To

J. R. Barrow, Esq, M.A. (Cantab.), I.E.S.  
Principal, Presidency College, Calcutta.

Dear Sir,

First of all I beg to offer my respectful salutation to you, under whom I worked as Professor of History at Dacca College in 1913-14 & to whom I owed my confirmation in the Provincial Service in 1914.

I understand that on account of the transfer of Mr. Zachariah to Hooghly some one will be appointed to officiate in his place at the Presidency College. If it be decided to appoint anyone, temporarily or permanently, from the Bengal Educational Service, I may venture to put in a few words for myself.

I have been in this Service for 18 years, & have been teaching up to the Honours standard of the University of Calcutta. In 1925 I published a book, entitled The Organisation of India, which received good appreciation both in India & Europe, as may be seen from the enclosed copy of opinions from distinguished

## A few opinions on Prof. N. K. Dutt's The Aryanisation of India.

### EXTRACTS—

**Prof. E. Washburn Hopkins**, Yale University, U. S. A.  
—"I have read with great pleasure and profit your **very admirable** Aryanisation of India, a copy of which you were good enough to send me last autumn. The chapter on chronology is **by far the best presentation of the subject** that I have seen, and your appendix on Dr. A. C. Das's book is in itself **a most valuable contribution to sane scientific history**. The whole book is in my opinion **a most excellent study and a great credit to Hindu scholarship**." (20.2.1926).

**Prof. H. Jacobi**, Bonn University, Germany.—"It is **very well written** and gives **all essential information** on the interesting and difficult problem. You state **fairly** and **exactly** disputed points and decide them with **sound judgment**. I make no doubt that your countrymen will welcome your book as **a trustworthy guide** in a field of research beset with so many difficulties." (10.10.1925).

**Prof. Sten Konow**, Oslo, Norway—

"I have read it with the utmost interest, and I **congratulate you on your achievement**. Your views are **sound** and your way of arguing **scholarlike**. I differ from you in details, but I am quite convinced that your main line of argument is **unassailable**." (21.1.1926).

**Prof. A. Hillebrandt**, Breslau University, Germany.—

"The subject has been treated by you in a manner which will not fail to attract the attention of the reader, the more so as **no other work**,—as far as I know—**exists that treats this theme in its full extension**." (19.10.1925).

**Prof. E. Rapson**, Cambridge University, England—

"The book is **well written** and **well informed**." (1.10.1925)

**Dr. L. D. Barnett**, British Museum, England—

"It seems to me a **thoughtful and sensible survey** of the facts, and on several important points I am pleased to find that your views agree with mine." (5.10.1925).

**Prof. A. B. Keith**, Edinburgh University, Scotland—"It is decidedly advantageous to have a statement of the issues regarding the Aryan invasion **set forth clearly and effectively**, and I am glad to note that you have exercised a **sober and independent judgment** on the various issues. While the theories of Dr. Das and Mr. Pargiter are doubtless unacceptable, it is interesting to have their defects exposed in your Appendices, because statements left uncontradicted are apt to mislead those who are not expert at the outset of their studies and to lead them into false paths of investigation." (2. 10. 1925).

**Prof. J. Jolly**, Warzburg University, Germany—"Your **valuable work** on the Aryanisation of India has been duly received and it seems to be **very useful**, as it contains a **critical examination** of all the various theories concerning the immigration of the Aryans into India. The nature of Aryan colonisation and of the Dravidian element of Indian culture has been **carefully analysed**. The political history of the country has been traced back to the Vedas. The **copious Index** shows **what a large field has been covered by your researches** as contained in this volume." (6. 10. 1925).

**Prof. M. Winternitz**, Prague University, Czechoslovakia—

"I am greatly obliged to you for your kindness in sending me your **interesting book** on the Aryanisation of India. I agree with you on most points, especially in your criticisms of Dr. Das's Rigvedic India and of Mr. Pargiter's theories in the Appendix. Of course, there is still much in these questions that must remain doubtful." (20. 10. 1925)

**Prof. M. Bloomfield**, Johns Hopkins University, U.S.A.—  
—"Fine book."

**The Honourable Dr. D. F. Malan**, Minister of the Interior and Education, Union of South Africa—

"The Minister wishes to thank you for bringing to his notice **most interesting information** on a topic about which comparatively very little is known at present. He feels sure that your book will **create great interest and will be widely read** even in South Africa." (14.5.27)

**H. E. Stapleton**, Esq., Offg. Director of Public Instruction, Bengal—

"...your **extremely interesting and well-written** book 'The Aryanisation of India.' I only wish more officers in the Department would devote their leisure to producing **both scholarly and readable** books such as yours is." (29.9.26)

**Principal A. C. Woolner**, Dean of the University of the Panjab—

"It seems to me a **clear and moderate** statement of the main problems and a quite possible narrative." (26.4.27)

**Dr. G. N. Chakravarti**, Vice-Chancellor of the University of Lucknow—

"It bears marks of **scholarship and research**." (11.9.26)

**S. Sultan Ahmed**, Esq., Vice-Chancellor, Patna University—

"It contains **thoughtful and critical examination** of various theories regarding the immigration of the Aryans into India. I cannot help congratulating you upon the manner in which you have treated your subject and the **scholarlike manner** in which you have pressed your points and the **sober** manner in which you have criticised the various theories from which you have differed. The book is **exceedingly interesting** and I am sure it will be **useful to scholars as well as students**." (18.9.26)

**E. F. Oaten, Esq., Director of Public Instruction, Bengal—**

"It is satisfactory to note that the college staff made two **valuable contributions to learning**. Principal Ramsbotham's *Studies in the Land Revenue History of Bengal, 1769-87* and Professor N. K. Dutt's *Aryanisation of India* are clear evidence that scholarship can flourish in a mofussil college as well as in Calcutta." (Report on Public Instruction in Bengal, 1925-26)

**Director of Public Instruction, Madras—**

"The Director desires to bring the book '*Aryanisation of India*' by Professor N. K. Dutt, Hughly College, to the notice of the Principals of First Grade Arts Colleges and to state that it is deserving of a place in the college libraries." (Dis. No. 1052/27 dated 12th March 1927)

**Director of Public Instruction, Central Provinces—**

"Sanctioned for use as a Prize and Library book." (Order No. 488, Nagpur, the 24th January 1927)

**Times Literary Supplement, London—**

" . . . . . he has done to rehabilitate, so far as he can, the orthodox theories of Aryan civilization in India. He rejects Dr. Giles's suggestion of the Aryan home in Mid-Europe and Mr. Tilak's theory of an Arctic home; he will have none of Mr. Pargiter's contention that the Aryans came into India by the mid-Himalayan route; he demolishes Dr. Das's patriotic idea that the Aryans were indigenous in the Punjab, that the Vedic period goes back twenty centuries (?) or more before Christ and that the Dasyus were a more uncivilised section of Aryans . . . . Mr. Dutt's **most interesting** chapters deal with the Dasyus and with the nature of Aryan civilization...and he **distinguishes very clearly** the differences in the Aryan colonizing influence in the Punjab, in the Madhyadesa or Central India, in Eastern India, and in the Deccan. The book is **useful . . . and is well-reasoned.**" (22.4.26)

**Prof. Jarl Charpentier, University of Upsala.**

**In The Journal of the Royal Asiatic Society, London,  
Jan., 1927—**

"This book of Professor Dutt deals with a problem which ever fascinates us ; partly, perhaps, because in our inmost heart we feel convinced that it can never wholly be solved. Let us say, at once, that Professor Dutt has made a good start, and that his theories seem to us, as a whole, to be quite reasonable. The present writer himself has had reason to suggest that the date of Panini falls about 500 B.C. ; and the much-misused Yavanani argument proves nothing to the contrary. . . "

