principal P.R. College

No. 114

To The Enamener of Ordnance Accounts
 Date 26th Feb 1876

The undersigned has the honor to forward for adjustment a Treasury Receipt for thirty Rupees and seven annas being the amount due to Mathematical Instrument Department of Bill No. 148 dated 24th January 1876 for repairing the theodolite No. 483 broken by students.

J. Hulcliff
 Principal P.R. College

No. 115

To H. C. Woodrow Esq. M.A.
 Director of Public Instruction
 Presidency College the 26th February 1876

Sr.

I have the honor to submit copy of a letter from Mr. Grant, the Professor of Drawing in the Engineering Department, soliciting an increase of Rs 50 of a month to his pay which is at present Rs 450 of a month and I have much pleasure in recommending this increase to the favorable consideration of Government.

2 Mr Grant is now 62 years of age and in July last his term of service was ~~extended~~ by Government for a further period of 4 years, if his health should permit him to remain in service in the Engineering Department.

is now physically as fit for his work as he was years ago, and there is every likelihood of his working through his present enticement of service. Mr Grant continues to discharge his very important duties with the same zeal that has ever characterized him, and I entertain a very high opinion of his merits. If Government would raise Mr Grant's pay from 1st April next to Rupees 50 of a month and thereby place his final pay on the same level with that at which the other European officers of the Engineering Department began their service, I would confer a boon on a most deserving officer. The amount sanctioned in the Budget of 1876-77 for the Engineering Department would not be exceeded if this addition were made to Mr Grant's salary owing to the temporary reduction of expenditure that has been effected by the arrangements rendered necessary by the death of Mr Wilson.

I am &c.

Residence Branch

Residency College the 3rd March 1876

In reply to your N^o 445-I.C. of the 29th February I have the honor to state that if a dispenser into the Engineer grade of the Public Works Department be dependent on passing successfully a Public Examination in the subjects prescribed in Sec. IV Para III Cap. II of the Public Works Code then holders of the University License in Civil Engineering are entitled to be admitted into the Engineer grade. The half yearly examinations for admission to the Engineer grade which are held at the College have been gradually raised in standard, so as to bring them more nearly on a level with that for the L.C.E. - but I have no hesitation in saying that the standard of our half yearly examinations, even as it now stands is below that for the University License. Under these circumstances I cannot see on what grounds the right of the holder of the University License to enter the Engineer grade can be questioned. In my opinion only those should be admitted to the Engineer grade who pass the University examination.

I have

No 150

To H. Woodroffe Esq.
Secretary of Public Instruction
Pune collected 9th March 1876

With reference to the Resolution of Govt.
No. 279 dated 1st February forwarded under special endorsement No. 27
of 18th February. I have the honor to submit a letter from Mr. Reddy
containing suggestions for utilising the donation of Rs 40,000 of
Jinnu Ray Lachmiput Singh Bahadur.

2 Obviously the amount is too small
to do more than assist in carrying out some scheme already
established or to be established, and if the scheme which the
Lieutenant Governor had some time ago under Consideration
for opening a Workshop in connection with the Department
of Public Works be likely to come into operation, I
think this endowment might most profitably be employed
in giving rewards and prizes to the boys who are to learn
different trades in the Workshop or in paying the salary of a
Teacher engaged to instruct the boys in Arithmetic, Geometry & Drawing.

3 Another way of utilizing this donation seems to me worthy of consideration viz in creating 4 scholarships each of Rs 140 per annum which shall be tenable for 2 years by graduates in Arts who are desirous of studying Civil Engineering. Two scholarships would be available annually and the term of two years would be quite long enough to carry such students through the course of Engineering provided for the grade of Assistant Engineer.

To

No 156
The Director of Public Instruction
Residence College the 9th March 1875

I have the honor to submit the special report called for in your letter No 214 of 26 January with reference to para 19 of the Government Resolution on the Annual Report.

