772

Office Memorandum from E. H. LUSHINGTON, Esq., Secretary to the Government of India, Financial Department,—(No. 1704, dated Simla, the 3rd August 1865.)

WITH advertence to the endorsement of the Home Department No. 408, dated the 25th July 1865, the undersigned is desired to request an explanation on the points noted below, as in the absence of such explanation the Governor General in Council cannot feel satisfied that the arrangement proposed in connection with the Engineering Branch of the Presidency College, Calcutta, are so economical as they should be.

It is observed from the concluding sentence of paragraph 8 of Junior Secretary Mr. S. C. Bayley's letter to the Public Works Department, No. 92T, dated 17th July 1863, and from paragraph 7 of Major Medley's Memorandum dated* 15th October 1862, that the Government of Bengal and the Principal of the Civil Engineering College considered that a Professor of Civil Engineering and a Professor of Drawing were all that it would be necessary to add to the Presidency College on the amalgamation with it of the Civil Engineering College.

Mr. Medley, it would seem, had received an assurance from the Principal of the Presidency College "that Mathematics and Natural Science could be taught them (the Students of the Civil Engineering Class) without additional assistance."

With reference to the foregoing opinions the proposed charge for a Professor of Mathematics requires a fuller explanation than has been afforded.

Apparently, too, no experience can have been gained as yet for incurring at an expense for an Assistant Professor of Engineering the previous opinion, that a Professor of Engineering would have been sufficient.

The need for retaining nine chainmen throughout the year should also be explained.

Dated, Fort William the 22nd August 1865

Financial Sir,

I am directed, in reference to
Mr's Wilkinson's letter No 2306 dated the 23rd May,
1865 dated } last, to forward, herewith, a copy of a Report fur-
nished by the Accountant General Bengal, -
and to state that the Lieutenant Governor has
been pleased, in accordance with the recommendations
given therein, to sanction the payment to Mr's Bar-
clay a Duffty in the Hindoo School, of a
gratuity of Rupees (36) Thirty six, equivalent
to his pay for six months. The Accountant
General has been informed accordingly.

Report No 433 dated 9th August 1865
 Perbux

Late a Dufftry in the Hindoo School

The name of the applicant is not traceable in the Books of Civil Establishments as he served in a grade ineligible to pension. From the accompanying letter No 2308 dated 23rd May last from the Director of Public Instruction, it appears that Perbux has served Government for upwards of 35 years, but as dufftries are not eligible to a compassionate allowance Perbux may be allowed a gratuity of 6 months pay or Rupees 36 under the old rules.

Fort William, the 30th November 1865.

Sir,

The old form of return regarding Candidates for Junior Scholarships was inadvertently sent from this office in the place of the new form as modified by the Junior Scholarship rules of the 22nd February 1865. The sixth clause of the old rules imposed a limit of age which has been cancelled, as it was found to exclude those men only above 19 years of age who spoke the truth. The new rules admit to Scholarship students of any age provided they have studied for the last twelve months at the school to which they belong at the time of presenting themselves at the Entrance Examination. If any student who has changed his school within this period wishes to compete for Junior Scholarships, he must first obtain the sanction in writing of the Director of Public Instruction.

Fort William, the 2nd December 1865.

SIR,

No. 3620, dated 13th September 1865.

" 3625, " 12th " "

" 10T., " 27th " "

I AM directed to acknowledge the receipt of your letters noted on the margin, and in reply, with reference to the question raised regarding the pay of Mr. Galwey, of the Presidency College, I am to point out that, in his letter of appointment No. 5169, dated 22nd November 1864, that gentleman was distinctly informed that his promotion from the salary of Rupees 600 to Rupees 700 per mensem would be conditional on his passing in one of the vernacular languages. This condition is not affected by the scheme of graduated salaries sanctioned by Government.

2. In regard to Messrs. Bellett, Martin, and Scott, I am to say that their first promotion in salary should date from their passing their vernacular examination. In the case of Officers appointed in England, promotion on passing will not be at once to the salary to which their service was respectively of their passing, entitle them, but will be made in the manner described in the 4th paragraph of Mr. Atkinson's letter No. dated 1st July 1865, as quoted and interpreted by you.