**Journal de Geneve—**

" . . . . En présentant son ouvrage. M. N. K. Dutt entend moins se prononcer que fournir la base chronologique et géographique à l'histoire politique de l' Inde aux époques védique et épique. Par la même occasion il sort de la masse littéraire assez confuse le développement de la conquête aryenne. Il reste entendu qu'il ne le rend que conditionnellement puisque, encore un coup. des travaux archéologiques et littéraires sur les anciens Dravidiens font totalement défaut. Avec lui on suit avec facilité la théorie aryenne. l'invasion. sa date. l' expansion dans la péninsule hindoue. la nature de la colonisation. l'établissement des tribus et la formation des royaumes." (18-4-26)

**Zeitschrift der Deutschen Morgenlandischen Gesellschaft, Leipzig, 1927—**

"Ein fleißiger kompilator, der sogar deutsche Gelehrte wie Feist, Hirt, Ed. Meyer anzuführen weiß, und dem zugut gerechnet werden soll, daß er vor kritikloser Benutzung der Epen als Geschichtsquellen warnt, gegen Pargiter's auf den Puranas aufgeführtes Hypothesengebäude angeht und seinen phantasievollen Landsmann Abinas Chandra Das abtut, der die ältesten Rigveda Hymnen vorsintflutlicher Weise ins—Miocän verlegt (also noch vor J. G. Andersson's neuen Homo primigenius Pekinensis). Anderwärts fehlt es freilich an Kritik und die neueste Mode, Sumerer und Draviden in einen Topf zu werfen, wird fröhlich mitgemacht. . . . "

### **The Statesman, Calcutta (29-5-1927)—**

The author has tried to present within a short compass a chronological and geographical framework of the political history of India during the Vedic and Pauranic periods and along with it an account of the Aryan conquest. The book is in seven chapters, and in the first one the author has intelligently discussed the comparative philology, mythology, ethnology and sociology of the Aryans. Next he has critically examined the different theories regarding the Aryan invasion, and subsequently dealt with the nature of Aryan colonization. Readers will find the chapter on colonization interesting and the author's research regarding the tribes and kingdoms of Rigveda beginning with Bharat and ending with Santanu will appeal to those who want a glimpse of the early history of India. The development of tribes and kingdoms in India in later days has been traced with skill. In the appendix the author has rather timidly contradicted the theory of the old Pundits, which in recent days has been so enthusiastically preached by Dr. Abinas Chandra Das, that the home of the Aryans has always been in India. Scholars of the West have always repudiated this theory, and it is not too much to say that it has been rejected by antiquarians of all descriptions almost unanimously. It is abundantly clear that the young author has studied the subject thoroughly, and the book will prove to be a most valuable addition to the antiquarian literature of India.

### **The Englishman, Calcutta (8-8-1927)—**

The book under review is a complete thesis—on the history of Aryan immigration into India, the different stages in the diffusion of Aryan culture in the different parts of the country and the political history of India from the Rig-Vedic times to the rise of Buddhism. It is an attempt to construct history out of the Pauranik materials and the author has succeeded in presenting a systematic and connected account of the whole period based on a workable chronological arrangement. He has also proved his ability in clipping or demolishing other theories and in making original contributions.

The chief merit of the book is that it is suitable not only to the most advanced scholars who may gain new light upon many hitherto obscure points but to the ordinary students of ancient Indian history. The attempt to harmonise Vedic tradition with Pauranik in the matter of political history, the tracing of the Mahratta race to Iranian origin, the finding of the dates of the Vedic kings like Purukutsa and Trasadasyu, the observations upon the story of the deluge and the untouchable castes, are some of the contributions to Indian history worth reading. The author's thorough grasp of the subject and his refreshing style have made the book, though full of controversial matter, very delightful reading. The chapter on chronology is particularly interesting and reveals the constructive ability of the author. The author while dealing with such an abstruse subject has not sacrificed clarity and charm and there is no gainsaying the fact that it has been a valuable contribution to learning and a work of great scholarship.

FORM.

Confidential Report (Special).

- 
1. Name **MR. KANAILAL MUKHERJI, B.Sc., B.L., B.T.,  
Dip.-in-Edu.(Edin.)**
- 
2. Designation **Head Master, Hindu School, Calcutta.**
- 
3. Pay (scale and actual amount) **Scale- Rs. 150 - 700/- (Revised)  
Present pay- Rs.200/-.**
- 
4. Actual duty on which employed (*i.e.*, the subjects and classes taught or the kinds of schools visited, in the case of an inspecting officer).
- I. Teaching work**  
**English- X, VIII.**  
**Mathematics- VIII.**  
**II. Supervision of class work.**  
**III. Office work.**
- 
5. Academic qualifications (with classes or division, whether Honours or Pass, also the subjects taken) :—
- (i) Matriculation - **First Division with additional Mathematics & Sanskrit as optional subjects.**
- (ii) Intermediate - **(I.Sc.)- Second Division with Physics, Chemistry, Mathematics & Botany.**
- (iii) Graduate - **(B.Sc.)- Pass with Physics, Chemistry & Mathematics.**
- (iv) Post-graduate - **B.L.**
- 
6. Professional qualifications (class or division and subject studied to be stated) :—
- (i) B. T., L. T., or Diploma in Teaching, etc.
- 1. B.T.(Cal.)-class II,  
Subjects studied-Mathematics,  
Geography & Science.  
2. Diploma in Education(Edinburgh).**
- (ii) Departmental Examination in Bengali by the Higher Standard or in Account Rules and Practice (if the officer is liable to pass the examination).
- Has passed the Departmental Exam.  
in Account Rules & Practice.**
-

7. Length and nature of experience in teaching or inspecting work—

(i) In Government service

Teaching- 9 years- 7 months.

Inspecting- 1 year- 9 months.

(ii) In private service

About 2 years.

8. Physical capacity (specific training in Drill, Physical Education, Boy Scouting and Cubbing and Bratachary, Games played and Teams played for, if any, and when, to be mentioned).

1. Football-Bangabashi College(1924), City College(1927), David Hare Training College(First Eleven) 1932.

2. Hockey- David Hare Training College

3. Cricket- School eleven, Training College Team.

4. Volley Ball & Basket Ball- City College & Training College.

9. Capacity for touring work (state whether the officer can ride a horse or a bicycle).

5. Game Secretary of the David Hare Training College- 1932.

Can ride bicycle.

10. General health (amount of sick leave taken during the last 5 years to be stated).

Good ( No sick leave taken during last 5 years).

11. Character—

(a) Social (including tactfulness in dealing with fellow-officers, teachers, pupils and their guardians or with school authorities).

He has pleasant manners.

(b) Moral.

Good as far as I know.

12. In the case of a teacher—

Aptitude for developing corporate life in educational matters (i.e., interest in games and sports, debating societies, managing clubs, etc.).

---

13. In the case of an inspecting officer—

Aptitude for influencing by inspection the work done in a school. Range of work which the officer can inspect with definite results (e.g., drill, nature knowledge, and other subjects of the primary, middle or high school curriculum).

---

14. Power of maintaining discipline (in the case of a teacher).

When I visited the school I found it running smoothly. Also there has not been any break down in the administration since I have been here. Maintaining student discipline ~~was~~ is rather an ambiguous term at present. The present incumbent appears to be as good as me.

---

15. Power of organisation (details to be given including experience in, and capacity for, office work, if known).

Good as far as I can judge

---

✓ 16. Originality in work (give details).