2 The number on the Rolls of the Engineering department at this date is 155 against 157 on the 31st March 1875 and this is a larger number than the department has contained in any year before 1874. There was a special cause for the large influx of students that took place in 1873-74 viz. that applications for admission were received from candidates without reference to their fitness to enter upon Engineering studies. The number of students in the first year class of the year 1873-74 who had not even passed the University Entrance examination was 25 and it was found by the Professor for the opening of the session that this class was composed of worse materials than any we had previously had. The Principal had no discretion in the matter of admissions as it was the express wish of the late Lieut Governor that all should be received who presented themselves. After the abnormal and unhealthy increase

305

in the strength of the department that took place in 1873-74 it is not, I think to be regretted that the number of admissibles came down in June 1874 more nearly to the level of former years. Before replying to your letter I requested Mr. Griffiths and Mr. Downing to state as concisely as possible what they considered to be the main causes of the large number of repeaters we are obliged to make annually in the Engineering department after the special Enamuration in May. Both these gentlemen speak from an experience extending over several years in the teaching of this department.

Mr. Griffiths says "The main causes why so large a number of Examinations have annually to be made in the Engineering department after the May Enamuration" are, in my opinion as follows.

1 The students who enter the Engineering college as a rule are intellectually deficient; they have ~~but~~ ^{very} little aptitude for the subjects they have to read.

2 The majority of the students join the college after passing the entrance examination, but very few of them are in the first division. A student who has only managed to obtain a place in the 2nd or 3rd division of the entrance examination is generally altogether unfit to begin his studies at the Engineering College, if his object is to pass the L & E examination in three years, but if he wishes to obtain a sub-miscellaneous Certificate he may have some chance of success. In the year 1873 we had a large 1st year class (consisting of 3 sections) I remarked to you several months before the annual examination that not more than about 40 would reach the standard for promotion into the 2nd year class and the result proved that my opinion was correct. Considering the class of students we had the result was not unsatisfactory. What was unsatisfactory about the class was the large number of students in it who were quite unfit for the Engineering course.

3 The subjects are too varied for a large proportion of our students. One may have a taste for Drawing and no taste for Mathematics, or may have a taste for Mathematics & none for Drawing. Amul Chunder Mulla, one of the best students of the Mathematics in the 2nd year class failed in Engineering last May. On the other hand it is impossible for a student who has no aptitude for Mathematics to pass the L & E ^{standard} examination.

Passing the entrance standard does not in itself prove that he is capable of understanding a single proposition in Statics or Dynamics or in any other subject of Mixed Mathematics.

4 I have known of some of the best students leaving the College after the winter session, in consequence of the expense of the year while acquiring a practical knowledge of surveying.

5 Many of the students seem to me utterly careless as to their studies. Perhaps their parents - being aware of their idle habits consider it wise to send them to the Engineering College as being the cheapest plan for securing any sort of College

education (the monthly fee being \$5 only).

6 I am convinced the result would be far more satisfactory if before entering the College the students had to pass the F.A. or B.A. Examination.

7 A great inducement to good students to enter the college would be guarantee for employment to a certain number, as at Roorkee.

Mr. Sweeney writes in my opinion the following are the principal causes of the number of repetitions made in the C.E. department after each annual examination.

1 Ignorance, one half of the boys who pass the 1st year class appear to know little or nothing. Their knowledge of English is also very imperfect, consequently neither are they able to understand their teachers, nor can they when answering a question express themselves intelligibly.

2 Motivation, It has always struck me that many of the students do not make any endeavor to learn, and a glance at the Register will show how irregularly some of them attend. I cannot but think that parents send their sons to this department as the law is to keep them out of harm's way, and with a vague hope that they may become some subordinate part under Government, without ever considering whether the boy has any particular bent for a Scientific Profession.

I may add that the year referred to in His Honor's Resolution was a special case as owing to the impetus given by Sir G. Campbell to the study of Engineering especially large number joined our class, and as our staff was insufficient for the purpose a great part of the lecturing had to be carried on by young and inexperienced Bachelors.