3. Mr. Scott will draw Rupees 350 per mensem until he is in the vernacular.

4. The "original scheme" alluded to in endorsement from this Office No. 4803, dated 7th August last, is the one submitted by Mr. Atkinson with his letter No. 1205, dated 18th March 1865, which has been modified by the orders of the Government in India in the Financial Department, No. 1212, dated 13th July last.

5. A copy of the letter to the Government of India, No. 3401, dated 11th May 1865, relative to your salary under the new scheme, is forwarded for your information as requested.

SIR,

No. 3620, dated 13th September 1865.
 " 3625, " 12th " "
 " 10T., " 27th " "

I AM directed to acknowledge the receipt of your letters noted on the margin, and in reply, with reference to the question raised regarding the pay of Mr. Galwey, of the Presidency College, I am to point out that, in his letter of appointment No. 5169, dated 22nd November 1864, that gentleman was distinctly informed that his promotion from the salary of Rupees 600 to Rupees 700 per mensem would be conditional on his passing in one of the vernacular languages. This condition is not affected by the scheme of graduated salaries sanctioned by Government.

2. In regard to Messrs. Bellett, Martin, and Scott, I am to say that their first promotion in salary should date from their passing their vernacular examination. In the case of Officers appointed in England, promotion on passing will not be at once to the salary to which their service, irrespective of their passing, entitle them, but will be made in the manner described in the 4th paragraph of Mr. Atkinson's letter No. 2739, dated 1st July 1865, as quoted and interpreted by you.

3. Mr. Scott will draw Rupees 350 per mensem until he passes in the vernacular.

4. The "original scheme" alluded to in endorsement from this Office No. 4803, dated 7th August last, is the one submitted by Mr. Atkinson with his letter No. 1205, dated 18th March 1865, which has been modified by the orders of the Government in India in the Financial Department, No. 1212, dated 13th July last.

5. A copy of the letter to the Government of India, No. 3401, dated 11th May 1865, relative to your salary under the new scheme, is forwarded for your information as requested.

Dear Sir

Law. 11th 1866

My dear Sir

This morning some of the 3rd year students thinking no doubt that their knowledge of Engineering field work was quite sufficient went down to Calcutta against my wish. They have not the work they have been engaged upon finished & checked in a proper & workman like manner & they have not remained to make the Contour survey I wished them to do, but on the contrary have stolen the map of the district I wished them to survey. For such

disobedience on their part tell them (subject of your approval of course) that they have been struck off the roll & will not be admitted again unless they all pay a fine of Rs 5 and pay 40 paise Rakti Rs 10 and order them to return to Ranpur at once. Their expenses up & down also will not be paid by the department. My object is to try & make them of some use when they enter the public works department instead of being as useless as they are.

Yours truly
J. W. G. G. G.

Sir,

We the undersigned beg most respectfully to bring to your notice that we have come down to Calcutta on Monday the 8th January 1866. The reasons for our coming down are the following

1st That we have finished our prescribed project of Canal through our own unassisted exertions.

2nd That we received very little assistance from our Professor, so much so that he had been with us four days only in the field, and that even for a few minutes.

3rd That we thought it prudent not to waste our time for nothing, since we had no hope of receiving any instruction from our Professor. One day when we requested him to go with us in the field, he said that he could not expose himself in the sun.

Lastly, he advised us to make a
Contour Survey of Rance gorges for
the private use of the Magistrate
of that place, who was his personal
friend.

the instigator of this measure, and I have the reason for
saying a brother of the father is against the
marriage. What is the brother's name?
The answer is about as follows: "I have for the contract
the other, for I understood to write to his father, or him
saying to advise the marriage and not write him, or his father,
afterwards, that marriage." "We would not have any
of this business." "I have directed him to get a letter from
his father, stating that it was his wish to withdraw his son
from a school, and that, as such, he and his companions should
be free to do as they please, without any attempt on his part to obtain
the required letter." "No other student of Hall hath withdrawn
from school," alleges, that by living in Calcutta, he will
be in India, or even not his brother has lately been appointed
to the office of Secretary of the Government of Bengal, and that he
was appointed to Calcutta? In the first place, his brother has
his office for some time, certainly for more than a year.
It is, however, Hall hath resigned this College in January last!
The maximum expense here for boarding
and lodging, as I have said above, is six rupees, or
equivalent to the young man, who has a weekly allowance
of twenty rupees, or about three thousand dollars. Further
on, he communicated to me in January 1861, that his
father would not defray the expense of his education for the
first stage, in the Presidency College; then, being in possession
of such an education here) at his calculation, I obtained
from him the knowledge of the Calcutta school system,
and required her name, on the express understanding that