1. Did group Intelligence Tests and achievement Tests in some schools in Great Britain.
2. Is writing books on Science & Mathematics for use in Secondary schools in Bengal.

---

✓ 17. Any special aptitudes (e.g., musical, scientific, literary, etc.).

Scientific and literary.

---

✓ 18. Other qualities (showing *prima facie* fitness).

Tries to do his best to improve the tone of the school, -

An able administrator who knows his business.

---

19. Personal appearance and general impression (viz., smart, brisk, untidy, careless of appearance, etc.).

~~Smart~~ Quite smart and brisk.

20. General remarks on discharge of duties:—

- (i) Whether the officer has been carrying out his duties with energy, ability and success.
- (ii) Whether he is in enjoyment of good health.
- (iii) Whether he has been taking an active part in the social life of the school or college (in the case of a teacher).
- (iv) Whether he has shown, during his previous 3 years that he is maintaining his mental alertness by the publication of any original paper or book, or in any other manner.
- (v) Whether he has been taking his due share in training the character of students and in teaching them self-reliance and discipline (in the case of a teacher).
- (vi) Whether his work is characterised by defects (viz., tactlessness, super-sensitive temperament, want of zeal, ill-health, etc.) which impair in any marked degree his efficiency as a teacher or an inspecting officer.

*Quite satisfactory as far as I can judge.*

21. Whether recommended for confirmation, permanent appointment, promotion or crossing the efficiency bar.

*Recommended for confirmation.*

*Head Master, Hare/Hindu School.*

*J. Chakravarti*

*Principal, Presidency College.*

*Dated the.....194*

From  
The Principal, Presidency College, Calcutta,

To  
The Director of Public Instruction, Bengal.

No. 2176, Calcutta, the 18<sup>th</sup> July, 1946.

Sir,

I have the honour to submit herewith a scheme for the development of the Presidency College, which has become very pressing. It has been waiting for quite a long time and can no longer be left like this.

1. An important portion of our Chemical Laboratory is housed in a tin shed. This was constructed as a temporary measure but has stood as a disgrace for the Premier College of Bengal for the last forty years. The place is very unsuitable for work specially during the summer months and needs replacement at the earliest opportunity. Another portion of the Chemical laboratory is housed in a one storied structure which was condemned about eight or nine years ago as being unsuitable to exist being an old and dilapidated building. Other laboratories have become unsuitable because with the growth of the different subjects we find our activities restricted due to limited accommodations. This consideration is applicable to Geology, Botany, Physiology, Zoology, Geography and Library also. The requirements of the different departments are as follows :-

Chemistry, as the activities of the College are expanding we are getting much larger number of students to study this subject which is a compulsory subject for science students. The importance of this subject is very well known, it is therefore not surprising that largest numbers of students should be reading this subject. We have only Pure Chemistry Section here at present. This should be supplemented by a Technological Section also, which is much more necessary for the Industrial development of the country. The scheme was considered by a Special College Committee in 1937, and accordingly the Calcutta University framed new syllabuses of study for the subject in 1938, but due to breaking out of the war nothing in this direction could be done. As we need a re-organisation of the different departments which involve erection of new buildings also, I feel our programme of arranging for Technological Chemistry that we considered so long ago should be incorporated into this programme. Besides the tin shed laboratory other buildings that house our Chemistry department have not only become insufficient in space and inadequate in equipment but have also become antiquated. There have been so many improvements lately in the subject that it is essential for us to implement modern equipments and bring our laboratories upto date. I should therefore request you to take immediate steps to provide building accommodation with the provision for the different class rooms as detailed in Appendix A. To minimise ground space a four storied building may be erected to include these different sections. The number of rooms shown in Appendix A represent the entire requirement of both Pure and Technological Chemistry for which I have shown only the minimum of our requirements which will include teachings in Electro Decomposition Technique, Manufacture of soap, Fermentation, Plastics, Pharmaceutical industries and different analytical methods used in industries. We may add to these subjects others in future for which additional arrangements will be necessary.

The dimensions of the rooms shown are only approximate but they roughly represent our requirements when planning the buildings exact dimensions will be determined.

It is essential to have some air conditioned and cool rooms in any modern chemical laboratory built in the country for carrying on all types of chemical reactions. The extensive Government Technological laboratories of Cawnpore are completely air conditioned. When we are going to build new sets of laboratories I feel it very necessary to have at least some air conditioned rooms. With this idea air conditioning system has been shown as necessary item in this proposal.

**GEOLOGY:** When arrangements were made for the teaching of Geology in this College the number of students was very small and at that pioneering stage no one expected that in some future date study of Geology will be so popular and such a heavy demand for trained Geologists will be made by the Geological Survey of India as it is done at present. Consequently for Post Graduate and Honours Classes a limited accommodation was provided. There is no other college in the province to teach this subject and even the Calcutta University has to depend entirely on our resources for the training of their Post Graduate students as they have not got a separate Department of their own. For sometime to come this college will be occupying this unique position so far as teaching of Geology is concerned. With the expansion of the Geological Survey of India there has already been made a heavy demand for admission into all our classes for the study of Geology and where we had only 15 to 20 students only a few years ago, we are now having about 200 students to be trained in Geology alone. It will therefore be easily seen that our Geology Department needs an immediate expansion. Such eminent Geologists as Sir Cyril Fox made similar remarks regarding expansion of our activities in view of this college being the only institution of its kind to teach Geology in both undergraduate and post-graduate stages, so that we shall be able to continue to supply trained Geologists to the Geological Survey as it goes on expanding. This heavy demand will be very difficult to meet unless we apply our mind forthwith to the expansion of our Geology Department. The additional floor space necessary for this department has been shown in Appendix B. This can be provided in an extended wing of the Baker Laboratory.

**GEOGRAPHY:** Together with Geology the case of our new Geography Department must be considered. When we obtained affiliation for teaching Geography in our I.A. and I.Sc. classes, we had to tag it on to Geology. The latter department with its insufficient space could ill afford to accommodate Geography classes. With the introduction of Geography classes in B.Sc. even this temporary arrangement became obviously impossible and we had to ask the Geography Department of the University to afford facility of study to our students in their B.A. and B.Sc. classes. The arrangement is only a temporary one and unfortunately not very suitable. It cannot therefore be continued for a long time, and specially when the University is contemplating shifting its Geography Department to a new site at Science College premises at an early date. We must therefore make immediate arrangements for our Honours and Pass B.Sc. classes together with the existing I.A. and I.Sc. classes within the College compound. For the entire department our requirements have been shown in Appendix C. These rooms can be provided in the extended Baker Laboratory building along with the Geology Department.

**BOTANY:** Our Botany Department has been crying for additional accommodation for a long time now. Soon after Sir Jagadis Bose retired, part of the Botany rooms were taken over by Mr. Mahalanobis for his Statistics works. The present Science Library Hall should have gone to this department for their normal work. But this was not done and the present result was that the department had to confine its activities within a very limited space. When the number of students was small the work could be carried on somehow but with difficulty. We are now getting many more students in the Honours and Post Graduate Classes. They cannot be taken in for want of working space. Year after year the University Inspectors of Colleges have pointed out that for such an important department as Botany no adequate accommodation has been provided by the College for the proper training of our students. They had recommended very strongly that immediate arrangements for expansion of the Department should be made. The continued heavy demand for seats have been increasing our difficulties. The matter is a very serious one and claims our immediate attention. Due to the war this has been made to wait long, it is now no longer possible to keep our eyes closed to the very urgent necessity of this department. It is now proposed that Science Library should be shifted and amalgamated with the General Section. The room thus vacated should be available to Botany Department. This alone will not solve its difficulties, the department wants more accommodation. Their requirements have been shown in Appendix D. This space can be provided in first and second floor of the proposed extension of the Baker Laboratory building.