3 I remarked in my annual Report for the Session 1874-75 that the unsatisfactory result of the special Examination was to be ascribed partly to the unfitness of many of the students for entering upon Engineering studies and to the want of application & attention to their studies on the parts of others. You will observe that Messrs Griffiths & Sweeney agree with me.

4 I do not think we can effect much improvement in the Engineering Department so long as we allow students who have only passed the University Entrance Examination to complete for a higher grade in the D.I.T. than that of sub-mercers and the first step I would recommend to be taken in order to place the department on a more satisfactory footing is to require all who enter with a view to qualify for the higher grade of Merceers & Engineers to have previously passed the First Examination in Arts. The existing rule might be applied to candidates for admission in June next, but for subsequent sessions I would recommend that it be publicly notified that students will not be admitted to

study for a higher grade than that of sub measure unless they have passed the First Examination in arts.

5- That better results will be attained under the proposed rule I am confident but I would not shorten the period of study for those qualifying for the higher grade. The Professor of Drawing has after remarking to me that it is not possible to do full justice to his subject owing to the heavy demands upon a student's time which the present course entails: but if students had passed the First Arts standard in Mathematics before admission it would be possible to spare a good deal of the time now devoted to Mathematics in the 1st year class to other professional subjects.

6- Unlike Roorkee this College has now no guaranteed appointments to offer students upon the result of a successful personal Examination; but I believe that as a matter of fact all who have passed as over and Engineers have hitherto succeeded in getting Government employment eventually. Probably there is now a full supply of assistant Engineers from Cooper's Hill and it may not be practicable to set aside a definite number of appointments for annual competition at this College but if it be practicable to set aside two or three appointments annually in the Engineer grade to be competed for by students of this College I think the best result might be expected from such an arrangement. It would not be too much to require that the award of these reserved appointments should be restricted to students who had passed the B.A. Examination before entering upon Engineering studies. In the case of such students a course of study extending over 2 years after ~~entering~~ the 1st year would be sufficient and they would thus be able to enter upon the practice of their profession at about the same age as Pleaders who cannot take the degree of B.L. till they have passed two years in the study of Law after taking the degree of B.A.

7- Some encouragement in addition to the prospect of securing an appointment in the Engineer grade might be held out to graduates in arts who desired to enter upon Engineering studies, and I do not think that Rs 40000 placed at the disposal of the Lieut Governor by Ray Lunk Nepur Singh Bahadur could be more beneficially appropriated than in founding 4 scholarships each of Rs 400 per annum for graduates seeking to become Civil Engineers. Two scholarships might be awarded annually and made tenable for two years on condition of satisfactory progress being reported at the end of the first year. If this suggestion of two or three reserved appointments in the Engineer grade for students who enter upon their Engineering studies after graduation

in Arts be approved there will be no difficulty
in putting it into working shape and it would
I believe tend materially to raise the status of the
College.

Yours
J Hulcliff

No. 175

To

The Director of Public Instruction

Residency Calcutta the 23rd March 1870

With reference to your endorsement No. 1449 of the 22nd inst. I have the honor to state that it is not the practice at this College to allow attendance on the 1st year Law lectures to count in qualifying for admission to the examination for Readership which is conducted by the High Court. During the 1st year in Law our students are lectured in the subjects forming Head I of the B.L. course laid down in the University Calendar, and these are not required to be taken up by Pleaders Candidates. The subjects taken up by Pleaders are included in the lectures to 2nd and 3rd year B.L. students and it is therefore indispensable that Pleader Candidates should attend these lectures whether they happen to have attended the 1st year lectures or not. I am not able to say what the practice of Professorial Colleges is, but in the case of Pleader Candidates the Principal has to certify that each has attended a full course of lectures in the subjects prescribed in the High Court schedule and it may be the case that in Professorial Colleges the whole course can be completed by reckoning attendance on 1st year B.L. lectures, but I doubt whether this is possible.