a grant savings would be devoted to paying his expenses in
studying for the degree, & in Calcutta, or here should the
Govt. sanction the plan of the Community, he is still left
at home. He is, however, doing nothing of his former
interest in the seminary, & he accordingly returned to the
Institution in January last, & there that year Chas was
absent a week ago, he was sent, with a remission to
Calcutta; that is he returned from home where he had been
with the Govt. without forming any such view of the time
which is what I shall now mention.

At the beginning of this session, fourth year, the
was formed, the intention of which is to give more
the Staff & Students, and the Professors. The object of the
of Professors. The senior students of this College, for the
last year, been disappointed in the hope of being admitted
as one of the Professors. The present arrangement has led
been a severe disappointment to them, as well as to the
in general, who, under unfavorable influences, have formed
the rash conclusion that, whilst the year has been raised
the Professors are to be increased. Indeed that the new
Professors College, is to be reserved to the students.
There are not less than 100 students for Calcutta, who
have been as yet on flannels, and have done nothing
Community. I have now to the members of the
involving, and the students are just now thinking of the
course of these two and another senior student, who has been
in your College, was by the circumstances; they would
consequently of the whole of the other students.

since their classes. I have the more my head full evidence
of a sort of combination to prevent the University College in this
country. The chance only was given at the Surveys, the
first terms, & I trust, abandoned. It is the cry of the people
of the present staff is, I consider, utterly groundless,
except in respect of its being a step which I express
it shortly in remarks.

After the combination, I would not wish to give
any encouragement. Should be given to
the students of the University College, when, as
well as the steps are being taken by Lord Curzon
to support the highest order of instruction.
The transfer of these two students would
be only an encouragement of combinations inconsistent
with the principles. But would be a measure directly
opposite to the design of Lord, to extend a full
education to the Imperial.

SIR,

With reference to the correspondence relating with your letters noted on the margin, I am directed to inform you that the Governor General's Council concurs with you in opinion that the Chief of Basowda is a feudatory of the Gwalior State, and that consequently Basowda is not entitled to a place among the Chiefships immediately dependent on the British Government shown at page 512, Vol. IV., of *Aitchison's Treaties*.

2. The following foot-note has been added in the Foreign Office copy of the volume in question, and you are requested to cause a similar correction to be made in all copies which may have been officially supplied to the various Agencies in Central India:—

"*Basowda*.—This Chiefship has been erroneously entered among the Chiefships immediately dependent on the British Government. Its real position is that of a feudatory of Sindia, paying no tribute. Nevertheless, the Chief receives the countenance and support of the Political Agent at Bhopal, within whose local jurisdiction the estate lies, and who, since 1822, has exercised the same general authority in the affairs of this Chiefship as in those of the guaranteed petty Chiefs subject to his control."

Calcutta: the ~~24th~~ February 1866.

SIR,

To enable me to compile the Books of Establishments for the Government of India, and the Audit Registers required for the use of this office, I have the honor to forward forms marked A, B, and C, and to request that you will have the goodness to have them carefully filled up and transmitted to my address on the 1st of May next or as soon after that date as practicable.

Form (A.) should be prepared in duplicate, and exhibit in detail the name, designation, salary, &c., of all Officers Covenanted or Uncovenanted drawing salaries above Rupees 10 a month who were employed in your office on the 1st of May 1866, as also the several rates of salaries drawn by menial Servants on that date.

In order that the return (A.) should be as complete as possible, please quote carefully the Order of Government which sanctioned the scale of Establishment, and also append a note at foot of the return, shewing the items of expenditure which though sanctioned have not been incurred by you.

A Single copy of form (B.) is required, and should exhibit the name, designation, salary, &c., of all Uncovenanted Officers (other than Gazetted) drawing salaries above ten Rupees a month, as well as the salary of all menial Servants employed on your Establishment on the 1st May 1866.

Form (C.) should be prepared in triplicate and exhibit the name, description of appointment, &c., of all European and East Indian Uncovenanted Civil Servants, who were employed in your office on the 1st May 1866.