**PHYSIOLOGY AND ZOOLOGY:** The Physiology Department is also very much handicapped for want of more space. Their work in the post graduate department is very much hampered for want of space. With the addition of the Department of Zoology for the under-graduate classes there has been particular difficulties for Physiology to accommodate the work of other sections. I feel that the College should have complete arrangements for the teaching of Zoology upto the post-graduate stage. The only institution that provided Honours training in Zoology at present is University College of Science. They have very limited accommodation and cannot take in all the applicants. Consequently every year we receive a few number of applications for admission into Zoology classes at the Honours stage. I feel as we have concentrated our attention in training up the students up to the Honours stage in all the different scientific subjects, we should include this one subject also into our curriculum in order to make our arrangements fuller and more complete. We must therefore provide additional accommodation to house this new department as also provide much needed room for expansion of Physiology Department.

The necessities of these two departments are shown in Appendix E and F.

**LIBRARY:** Needs for expansion of our Library are also very pressing. The limited space that we could assign to Library is no longer enough for the growing number of books. The management of the Library is becoming more difficult due to the limited number of staff working in it and because it has been divided into two sections Arts and Science. I therefore propose that the Science Library should be shifted to the main building and amalgamated with the Arts Library and two should be located together in the Eastern wing of the main building or better in some rooms built along with the College Hall. By this arrangement only a small addition to the Library staff will enable us to carry on the work fairly satisfactorily, at any rate, much better than what we are

doing at present. The system of keeping our books needs a change and we require additional shelves for our books. That will be dealt with separately together with the question of equipments.

**COLLEGE HALL:** Of the other requirements mention should be made of a College Hall. It has been a standing grievance of the students of the college who number now approximately 1,100 that they have no Assembly Hall where they can meet on ceremonial occasions. The grievance is a real one and has been felt by the generation of students who have gone out from year to year. Promises have been made by the Heads of the Department of Education of this province on more than one occasion to do something in this connection but as yet nothing has been done. The utility of such a hall is more than one. Our Periodical Examinations are held in lecture rooms and consequently arrangements of classes are disturbed and work suffers when only part of the classes sit for the Examination. It is indeed a crying need of the College that an Assembly Hall should be built at an early date. Along with this Hall a few rooms can be built to house the entire Library. This is a better proposal particularly because while planning the building we can take special needs of Library into consideration which is not possible in the existing building. I have not mentioned about Common Room which is also a great necessity because when Library vacates its existing home, those rooms can be used very well for the purposes of common room.

**STATISTICS:** Department of Statistics is our new addition. But I do not want to press for any accommodation for this department particularly because the rooms that are now being occupied by the Statistical Institute are expected to be vacated soon. The department should be removed from Presidency College without any further delay. Its presence here has caused the suffering of the Botany Department so long. The Department of Physics also is feeling the difficulty in the way of its normal work as well as its expansion. When the Statistical Institute is removed from here the rooms will be available for normal college work and I propose to part of the accommodation should be given over to Physics and some five rooms should be handed over to Statistics. If there is any difficulty in this matter, the Department of Statistics will be housed in the main building in the rooms vacated by the Chemistry Department.

**PRINCIPAL'S QUARTERS:** For such a big college it is essential that Free Quarters be provided for the Principal. Government has accepted in principle the necessity of such an accommodation. Only arrangements could not be made so long for such accommodation. Together with the different requirements of the College, in this Post War scheme of building additional accommodation for the College, this proposal should receive adequate consideration. I therefore desire to impress about the necessity of this Quarter and propose that a building provided for accommodation on the line of accommodation provided for the Principals of other colleges should be built up now.

Small buildings to provide quarters to some other members of the staff are also necessary with a view to make their services available for our students residing in the Hostels as Tutors on the same line as provided in residential colleges.

Building accommodation for menials and some ministerial officers must also be taken into consideration. These requirements are shown in the Appendix G.

**MUSLIM HOSTEL:** I have already represented to you, the necessity of a Muslim Hostel for this college has been a pressing one for the last forty years. It is really a disgrace that this Premier College of Bengal has not yet been able to find accommodation for living for a large section of its students. I feel that this necessity is as keen as the expansion of the College in many other departments, if not of greater importance.

I have proposed in connection with the building of a Muslim Hostel for the College that acquisition of land to the north of the college and to the south of the Bhowani Charan Dutt Lane be effected forthwith. Within this plot of land there are several buildings, some of which may be useful to us for some of our necessities. I feel that at least one or two of the buildings will be directly useful for Muslim Hostel purposes. Some may be of use as quarters for the menials and Ministerial officers of the College. Perhaps one or two buildings can be used for quarters for members of the staff. But we must erect new buildings to house the Chemistry laboratories and laboratories for other subjects also. A new building will also be necessary for our College Hall.

For the Chemistry Department we shall require a total of 84,932 sq. ft. This may be conveniently spread over a four storied building on a plinth area of 21,233 sq.ft and an additional structure for the Technological department on a plinth area of 8,160 sq.ft. I also propose that the Baker Laboratory building be extended to the West upto the Western boundary wall of the College. A three storied building corresponding with the present building will be adequate to provide 44,112 sq.ft. of accommodation, for the departments of Geology, Geography, Botany, Physiology and Zoology. This may be spread over three stories on a plinth area of 14,704 sq.ft. The College Hall can be erected on the newly acquired site as well as the Principal's quarters. In all for these laboratories two separate structures I feel about Rs 16,00,000/- will be necessary. In view of the immediate and urgent necessity for the expansion of the departments as well as of the ultimate good that the college is bound to offer to the country at large, I should consider this expenditure a comparatively small one. In the Post War Schemes, this educational necessity should receive the first and foremost consideration particularly because such an Institution will produce the desired result in the Technological, Intellectual, Medical, Agricultural and all other developments of the country.

Together with the allotment for buildings, which we start without any delay on our present site and only a part of the project can be made to wait till the acquisition of the new land is complete, we shall require an additional amount of money to fit up the laboratories and to purchase newer equipments. Our existing equipments will all be utilised and for the technological Chemistry Section only we shall require some additional equipments. There will of course be the necessity of some very recent instruments without which the laboratories can never be complete. But for these additional new equipments our requirements may not be very much. I expect a sum of about Rs 3,00,000/- will be able to see us through the difficulty. This amount might have been less but the trend of the market does not show any tendency to return to the pre-war level, I am therefore of opinion that the amount of three lacs may suffice for our purpose.

The total funds necessary for the entire scheme will therefore come to about nine lacs of rupees. Of this amount only a part need be allotted this year. The construction of the building will perhaps extend over two years and therefore the annual allotment of Rs. 3,00,000/- for three years may be found adequate for the purpose.

The estimates are of course very tentative now. When the scheme goes before the Communications and Works Department a more accurate estimate will be prepared. But estimates of the cost of equipments, I expect, will not change very much.

In view of the urgent necessity both for providing laboratories for Chemistry in place of the Tin Shed and accommodation for the expansion of Geology, Botany and other subjects I feel it very essential to request you to place this entire scheme before the Government and ask for a sanction of Rs. 3,00,000 per year for three years from now to enable us to start at the building work immediately. The acquisition of land to the north of the college compound will enable us to get several buildings which will be directly useful for Muslim Hostel, Menials' quarters, and several other buildings that may be suitable for quarters for the members of the staff of the College. Pending the completion of the acquisition I should like to consult the Government Architect and Engineer of the Communications and Works Department regarding plans and estimates of the necessary buildings. I am therefore to request you to kindly let me know at a very early date how soon I can start this work.