I remain the obedient

I have,
J. Kutchiff

To H Woodrow Esq^r M.A.
Director of Pub. Instⁿ
Presidency College the 29th March 1876

Sir,

I have been requested by the framed officers now attached to the Presidency College to bring to your notice that no authoritative reply has ever been received to the Memorial addressed to the Sec^y of State in September 1867 by the framed officers then serving under the Government of Bengal. For reader reference I annex to this letter 3 copies of the Memorial in question.

You will observe that 10 of the officers who signed the Memorial have died during the interval, and that two of the officers appointed to the Department since 1867 have also died. The recent death of Mr Thwayles, one of the Memorialists after serving for 29½ years shows how hardly the present rule presses on Educational officers, in requiring 30 years of actual service in India to qualify for a good service pension. Had the modification in the present Pension Rules suggested by the Memorialists in para 19 of the Memorial been granted Mr Thwayles' life would probably have been saved. However strong a constitution an officer may possess, all statistics in India show how dan-
gerous

gerous it is that he should be compelled after a residence of nearly 30 years to remain in office till incapacitated by sickness from further service. Any serious illness after so long a period of residence in this climate most frequently terminates fatally, and I trust that you will impress upon Government how desirable it is that we should be permitted to retire on the highest scale of pension after 25 years' approved service without a medical certificate.

No 185

To The Director of Public Instruction
Presidency College the 1st April 1876

With reference to your circular No 16 dated 16th
March, I beg to point out the probable savings in the College Budget that
are likely to be effected by the changes already carried out and to be carried
out in the staff of this College.

Mr. Sawney goes on furlough on the 5th April.
The provision for his salary in the Budget being Rs 7500 of. He is to be replaced
by Mr. Webb whose salary will only be Rs 5000 thereby effecting a probable
savings of Rs 2500 of.

The transfer of Mr. Griffiths to Kumbly and
the appointment of a Native Lecturer in his place will effect a savings
of Rs 650 of a month so long as it lasts.

There is also a saving of Rs 250 of a month
effected by the appointment of Mr. Jackson on Rs 500 of in place of the late Babu
Rang Charan Sen for whom a provision of Rs 750 of a month was made.
Provision for another 14th grade officer

expenditure from England was also made in the College Budget and the whole of this provision will certainly not be needed.

Provision for a Reader on Rs 60 of a month was also made in the Budget with a view to a possible subdivision of the 1st year class into two sections. This will not now be required. Provision was also made for a Gymnastic Teacher for the College on Rs 40 of a month. This appointment need not I think be filled up.

Summing up these various items there may be a saving of Rs 2500 of an the Budget Estimate for the Current year and it is quite certain that a large portion of this will actually be saved.

I have

N^o 202

To

The District Engineer, Durbhanga

Dated 17th April 1876

Refers to his Memo N^o 130 dated 14th April 1876

The subjects of examination for the grade of accountant
are Arithmetic whole course, Mental Arithmetic, Dictation and
Hand writing. The fee for the examination is Rs 6/- but per-
sons in the account branch of the P.W. Deptt are exempted
from the payment of Examination fee.

J. Sutcliffe
Principal Roorkee College

N^o 203

To

A. Woodrow Esq. M. A.

Director of Public Instruction.

Presidency Calcutta the 18th April 1876.

Sir

I regret to have to report to you the death
of the Head Pandit of the Sanshodh on the 10th inst.

The post is worth Rs 40/- a month, and I
recommend that the second Pandit Koyla Chandra
Mookerji who has served satisfactorily for 12 years
in the school be promoted to the higher post. To the
second Panditship which is worth Rs 25/- a month,
I recommend the appointment of Uma Chandra Bhattacharya
an ex-student of the Sanskrit College who has
a fair knowledge of English. Both appointments
should date from the 17th inst.

I am &c.
J. Sutcliffe
Principal

No 207

To

To

The Director of Public Instruction

Dated 25th April 1876

Sir With reference to my letter No 203 dated 24th instant proposing arrangements to fill up the Head Punditship of the Hane school. I beg to request that the proposals made therein be considered as temporary and be allowed to stand till the 30th April current.