Circular

A^d 2041 to 2046

From the Director of Pub. Instruction

To All the Inspectors of Schools

Dated Fort William 6th May 1865

Sir

Adverting to the remarks on Free
 Studentship at page 82 of the Annual
 Report for 1863-64 I have the honor to in-
 form you that in the place of these Studentships
 the Government has been pleased to sanction
 the Establishment of two hundred English-Speaking
 Scholarships at Rs 5 each per Annum from
 1st January 1866 tenable for two years in
 Schools of higher class which educate up to
 the University Entrance Standard.

2 Of these scholarships 100 will be
 annually available for competition and the
 Standard of Examination will be the
 same as that heretofore prescribed for the
 Free Studentships which they will supersede.

3 It will be necessary to lay down
 definite rules for the Award of these Scholarships
 And I now address you with a view of

obtaining
a given opinion as to the limitations which
will be necessary in regard to the class
of schools that is to be allowed to compete
and statistical information regarding the
number of such schools and their pupils in
the division under your charge.

It is obvious that the pupils of schools
of the higher class must not be considered
eligible and I am disposed to think
that the competition should be distinctly
limited to those schools in which the
course of study does not extend beyond
the third class in a Collegiate or Fitchburg
school.

Does it seem proper that one
and the same school should be allowed
to compete for these new English Scholarships
and for the old Vernacular Scholarships
also?

On these points in particular your
opinion is requested and I shall also be
glad to be favored with any general
suggestions that occur to you which may
be of service in enabling me to prepare
a suitable Code of rules.

7 I do not at present propose to
 assign permanently any fixed number of
 scholarships to the different divisions.
 I shall make an annual distribution
 reference to the number of school
 scholars that may be expected a year
 for the competition by each Inspector.

8 It will probably be convenient to
 hold the Examination for these scholars
 at the same time and in the same place
 as far as possible, as that for the Junior
 Scholarships. The successful candidates
 being entitled to receive their stipends from
 1st January following.

The distribution of Junior Scholarships
 will this year be tentative and will be liable
 to alteration next year. Having regard to
 the

is intended to the number of schools to
contribute their prizes and on the other
hand to the necessity of giving encouragement
to backward districts I have de-
cided to give this year 25 per cent
or 50 Scholarships to the Central Division
25 per cent or 40 Scholarships to the South
Central Division

20 per cent or 40 Scholarships to the
North West Division

15 per cent or 30 Scholarships to
the North East Division

10 per cent or 30 Scholarships to the
North West Division

Each Scholar is allowed to hold
his minor Scholarship for two years
at a "Higher Class" School subject to
the usual conditions of satisfactory
progress and good conduct. minor Scholar-
ships take the place of Free the Studentships
are intended chiefly for Middle Class
English Schools. Higher Class Schools
have Junior Scholarships and Vernacular
Middle Class Schools have Vernacular
Scholarships to compete for. It was
intended by minor Scholarships to give
encouragement to English Schools about
half way between these limits. In the
Central Division it has been found that
some

some higher class aided Schools are desirous to become Middle Class Schools for the purpose of obtaining a higher rate of aid and partly to obtain the privilege of competing for minor Scholarships. Some students in the same manner contended both for Junior and minor Scholarships and passed higher in the Examination list than in the minor Scholarship list. This fact was due perhaps to the greater part of the Minor Examination being in the Vernacular. It is however a defect. If the Language in which the Examination is held equalizes the advantages of different kinds of Schools, it may be possible to award Minor Scholarships without regard to the distinction between Higher and Middle Class Schools. —

It would then be necessary to make the provision that the Minor Scholar should study two years in a higher class School before passing the Examination and that if he attempted to pass at the end of one year he should be ineligible for a Junior Scholarship. And it is to be hoped that Government and aided Higher Class Schools could be prohibited from granting Entrance Certificates to minor scholars of one year's standing. The change therefore

The offering of three Scholarships being absorbed
by pupils of higher class schools would be
discovered. It would have the advan-
tages of raising the standard of the Entrance
Examination as well as of giving a value wholly
unknown to the study of the Vernacular
in higher class schools. This would in any
case be an advantage and especially
so now that a Classical language is being
substituted for the Vernacular in the
higher classes of many schools.