I have the honour to be,  
Sir,  
Your most obedient servant,

*M. K. Khanna*

Principal, Presidency College.

### Appendix.

Requirements of the Chemistry Section are tabulated into four different sections to show the approximate distribution of the laboratories. The sections I, II, III and IV represent the four stories of the building and V is a separate annex for the boiler and work shops.

#### I. Ground floor, contemplated to be starting three or four feet below the ground level.

1. Stores, five rooms 37' x (27' + 28' + 48' + 23' + 52')	or	6,771 sqft
2. Air conditioning system 66' x 100	or	6,600 do
3. Balance Room Base		600 do
4. Metallurgical Laboratory 39' x 28'	or	1,122 do
5. Furnace Room 39' x 28'	or	1,122 do
6. Unit Process Laboratory 48' x 39'	or	1,872 do
7. Small Technological Laboratory 22' x 39'	or	858 do
8. Pilot Plant Laboratory 54' x 39'	or	2,106 do
9. Lavatories 2' x 8' x 12'	or	192 do
		<u>21,233 do</u>

#### II. First floor to contain the following laboratories

1. Stores, two rooms 37' x (27' + 28')	or	29035 sq ft
2. P.G.Laboratory 5th Yr. 48' x 37'	or	1,776 do.
3. P.G.Laboratory 6th Yr. 52' x 37'	or	1,926 do.
4. Preparation Room 21' x 37'	or	757 do.
5. Cold Stores 30' x 28'	or	840 do.
6. Prof. Private Lab. 33' x 28'	or	924 do.
7. Research Laboratory 37' x 28'	or	1,036 do.
8. Office Records and Microanalytical room 38' x 51'	or	1,938 do.
9. Physico Chemical Research Lab. 38' x 49'	or	1,862 do.
10. Tech. Sp. Laboratory (1) 39' x 28'	or	1,122 do.
11. do. do. (2) 39' x 28'	or	1,122 do.
12. Laboratory Supply Room 22' x 39'	or	858 do.
13. Technological Advanced Lab. 48' x 39'	or	1,872 do.
14. do. do. do. 54' x 39'	or	2,106 do.
15. Lavatory 2' x 8' x 12'	or	192 do.
16. Balance Room		600 do.
		<u>21,233 do.</u>

#### III. Second floor to contain the following :-

1. Teachers' Meeting Room 37' x 27'	or	999 sq.ft
2. Lecture Room 28' x 37'	or	1,036 sq.ft
3. Hons.Laboratory 3rd Yr. 48' x 37'	or	1,776 do.
4. do. 4th Yr. 52' x 37'	or	1,926 do.
5. Preparation Room 21' x 37'	or	757 do.
6. Lecture Room 30' x 28'	or	840 do.
7. Prep. Room 33' x 28'	or	924 do.
8. Lecture Room 37' x 28'	or	1,036 do.
9. Lecture Theatre (1) 38' x 51'	or	1,938 do.
10. Lecture Theatre (2) 38' x 49'	or	1,862 do.
11. Seminar 39' x 28'	or	1,122 do.
12. Reading Room 39' x 28'	or	1,122 do.
13. Pass Lab. 3rd Year 48' x 39'	or	1,872 do.
14. Prep. Room 22' x 39'	or	858 do.
15. Pass Lab. 4th Year 54' x 39'	or	2,106 do.
16. Balance Rooms		600 do.
17. Lavatories 2' x 8' x 12'	or	192 do.
		<u>21,233 sq.ft</u>

IV. Third floor to contain the following :-

1. Spectroscopic and ultra microscopic room	37' x 27'	or	999 sq.ft.
2. Polarimeter Room	28' x 37'	or	1,036 do.
3. PhysicoChemical Measurements special	48' x 37'	or	1,776 do.
4. Private Advanced Laboratory	21' x 37'	or	757 do.
5. Physico Chemical Lab. Genl.	52' x 37'	or	1,926 do.
6. Electrical Research Room	39' x 28'	or	840 do.
7. Dark Room	33' x 28'	or	924 do.
8. Optical Experimental Room	37' x 28'	or	1,038 do.
9. Hons. Physico Chem. Lab.	51' x 38'	or	1,938 do.
10. Electrical Research Lab.	38' x 49'	or	1,862 do.
11. Electroplating Room	39' x 28'	or	1,122 do.
12. Electrometallurgy Room	39' x 28'	or	1,122 do.
13. Intermediate Lab. I	48' x 39'	or	1,872 do.
14. Prep. Room	22' x 39'	or	858 do.
15. Intermediate Lab. II	54' x 39'	or	2,106 do.
16. Balance Rooms			600 do.
17. Lavatories	2' x 8' x 12'	or	192 do.
			<u>21,233 sq.ft.</u>

V. Separate Block to contain -

1. Boiler Room	48' x 20'	or	960 do.
2. Lathe Work shop	48' x 30'	or	1,440 do.
3. Machinery workshop	48' x 30'	or	1,440 do.
4. Fermentation workshop	48' x 30'	or	1,440 do.
5. Soap Tech. workshop	48' x 30'	or	1,440 do.
6. Plastics Tech. Workshop	48' x 30'	or	1,440 do.
		Total	<u>8,160 do.</u>

B. Requirements for Geology are as follows :-

1. Lecture Rooms 20	30' x 20'	or	600 sq.ft.
2. Lecture Theatre	30' x 40'	or	1,200 do.
3. Balance Room for Jolly, La Touche	20' x 20'	or	400 do.
4. Balance Room for P.G. class	20' x 10'	or	200 do.
5. Room for Map work	20' x 10'	or	200 do.
6. Section cutting & Grinding Room	20' x 15'	or	300 do.
7. Dark Room	20' x 10'	or	200 do.
8. Optical work Room for P.G. classes	40' x 30'	or	1,200 do.
9. Chemical Lab. for ore analysis	40' x 30'	or	1,200 do.
10. Furnace Room for P.G.	20' x 15'	or	300 do.
11. Seminar Room	20' x 15'	or	300 do.
12. Research Lab. for staff	25' x 40'	or	1,000 do.
13. Store Room	20' x 20'	or	400 do.
14. Smaller Analytical Room U.G.	30' x 20'	or	600 do.
15. Professors' Sitting Room	30' x 60'	or	1,800 do.
16. I.Sc. Laboratory	60' x 30'	or	1,800 do.
17. Ore Dressing Room	30' x 30'	or	900 do.
18. Dark Room No. 2 P.G.	20' x 10'	or	200 do.
19. Special Laboratories for Coal, oil, current etc.	40' x 30'	or	1,200 do.
20. Lavatory	2' x 12' x 8	or	192 do.
			<u>14,192 do.</u>

C. Requirements of Geography Department -

1. I.Sc. Laboratory	40' x 30'	or	1,200 sq.ft.
2. B.Sc. Pass do.	30' x 25'	or	750 do.
3. B.Sc. Hons. do.	40' x 30'	or	1,200 do.
4. Lecture Room	20' x 30'	or	600 do.
5. Lecture Theatre	40' x 30'	or	1,200 do.
6. Staff meeting room	25' x 20'	or	500 do.
7. Dark Room	15' x 20'	or	300 do.
8. M.Sc. Practical Class	30' x 40'	or	1,200 do.
9. Museum	30' x 60'	or	1,800 do.
10. Professors' Meeting Rooms	2' x 25' x 20'		1,000 do.
			<u>9,750 do.</u>