I have &

J. Hutchiff

No 210

To

The Director of Public Instruction

Presidency College the 25th April 1876

In pursuance of the arrangements made in my letter No 205 of the 21st instant. I have the honor to propose that the salary of the post of the Head Pundit of the Hane school be raised to Rupees 100/- and that of the 2nd Pundit to Rupees 40/- a month payable from surplus funds of the school which are sufficient to meet the increased expenditure, and to recommend that Babu Jogendra

Atth Banerji M.A. at present professor of Sanskrit in the
Cathedral Mission College be appointed Ho Pandit of the Home
School on Rupees 100 of a month and the present 2nd Pundit
Kalyan Chunder Mukherjee be allowed to draw the increased
Salary of Rupees 40 of a month with effect from 1st May/75
I enclose a proposition statement showing
increased establishment of the school.

to the District Engineer Purneah with reference to his letter
No 258 dated 20th April/75 & with a notice that the applicant is a
Candidate for the post of one of the two messengers wanted
for Purneah on a salary of Rupees 60 of a month. The
applicant is ready to start at once.

J. H. H. H.
Principal P. G. Coll.

result requires explanation. You are aware that each Principal has it in his power to limit the competition of candidates such as are in his ~~power~~ opinion likely to pass the Examination and if this restriction power were rigorously exercised I have no doubt that 80 to 90 per cent of the candidates sent up would pass. But I do not consider that it is desirable so to restrict the competition at the University Examination although I believe that in the upper Provinces the selection of candidates is very carefully carried out. I am disposed to think that it is desirable to send up all candidates who have been regular in attendance and fairly diligent in their studies if they wish to appear although by so doing the risk of a large percentage of failures is incurred. In the present state of Education in Bengal and with the general practice which I believe to be observed as regards the selection of candidates for the University Examination, I consider that a percentage of successful candidates amounting to from 40 to 50 indicates a very good result and so far as I can now form an opinion of the materials of our present second-year classes I think this result is likely to be attained at the next examination. I circulated the letter under reply to Mr. Harris who had charge of the teaching of English in the F.A. class during the latter half of last session with a request that he would favour me with his opinion on the main causes of failure. I enclose a copy of his reply, and you will observe that he attributes the failure (1) to the large number of students in the class, and (2) to the defective teaching in the schools which has been ~~intensified~~ ⁱⁿ intensified by the abolition of Text-books. I agree with Mr. Harris in thinking the class was too large for efficient teaching during some portion of the session. It contained 90 students. So large a class presents professors giving that individual attention to students which is necessary at this stage of their career. The division of a class into sections involves, however an increase of the staff, and is attended by other inconveniences which your own experience

with suggest. As regards the 2^d reason assigned by Mr. Haas I think there is no evidence at present to support it. The candidates at the Examination of 1875 formed the 1st batch of those who had gained admission to the university & under the new system as regards English and it may be true that the old system ensured a better training in English. I do not however share that opinion nor I think that there is any positive evidence of deterioration in the knowledge of English acquired under the new system. In the case of this college the only measure that seems necessary to ensure better results at the University Examination is the limitation of the number of students to be taught in a class to about 60 or at the outside 60.

3 This college sent up 102 candidates to the B.A. examination of whom only 27 passed making the percentage of successful candidates to be 26 whilst the percentage for the whole of the Bengal candidates was $23\frac{1}{2}$. In English the percentage of failure was 47 in Mathematics 52. Mr. Tauney had charge of the class in English and for the chief portion of the session Mr. Nash had charge of the Mathematics. Mr. Tauney having gone on leave I am unable to furnish you with his views of the causes of failure of so large a proportion in English. I enclose however a letter from Mr. Nash on the failure in Mathematics and agree with him in thinking that one main cause of the failures in Mathematics was the very large number of students in the class. Throughout the session the B.A. class maintained nearly 100 students and I need hardly say that it is impossible to do more than to attempt to teach partially by the black board. Individual teaching is out of the question in so large a class and I should say from my own experience as a teacher that fully two thirds of the students in any mathematical class require personal help in mastering the difficulties of a subject. Again we had the misfortune to lose Mr. Baines senior at the beginning of last session and his successor Mr. C.B. Clarke & afterwards Mr. Nash could not have that personal knowledge of the material of the class which the late Professor had acquired in carrying the students through their course of Mathematics in the third year. It is also a fact I believe that the 4th year class of the last session contained a large mass of bad material on this point the late Mr. William Laidgroat shd in his conversations with me on the outcome of the B.A. examination. This main cause of the shortcoming at this college referred to by the Vice-Chancellor was in my opinion on