I am decidedly of opinion that trans-
lation from English into the Vernacular
and from the Vernacular into English
should be substituted for paraphrasing in
English and in the Vernacular and should
form a very important portion of the Exam-
ination. One disadvantage would arise. The
Commissioners for the Minor Scholarship
Examination would be forced with almost
irresistible power on the authorities of
all schools and thus the Government Edu-
cation Department would control the course
of study in even private schools. The managers
of such schools would wish their own selection
of books and subjects to be observed and the
Schools and the Inspectors would be led into
long discussions which probably would be

be conducted by Managers with considerable
Schemes. —

5 The award of these Minor Scholar-
ships is a matter of great importance and
I should be glad of your opinion on the
following points. —

1 Should the greater part of the
minor Scholarship Examination be conducted
in English or in the Vernacular, &

2 Is it desirable to place any
restriction on Higher and Middle Class
Schools or on private students, on admission
to the Examination. I should fear will keep
the Examination Halls from being over-
-crowded with Candidates. —

The four students left the Hindu School because
they were placed as they thought too low. As a result,
list for the Leolootollal School stands thus —

Free Studentship for Calcutta — 3

Profusil Vernacular Scholarship holders — 3

Minor Scholarship holders — 2

As the minor scholars pay fees (not exceeding

SIR,

I have to report that I have conducted the examination of Mr. Fox in accordance with the rules and to return herewith the examinations questions and answers. The Description Roll will be sent if he be declared "passed", for he seems physically fit for the D. P. H.

2. I would suggest that a clear mode of expression be adopted in the question papers, as regards the questions for each class of candidates. Take for instance the paper in "Drawing" the expression "for Asst. Quensers" and "Sub Engineers only" and again "Sub Engineers and P. Asst. Engineers only" leaves it doubtful whether these terms apply to candidates already in the grades

He has passed the examination for Quenser and has got his Certificate for it. He perhaps may get the Description Roll as necessary.

I am at present suffering from what is thought to be "Influenza" and therefore cannot report very favourably of my immediate condition. The people generally are complaining of the disease. Dr. Wilson on my last visit to him this day also continued to find the condition of my hand to be improving, and expressed his confidence that I shall entirely recover, and in some time to add it is his opinion that I shall be able to leave now untroubled. The greater number of course he refers to as "Influenza".

Dated Calcutta the 28 May 1866.

Sir,

With reference to the new rules for the admission of Pleaders for the Magistrate Courts, published in the Calcutta Gazette of 9th May, I have the honor to request that you will obtain from the two Professors of the College a programme for a two years' course of lectures on the subject mentioned in paragraph 1 of these rules, the lectures being so arranged as to form an integral part of the course for the B. A. Examination, while they yet can be attended separately by persons who desire to be qualified for Pleader-ship only.

This programme is required not only for the Law Class of the Presidency College, but also for the guidance of the

My dear Mr. Southwell

I came to school. In the
morning I went to thank you & Bill for
kindly looking for L.H.'s dog, using my
day in the month of January.

The improvement in my hand progresses
with its continuing and consistent use.
Though I have now for so many months
been daily (with few intermissions) swallowing
Arsenic and Iodine and other medicines
of similar nature, and applying a variety
of external medicaments to the hand
itself, it will not apparently be improved
human constitutional force. The weakness
therefore for my suffering an extension
of time, & which I spoke in my
Letter, has been confirmed, and on my
next visit to Dr Wilson he is to
me with the requisite Certificate
which to procure the Medical

Mr. Second, on whom I called,
the Indian Office explained to
me the Commission about three months
before the expiration of the first term
of service to which he had been
appointed for communication with the
Indians. When the Indian Agent
will not occasion you inconvenience
of any kind or in any degree,
and that the gentleman who is now
acting for me, Mr. Bennett & Mr. Scott
will be willing to continue their
services on my behalf as may be
useful, and that they will be and
continue so. I have named a longer time
than six months, but Mr. Second
informed me that they do not grant
more than 6 months extension at
one time. I earnestly hope that
this period, if not less, will prove

Sufferer. My manuscript, however
 now, is no longer revised and printed.
 I have no amount of paper in my
 hand now, which I did not possess
 two or three months ago, and for which
 I am thankful to say expresses
 perfect confidence that I shall have
 it now. I continue of course as ever
 see to write with the left hand, and
 avoid even that as much as possible.
 I have invitations to the Sea Coast of
 Scotland and also to the Highlands,
 and hope to try the virtues of the
 air of both.