D. Requirements of Botany Department as shown here are in addition to the Science Library Hall.

1. Plant Physiology Room I	30' x 25'	or	750 sq.ft.
2. do. II	30' x 25'	or	750 do.
3. Plant Chemistry Room	30' x 25'	or	750 do.
4. Practical Room	40' x 30'	or	1,200 do.
5. Mycology & Bacteriology Room	40' x 30'	or	1,200 do.
6. Seminar	20' x 15'	or	300 do.
7. Specimen Room	20' x 25'	or	500 do.
8. Museum	30' x 40'	or	1,200 do.
9. Lecture Room	25' x 16'	or	400 do.
10. Research Rooms	3' x 20' x 15'	or	900 do.
11. Research Room for staff	3' x 20' x 15'	or	900 do.
12. Plant Culture Room (glass)	15' x 10'	or	150 do.
			<u>9,000 sq.ft.</u>

E. Requirements of Physiology Department -

1. Chemical Laboratory	30' x 20'	or	600 sq.ft.
2. Cold Room	16' x 20'	or	320 do.
3. Experimental Room	30' x 25'	or	750 do.
4. Nutrition Research room	30' x 25'	or	750 do.
5. Balance Room	20' x 15'	or	300 do.
6. Preparation Room	20' x 15'	or	300 do.
7. Lecture Theatre	40' x 25'	or	1,000 do.
8. Workshop	20' x 15'	or	300 do.
9. Animal Shed	30' x 20'	or	600 do.
			<u>4,920 do.</u>

F. Requirements of Zoology Department are as follows :-

1. Lecture Theatre	40' x 25'	or	1,000 sq.ft.
2. Laboratory Room for Hons.	30' x 25'	or	750 do.
3. do. for I.Sc.	30' x 25'	or	750 do.
4. do. for Pass B.Sc.	30' x 25'	or	750 do.
5. Preparation Room	2' x 20' x 15'	or	600 do.
6. Museum	50' x 30'	or	1,500 do.
7. Store Room	20' x 15'	or	300 do.
8. Animal Shed	30' x 20'	or	600 do.
			<u>6,250 sq.ft.</u>

G. For College Hall we require an area of approximately 100' x 80ft. or 8,000 sq.ft. The Hall will have accommodation for about 800 to 1,000 students. This will be useful for Examinations of the College also. In addition to the hall, I expect we can have several rooms of fairly large size to house our Library, which require four rooms of the size 60' x 40', two of them on the ground floor and two on the first floor with internal staircase connecting them.

31st July,

46.

*D.O. No. 163-Con*

Dear Khan Bahadur Sahab,

I beg to refer to your D.O. No. 1126, on the subject of confidential report on Mr. Kanailal Mukherji, Head Master, Hindu School. Mr. Mukherji impressed me as a capable young man and I found nothing against him during this short period of my present office. I consulted earlier reports on his work, copies of which must be with you also. He has always been well spoken off by his superior officers. I do not understand how there can be any difference in opinion regarding his work and capacity within such a short time after his confirmation. I feel there is not much justification for the remarks that Mr. Mahalanobis made in the last annual confidential report against Mr. Mukherji which he appears to have done at the spur of the moment and this probably was not his considered opinion.

Yours sincerely,

*Md. M. Asad*

Khan Bahadur A. M. Md. Asad,  
Director of Public Instruction, Bengal.

Dear Khan Bahadur Sahab,

I beg to refer to your S.O. NO 1126,  
on the subject of confidential report on Mr  
Kanai Lal Mukherji, Head Master Hindu  
School. Mr. Mukherji impressed me as  
a capable young man and I found  
nothing against him during this  
short period of my present office.  
I consulted earlier reports on his  
work, copies of which must be with you  
also. He has always been well spoken  
of by his superior officers. I don't  
understand how ~~and~~ he can change  
~~suddenly for a~~ there can be any  
difference in opinion regarding  
his work and capacity within such a  
short time after his confirmation.

I should ~~however~~ feel there is not  
much <sup>of</sup> justification for the remarks  
that Mr. Mahalanabis made in the  
last annual confidential report ~~to~~  
against Mr. Mukherji which he appears  
to have done at the spur of the moment  
this ~~for~~ <sup>probably was not</sup> ~~can not~~ be his considered  
opinion.

Yours sincerely  
Mukherji

CONFIDENTIAL.

D.O.No. 1126.

EDUCATION DIRECTORATE

BENGAL

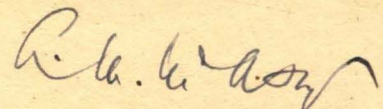

Calcutta, the 17th July 1946.

Dear Dr. Qudrat-i-Khuda,

Would you kindly refer to Mr. Mahalanobis's confidential report in the special form on Mr. Kanai Lal Mukherjee, Headmaster, Hindu School, Calcutta recommending his confirmation and also to his subsequent annual confidential report for the last year ? The two reports are obviously discrepant.

I would, in the circumstances, request you to be so good as to let me know your own observations at an very early date.

Yours sincerely,

Dr. M. Qudrat-i-Khuda,  
Principal,  
Presidency College.

EDUCATION DIRECTORATE

HEWELL

Calcutta, the 17th July 1946.

Dear Dr. Subrat-Khanda,

Could you kindly refer to Mr. Subrat-Khanda's

confidential report in the special term order, dated

Inspector of Schools Presidency Division

1944-45, —

1945-46,

subsequent annual report for the last

year? The two reports are obviously inconsistent.

I would in the circumstances request you to

be so good as to let me know your own observations

at every early date.

Yours sincerely,

Dr. M. Subrat-Khanda,  
Principal,  
Presidency College.

From - The Principal, Presidency College, Calcutta,  
To - The Director of Public Instruction, Bengal.

No. 2818 Con., dated the 11th November, 1946.

Sir,

In enclosing herewith a special confidential report on Babu Sushil Kumar Sarkar, M.Sc., Laboratory Assistant, Physic Department, I have the honour to state that as Sushil Babu is doing work in this college, he may be confirmed in his post.

I have the honour to be,  
Sir,  
Your most obedient servant,

*M. K. Khanda*

Principal, Presidency College.

FORM.

Confidential Report (Special).

- 
1. Name *Babu Sushil Kumar Sarkar, M.Sc.*
- 
2. Designation *Laboratory Assistant,  
Physics Department,  
Presidency College.*
- 
3. Pay (scale and actual amount)  
*Rs 75-8/2-115-5/2-125 E.B. - 5/2-135-10/2-175.*
- 
4. Actual duty on which employed (i.e., the subjects and classes taught or the kinds of schools visited, in the case of an inspecting officer).  
*Teaching in J.Sc. Practical and Tutorial classes.  
Ministerial and general duties of the Physics Department.*
- 
5. Academic qualifications (with classes or division, whether Honours or Pass, also the subjects taken) :—
- (i) Matriculation — *Passed in the First Division in 1932.*
- (ii) Intermediate *Science - First Division in 1934.*
- (iii) Graduate — *B.Sc. - Pass Course - 1936.*
- (iv) Post-graduate — *M.Sc. in Pure Physics - Second Class - 1938.*
- 
6. Professional qualifications (class or division and subject studied to be stated) :—
- (i) B. T., L. T., or Diploma in Teaching, etc.
- (ii) Departmental Examination in Bengali by the Higher Standard or in Account Rules and Practice (if the officer is liable to pass the examination).
-

7. Length and nature of experience in teaching or inspecting work—

To

The Director of Public Instruction, Bengal.