the very large number of students we had to teach in a single class which made all individual teaching impossible and the only remedy for that lies in the decision of so large a class into sections which would involve an increase of the staff.

Sincerely
J. Hulstiff
Principal

No 218

To

The Directors of Public Instruction

Dated 29 April 1878

As you have been pleased to sanction a liberal salary for the Head Pandit of the Hindu school I beg to draw your attention to the very high merits of Bahu Shama Charan Mookerjee in his capacity of Head Pandit of the Hindu school with a view to their recognition by a suitable addition to his pay.

Bahu Shama Charan was appointed Head Pandit of Hindu school on the 6th July 1861 on the strong recommendation of Professor Canutt under whom he had read for some time previously. After passing the Entrance Examination Bahu Shama Charan continued his English studies up to the standard level in the 3rd year class of the Sanskrit College but he then accepted office in the Hindu school and did not prosecute his English studies further. He joined the Hindu school on a salary of Rs 40 a month but as I considered that this salary was less than a man of his attainment might expect I recommended that he should be honored of the staff of the school as 8th Master on Rs 60 a month from January 1863 when that post became vacant. Still continuing to discharge the duties of 8th Master that arrangement was sanctioned the 9th Master was appointed on the establishment as 10th Master on Rs 40 a month. This arrangement has continued ever since for the last 13 years & it has been attended by some inconvenience as it took away one of the Masterships on Rs 60 a month, which the junior Master might reasonably hope to reach by promotion in course of time. I would recommend that this anomaly should now cease & that a suitable

329
Salary should be assigned to Bahu Shama Charan
as H^o Pandit of the school and that Bahu Jadu Kulu Das
who now stands on the establishment as H^o Pandit on Rs
40/- should become 10th Master on the same salary. To
the vacancy on the staff of Rs 50/- a month I would recommend
the appointment of Bahu Kuni Lal Shome 9th Master
on Rs 50/- as 8th Master on Rs 50/- and the appointment of
Bahu Modhub Chund Das 10th Master on Rs 40/- as 9th Master
on Rs 50/-. I would recommend that the salary of H^o Pandit
should be fixed at Rs 80/- a month thus giving a increase
of Rs 20/- a month to the present H^o Pandit Bahu Shama Charan.
This increase certainly has earned by passed good service
as a teacher of Sanskrit & Bengali I believe that he occupies
the 1st rank in the education Department. He is also capable
of correcting translations into English but I do not consider
it necessary to disturb the present arrangements in the schools
for carrying out that duty. The surplus funds of the
School are more than sufficient to meet the increase of
expenditure which the proposed arrangements involve
& I recommend that they should take effect from the
1st May. I forward the usual proposition statement
embodying the proposed changes.

Shame &

To the Director of Public Instruction

Presy College dated 26 May 1876.

Sir With reference to your letter no. 2230 of the 29th April
I have the honor to submit an Extract from a paper pre-
pared by the late Baboo Anuram Chatterjee on the
early History of the College which embodies all the
information contained in the records of this office re-
lating to the subscription raised amongst the more
eminent members of the Hindu community between 1816
& 1824

2 In what proportion the present funds for the pay-
ment of the Foundation scholarships belong to the money
raised in 1816 and 1824 respectively I am unable to say
but with my letter no. 819 of the 26th February 1855 to the
Director of Public Instruction a statement of the funds
available for establishment of scholarships to be
attached to the Hindu College in accordance with the
plan laid down in the Council's letter no. 598 dated 10th
March 1854 was forwarded. I cannot now find a
copy of this statement among the records of the College
but it must be among the records of your office, and
possibly it may throw some light on the subject you are
now investigating. The funds now appropriated for the
payment of four Foundation scholarships are those which
formed the subject of my letter of Feb'y 1855. I have re-