I am very dear Mr. Pitt

Dated Simla the 9th June 1866.

Sir,

I am directed to acknowledge the receipt of your letter, N^o 161, dated the 28th April last, submitting the result of the enquiries made by the Director of Public Instruction in regard to the expediency of raising the rates of fees in the Government colleges in Bengal.

In reply, I am directed to state that the Governor General in Council has pleased to approve of the steps which have been taken for raising the fee in the Presidency College from Rs. 10 to Rs. 12 per annum.

I am also to express His Excellency's hope that the expediency of making a further increase to the fee paid in the Presidency College, and of increasing also the scale of fees in the Provincial colleges, will be the subject of consideration in the course of the next session.

4 The increase in the fee (Rupees 5/6 to 10)
in the Law Department of the Presidency College
which has been carried out, seems to His Excellency
in Council to be judicious, and the expressed inten-
tion of making the Hofusil Law Lectures self-
supporting is satisfactory.

My dear Mr. Sutcliffe

I have to acknowledge with my thanks receipt of a draft to Bank of England for £34.11.2 value the amount of my pay for the months of March and April 66.

In my last I reported to you the necessity which in medical opinion existed for an extension of my leave. On Thursday accordingly I went before the Medical Board, who have confirmed that opinion. I have yet to receive an official reply from the U. Secy of State Office, but have no reason to doubt that the extension will be granted. Directly I obtain my reply I will of course advise you again, though I presume official intimation of such extension if granted will be forwarded to yourself - or intimated in some form from the Exchequer Office.

Assuming then I shall then only have to renew my hope that I will have your own approval, and be productive of no movement either to yourself or the authorities who have been acting for me, and who I hope find it agreeable to continue doing so for a further season.

My dear Sir, I am thankful to say is more
widely known & only improving. but I
am sorry to add that a new trouble has
arisen in relation to the right eye which
has long annoyed me by its short sight and
apparent enlargement of the pupil moves in
examination to the inferior part of the eye, the
same of course of the same nature as the
first one but is more annoying to the hand
of the eye. I have been for it and I can
only say that the constant use of remedies
which lay upon the hand will be of no
service or to check this affection of
the eye. I shall however I hope
have the value and notice of my friend
Dr. Brown who has just returned from
London where I was last winter.

Remarks by Captain E. C. S. Williams
on the result of the L.C.E. Exam: 1866.

I have now taken part in this Examination for 3 consecutive years and the results have been worse each year. Until, on the present occasion, one candidate only can under any circumstances be allowed to pass. -

Now this is not the fault of the Candidates, either altogether, or chiefly. For in the first place, they have been permitted to proceed to the study of Engineering under the University Regulations before they are sufficiently well educated in a general way. In fact, I may say with their answers to my papers before me, before they can understand English so as to express themselves properly and even in some cases before they can spell. And in the second place, they have had very great disadvantages in the study of Engineering from the changes of late years in the Constitution of the College or Department in which they have had to study from the frequent changes in the personnel of the Staff of Professors and from the totally inadequate staff by which a complete professional education is expected to be imparted. -

The Regulations of the University

ought, in my opinion, to be altered and that the First Arts Examination shall be the introduction to this special Department. Practically this is the case at Dookee. Next it is no use endeavouring to teach youths such an extensive speciality as Engineering without a proper staff. It is unfair to the students of the Engineering Department of the Presidency College to delude them for three years in the way that is now done. After a course of study of that duration, they present themselves for examination with a well founded hope of success - and the result is before you.

Whether the number of students be large or small, there is a minimum staff without which it would be better to abolish the Department altogether.

Personally, and notwithstanding the good men I had under me when I started the College, I do not entertain sanguine hopes of our obtaining successful Bengali Engineers. Still, there is no doubt that the present state of affairs does not give them a chance.

One word more the illustrative sketching of the whole was disgraceful.

The Governor General in Council is pleased to confirm the sanction of the Government of Bengal to the above charges, with the exception of the salary of the Professorship of Mathematics. The Principal of the Presidency College has established the necessity for a Teacher of Mathematics specially for the Engineering Department, but his remarks shew that an Assistant Professor on Rupees 500 rising to Rupees 750 a month will suffice, and to this extent the provision for the teaching of Mathematics is allowed.