No. 164 -Con., Calcutta, the 31st July, 1946

Dear Sir,

In forwarding herewith a special confidential report on the work of Mr. N. G. Chakravarti, Professor of Chemistry, Presidency College, in the B.E.S., I beg to draw your attention to the fact that this was due to be sent long ago. Although Mr. Chanda, the then Principal of this College was requested to send this report as long ago as July, 1945, because the officer was to cross his efficiency bar on the 5th February, 1946, this some-how got mislaid. I have therefore to approach you to kindly take immediate action in the matter and see that orders allowing Mr. Chakravarti to cross efficiency bar, be passed at a very early date with retrospective effect.

Yours sincerely,

*M. K. Mukherjee*

To

The Director of Public Instruction, Bengal.

Dear Sir,

In forwarding herewith a special Confidential report on the work of Mr. N. G. Chakravarti, Professor of Chemistry Presidency College & in the B. E. S. I beg to draw your attention to the fact that this was due to be sent long ago. Although Mr. Chandra the then Principal of this College was requested to send this report as long ago as July 1945, because the officer was to cross his efficiency bar on the 5<sup>th</sup> Feb 1946, this somehow got mislaid. I find on enquiry now that this I have therefore to approach you to kindly take immediate action in the matter and see that orders for allowing Mr Chakravarti to cross efficiency bar, be passed at a very early date with retrospective effect.

Yours sincerely  
M. K. Khanna

212-Con. Mr. 12.11.46

Dear Khan Bahadur Sahab,

I am enclosing herewith special Confidential report of Prof. Ahmad Ali. He joined the service on the 22<sup>nd</sup> January 1944, his Confirmation is therefore due on the 22<sup>nd</sup> January 1946. I expect you will kindly take early action in effecting his Confirmation on the due date.

I should tell you in this connection that his passing ~~Ben~~ Departmental Examination in Bengali should not be made a condition precedent to ~~the~~ his Confirmation. It ~~is~~ <sup>not</sup>

was told <sup>old</sup> ~~that~~ <sup>should</sup> ~~be~~ <sup>to</sup> pass this  
examination. He will take it at  
a very early date. I therefore  
feel that at this time that  
question should not be raised.

Yours sincerely  
Edmund H.

To  
The Khan Bahadur,  
W. M. M. Asad, M.A.  
Director of Public Instruction  
Bengal,

FORM.

Confidential Report (Special).

(ii) In private service

Lecturer at Allahabad University for 2 yrs, Prof of English at Agra University for a few years. from 1942-45 B.B.C. Representative in India.

8. Physical capacity (specific training in Drill, Physical Education, Boy Scouting and Cubbing and Bratachary, Games played and Teams played for, if any, and when, to be mentioned).

A Boy Scout at School. Played Cricket & Tennis at the University. Has maintained a very good physique.

9. Capacity for touring work (state whether the officer can ride a horse or a bicycle).

Toured as the Director of Dist. Research, Publicity & Liaison Office, W.K. of B.B.C. in 1942-45. Can ride a horse and a bicycle.

10. General health (amount of sick leave taken during the last 5 years to be stated).

Possesses excellent health. No sick leave taken.

11. Character—

(a) Social (including tactfulness in dealing with fellow-officers, teachers, pupils and their guardians or with school authorities).

He had very cordial relations with the high officials of the Govt. of India, Indian States, A/R, Representatives of Foreign Governments, Bors, Press & Businessmen. He is a very tactful and capable officer.

(b) Moral.

Possesses a strong sense of duty and an excellent moral character.

12. In the case of a teacher—

Aptitude for developing corporate life in educational matters (i.e., interest in games and sports, debating societies, managing clubs, etc.).

He possesses a natural aptitude for developing corporate life in educational & social matters. ~~He~~ While at Lucknow he used to organise debates, tournaments & other literary & social activities.

## 13. In the case of an inspecting officer—

Aptitude for influencing by inspection the work done in a school. Range of work which the officer can inspect with definite results (e.g., drill, nature knowledge, and other subjects of the primary, middle or high school curriculum).

## 14. Power of maintaining discipline (in the case of a teacher).

A strict disciplinarian. Since he joined his work in this college he has been well spoken of by most of his colleagues and the previous Principals.

## 15. Power of organisation (details to be given including experience in, and capacity for, office work, if known).

His organising capacity is very remarkable as is evident in his work with the B.B.C.'s India Office. His work has been termed great and promising by B.B.C.'s London Office. Given a chance here also he will show his qualities well.

## 16. Originality in work (give details).

A well known novelist, critic, short story writer and dramatist and a poet. He has published many critical essays in different journals showing his outstanding capacity and originality.

## 17. Any special aptitudes (e.g., musical, scientific, literary, etc.).

His novel 'Twilight in Delhi' published by Hogarth Press London in 1940, received very high appreciation indeed. His Urdu writings are also of a high order. He is rightly considered foremost writer in Urdu.

18. Other qualities (showing *prima facie* fitness).

A teacher of exceptional ability. His literary capacity has considerably enhanced his value as a teacher.

## 19. Personal appearance and general impression (viz., smart, brisk, untidy, careless of appearance, etc.).

A very smart young man of amiable disposition.

20. General remarks on discharge of duties:—

- (i) Whether the officer has been carrying out his duties with energy, ability and success.
- (ii) Whether he is in enjoyment of good health.
- (iii) Whether he has been taking an active part in the social life of the school or college (in the case of a teacher).
- (iv) Whether he has shown, during his previous 3 years that he is maintaining his mental alertness by the publication of any original paper or book, or in any other manner.
- (v) Whether he has been taking his due share in training the character of students and in teaching them self-reliance and discipline (in the case of a teacher).
- (vi) Whether his work is characterised by defects (viz., tactlessness, super-sensitive temperament, want of zeal, ill-health, etc.) which impair in any marked degree his efficiency as a teacher or an inspecting officer.

Mr Ahmad Ali has always been pursuing his work with energy and ability. He enjoys a good health and has always taken keen interest in the improvement of the social life of the students. His mental alertness is very clearly seen in his recent publications. He has always taken good interest in his work ~~of his students~~ and I have found him a very perfect officer.

21. Whether recommended for confirmation, permanent appointment, promotion or crossing the efficiency bar.

I strongly recommend that he be confirmed in the present appointment at an early date.

Head Master, Hare/Hindu School.

Principal, Presidency College.

Dated the 16. 11. 1946.

Midnapore.  
The 23<sup>rd</sup> June, 1930.

Dear Sir,

May I have the privilege of addressing you on a personal matter.

Prof. Lacharay, I understand, is going to be appointed Principal of the Hughly College. If there is any chance for a person belonging to the Bengal Educational Service to be considered in connection with the resultant vacancy, may I be permitted to place my case before you.

I worked as Professor of History, Dacca College, for seven years and a half and was on deputation to the University of Dacca for nearly eight years. During this whole period I lectured on European History, Modern History, History of the Middle Ages and International Law. My period of deputation to the University of Dacca being over, I had to revert to British Service and, no teaching post being available for me, I was appointed a District Inspector of Schools a year and a half ago. Regarding my capacity as a teacher reference, if necessary, may kindly be made to Mr. Romesh Chandra, Mr. Langley and to confidential reports about me.

I claim the honour of having been your pupil at the Dacca College.

With kindest regards,

J. D. Barrow Esq.,  
Principal Presidency,  
College.

I remain,  
Yours obediently,  
Suresh Chandra Mukherji  
Dist. Inspector of Schools.