J J Hutchings
Principal P. G. College

No 268

To

The Director of Public Instruction

Presidency College 19th June 1876

Sir

Baloo Ram Lal Datt 6th Master of the Hindu School on a salary of Rs 80 a month has tendered his resignation of his appointment from this date in order that he may become a Pleader and I beg that it may be accepted.

In place of Ram Lal I beg to recommend the appointment of Baloo Kedar Nath Banerji. now an extra master in the school drawing Rs 80 a month.

By uniting two sections of one of the lower classes which between them contain only 32 boys I can dispense with the service of one master and do not therefore require any one in Baloo Kedar Nath's place.

Yours &c

J. Hutchiffs
Principal Presidency College

No 277

To

The Director of Public Instruction

Presidency College the 22nd June 1876

Sir

The large amount (Rs 132-8) paid for the Gas
supplies during the last 4 months to the College Laboratories renders
some explanation necessary when I received the February bill amount-
ing to Rs 27. I refused to pay it as it charged for about 4 times our
usual consumption. This bill was delivered about the 20th March and
I had a thorough examination of all our fittings and Mr. Pedler
and myself concluded that the leakage which had taken place had
occurred in the meter belonging to the Gas Company. The Inspector
maintained that this could not possibly be the case but admitted that
he could not point out how the leakage had occurred. The March
bill was also equally heavy whilst the consumption in April
returned to the normal rate. This convinced me more strongly than
ever that the leakage in February and March had occurred
on the Company's side of our connexion and I offered to pay
the February and March bills at the same rate as that for April.
This the Gas Company declined and on an examination of the Indian
Register for the consumption during May it was found that
the leakage was going on more seriously than before. The
fittings were again examined by a Professional Fitter and found
tight when it occurred to the Gas Company's Inspector that possibly

the gas-holder belonging to the College might be in fault accordingly after the holder had been filled at night for the following days consumption it was examined and a slit about 2 inches long was found at the bottom of the holder which allowed gas to escape when the pressure inside was at its maximum. This examination was made by Mr. Pedler and it was satisfactorily for the large expenditure of gas. The gas consumption has since been cut off and I have engaged gaugers &c to do the necessary repairs to our ^{gas} holder. Under the above circumstances I beg that the present bill be passed

J. Hulstiff
Principal Registrar

To

N. 343

Mr. J. Freitas Esq.

Dated 11th July 1876

Refers to his letter dated 6th July 1876

Informing that the Examination fee of Registrar
of fees has been received. The Principal regrets that he
cannot send him question papers, unless the Executive
Engineer applies for them. Mr. Freitas must therefore
request the Executive Engineer to ask for the question
papers from this office

J. Hulstiff
Principal Registrar

To

N. 344

The Director of Public Instruction

Sir

Dated 12th July 1876

The Engineering classes for the new session having
now been forwarded, I have the honour to report that they stand
as follows

	No. of Students
3 rd year class —	34.
2 nd year class —	53.
1 st year class —	69.

I expect there will be in the course of the Session 1876/77
with drawsals from the 1st year class from one cause or another
and I consider the European staff now attached to the Depart-
ment to be fully adequate for the purpose of instruction in
Engineering and Mathematics. It is however still necessary
to retain the services of Babu Dwarka Nath Dutta on his present
salary of the purpose of assisting the Professor of Drawing with
1st year Class and for assisting the professors in charge of the field work
of this class during the surveying season. The services of the as-
sistant lecturers on Mathematics Babu Kishan Kumar and Sarvag
are

360 END

are no longer engaged and the pay of that post is Rs 125/- a month
maybe a saving for the rest of the year This Baloo has been
attending from 25 June 1876

J. H. S. Subcliff