Director of Public Instruction*

No. 567.--The 4th May 1866.--From the 1st of August next the authority to frank letters on Her Majesty's service only, which was given to the Officers and others enumerated in the two Franking Lists, is withdrawn, and the following Rules for the payment and settlement of Accounts of postage on official correspondence will be in force:--

Privileged Offices.

2. The Public Officers enumerated in the annexed list will be privileged to send and receive (without actual payment of postage) all letters and packets *bonâ fide* and exclusively on Her Majesty's Service. The Post Office will keep an account of the postage due on the official correspondence of each privileged Office.

Official covers despatched from a privileged Office.

3. Official covers despatched from a privileged Office must be properly tied up, faced, and closed in a bag sealed with the seal of the Office.

4. Each cover must be endorsed "On Her Majesty's Service only," under the full signature (autograph or stamp) of the Head Clerk, or some other principal Officer of the Establishment.

5. The address must include the official designation of the Office to which the cover is directed.

6. The bag, when made up, must be sent before the hour fixed by the Post Office for the closing of the Mails for which it is intended.

Official covers addressed to a privileged Office.

7. Official covers addressed to a privileged Office by any Office not included in the privileged list must be endorsed "On Her Majesty's Service only," under the full signature and official designation of the person by whom they are despatched.

8. The address must include the official designation of the Office to which the cover is directed.

9. The official covers for each Office will be enclosed in the official bag, and sealed and sent out with ordinary delivery, or given to the messenger of the Office, should one be in attendance.

Official covers not sent by, or addressed to, a privileged Office.

10. Official covers which are not sent by, or addressed to, a privileged Office will be treated in all respects like private covers. Postage labels marked with the word "Service" will be made available for the pre-payment of such covers.

11. Service labels are never to be used in payment of the postage of any letter which is not *bonâ fide* and exclusively on Her Majesty's Service. Every cover pre-paid by service labels must be endorsed "On Her Majesty's Service only," under the full signature and official designation of the person by whom it is despatched. The address must also include the official designation of the Office to which it is directed. If the above conditions be not observed, covers (even though stamped with service labels) will be treated as ordinary unpaid covers.

12. Service labels will be procurable at the Treasury or local Stamp Depot of each District; Officers requiring such labels will purchase the number required, paying for the same in cash as if they were ordinary postage labels. A receipt for the amount, to be given by the Officer in charge of the Stamp Depot, will serve as a voucher for the charge to be made in the contingent bill of the purchaser.

13. As the present supply of service labels is limited, no public Officer should purchase more than he estimates will be sufficient for one month's supply; and it is to be remembered that service labels are not to be attached to letters addressed to, or despatched from, any privileged Office.

14. All officials who do not belong to privileged Offices, and who have official correspondence with other than privileged Offices, will have to make arrangements for supplying themselves with service labels either by direct purchase or through their departmental superiors.

Correspondence of local Officials within the limits of their respective Districts.

15. For the present no change will be made in the arrangements under which the public correspondence of local officials is conveyed, within the limits of their respective District, by District Post or by General Post.

List of public Offices with which the Post Office will keep accounts of postage on Official letters received and despatched, and for which Official bags will be made up.

1. Accountant-General, or Deputy Accountant-General in a Presidency or Province.
2. Accountant General, Public Works Department.
3. Adjutant-General.
4. Army Clothing Superintendent.
5. Board of Revenue.
6. Brigade-Major or Station Staff.

My dear Mr. Sutcliffe

My last of June 25th, accompanied by
with Frank's receipt for my pay for the months
of March and April, reported to you that I had
been before the Medical Board with the view of
obtaining what is termed furlough was required
for me, an Extension of my Leave. The
Medical Certificate recommended twelve months
but it was explained to me by the board that
they never gave more than Six Months extension
of leave at one time. I have now to beg of
you having received an official intimation of
this Extension having been granted to me, and
can only renew the expression of my hope that
this Extension may be perfectly satisfactory to
yourself and the gentlemen who are acting for
me.

I am, My dear Mr. Sutcliffe,

Yours very sincerely

J. Sutcliffe Esq.