Prof. Louanilla reports that Mr. Parker Noyes  
is not doing his duty satisfactorily. He states that  
he is frequently late, & sometimes enters lecture in  
class or dismisses the class early; and that  
he has failed to finish the course which was fixed  
for him. Mar 5/3

The lecturer denies the above statements, & says he  
has finished the course fixed. He apologized they  
might be repeated to. Mar 5/3

Prof. Louanilla reiterates his charges. He will  
keep an eye on the lecturer, & if he sees further  
reason to believe that he is shirking his duties,  
will inform me & give me an opportunity of  
perceiving the fact myself. Mar 6/3

To

The Principal,

Presidency College, C a l c u t t a.

Sir,

I beg to offer myself as a candidate for the post of a Professor of History in your College.

I am at present employed as a Research Scholar under the Government of Bengal, carrying on investigations in the department of Ancient Indian History with special reference to Law and Justice in Ancient India. I was awarded the Scholarship (Rs.100/- per month) with effect from the 1st July 1928 and have been granted a further term of another year's renewal from the 1st July 1929 (Calcutta Gazette July 4, 1929) on approval of my first annual report by the Director of Public Instruction. I have recently submitted my second annual report to the Government of Bengal.

As for my academic qualifications, I beg to state that I passed the Matriculation Examination of the Calcutta University (1920) from the South Suburban School, Bhowanipore, standing Eighth in order of merit and securing a first-grade Government Scholarship of Rs.20/- per month; stood Nineteenth in the I. A. Examination (1922) from the Presidency College, securing 182 marks out of 200 in History and headed the list of successful candidates in both B. A. Honours (1924) and M. A. History (1927) in the First class.

As for my corporate activities in the School and the College, I may say that I was the Secretary, Debating Club, South Suburban School; Representative, Presidency College Bengali Literary Society; Member, Sir Ashutosh Memorial Committee, Presidency College; Secretary, Historical Seminar, Presidency College;

Calcutta,  
The 27<sup>th</sup> June, 1930.

My dear Barrow,

Your enquiries about the particulars of Dr. N. K. Dutt, and Mr. T. N. Talukdar.

2. Dr. Dutt has no European Degree. He applied in 1928, and again in 1929, for study leave in England to obtain the Ph.D. Degree of London, but the question was dropped ultimately.

Mr. Talukdar studied in England for five years. He got a 3rd class in Part I of the Historical Tripos at Cambridge, and a 2nd class in Part II. His experience is detailed below:-

- (i) Professor of History, Patna College, for about 2 years (1925-27).
- (ii) Assistant Professor of History, Lucknow University, October 1927-28.
- (iii) Temporary Professor of History, Hooghly College, in the Bengal Educational Service, since 30th June 1928.

In addition to the above he worked for some time in Dacca University as a Professor, and also in Rajshahi College in a temporary vacancy.

I send herewith a copy of the Panel list, and I would direct your attention to Nos. 1, 4, 8 and 11 of the History Group.

Yours sincerely,

To

J. R. Barrow, Esq., M.A.,  
Offg. Principal, Presidency College.

27.6.

College; and finally, Founder and First Secretary, Presidency College Historical Society, in which important papers were read and eminent historians were invited to deliver lectures, and which is still a flourishing institution in the College.

As for my teaching qualifications, I beg to say that as a Government Research Scholar I am forbidden by rules to undertake any job, either honorary or salaried, during the tenure of my Scholarship, unless I definitely abandon it. But I may be permitted to point out in this connection that I was offered unsolicited a temporary post in the Sanskrit College, Calcutta, by the Principal, Dr. Adityanath Mukherjee, and also another in the Diocesan College, Calcutta, by the Sister-in-charge through Mr. H. K. Banerjee, M.A., B.Litt. (Oxon) of the Presidency College, Calcutta.

I append herewith a detailed list of my qualifications and other informations including copies of testimonials ~~for~~<sup>from</sup> my Principal and teachers.

I may add, finally, that if I am appointed, I shall not spare myself to prove equal to the task and appear pleasing to all concerned.

17, Justice Dwarkanath Road,  
Elgin Rd. P.O.,  
Calcutta, the 28th June 1930.

I have the honour to be,

Sir,

Your most obedient servant,

*Susil Chandra Chatterjee*

PRESIDENCY COLLEGE,

Calcutta,

The 15th March, 1928.

Susil Chandra Chatterjee was a pupil of mine in the History Classes of this College for several years. He entered the I. A. Classes as a First Grade Government Scholar and stood second in History at the I. A. Examination, securing over 90 p.c. marks in the subject. He was first in the First Class at the B.A. Honours Examination in History, and repeated his success in the M.A. by securing the First Class 1st place in History.

His uniformly brilliant University results speak of his academic qualifications, but what has impressed me more is his personality. I have scarcely come across a student possessed of such moral excellence as I have found in him. A man not merely of high ideals, but one who can always carry them into action, he will be an ornament to any superior branch of Government service to which he may belong.

GOVERNMENT OF BENGAL.

Presidency College.

Calcutta.

Mr S.C.Chatterjee was a member of this College for 6 years, and had a career of great distinction, standing at the head of the First Class in both his B.A.Honours and M.A. Examinations. Since 1928 he has been holding a Government Research Scholarship, and has been collecting materials for a review of Law and Justice in Ancient India.

The testimonial given to him by Mr Zachariah is evidence of his knowledge and ability. Mr Chatterjee has always impressed me as a man of sound and strong character. He has much common sense and knows his own mind. I believe he would make a very good teacher.

Sept. 15. 1927.

Mr. Sushil Chandra Chatterjee was my pupil for several years, both in the B.A. Honours and in the M.A. Classes; and I am glad to have this opportunity of testifying to his character and capacity. He was first in the first class in History in B.A. Honours and M.A. and this verdict of his examiners is --- amply confirmed by my own knowledge of his work. He has a --- thorough grasp of most periods of History, sound critical judgment and a power of clear and easy expression. I have had --- many opportunities of coming into contact with him and have been very favourably impressed by his manners and by his high principles and ideals. I have had very few students I liked more.

He took a prominent part in College activities and was Secretary of the Historical Seminar & Society. I am sure he will prove an able and stimulating and conscientious ---- teacher of history.

G.N.Banerjee, M.A., Ph.D.

Calcutta.

The 14th September, 1927.

I hereby certify that Mr. Sushil Chandra Chatterjee, M.A., was a student of the University Post-Graduate Classes in History during the sessions 1924-26. As such Mr. Chatterjee attended my Lectures on the History of the Ancient East regularly and I always found him taking keen interest in the subjects of my lectures. He is a brilliant young man with excellent academic qualifications. I examined his paper on the History of Babylonia and Assyria and his Essay paper at the last M.A. Examination and I was impressed with his wide range of study and sobriety of judgment. Mr. Chatterjee comes of a very respectable family and so far as I am aware bears a good moral character. I can strongly recommend him for the post of a Lecturer in History in any First Grade College.

Sd/- G. N. Banerjee

Secretary & Lecturer in History.

The 15th March, 1928.

Mr. Susil Chandra Chatterjee, M.A., was a pupil of mine in the I.A., B.A. and M.A. Classes of the Presidency College during the sessions 1920-26. He has had a very distinguished academic career, as he stood First Class First in the B.A. and the M.A. Examinations of the University. I had ample opportunities of coming into close contact with him, and from all that I saw of him I was very favourably impressed with <sup>his</sup> high character and intellectual attainments. He fully deserves all the patronage that the Education Department of Government can provide for him. He has not long been a mere student living in cloistered seclusion but has taken an active and honourable part in the social activities of the College in his time. He has my best wishes for his success in his future career.

I have much pleasure in testifying to the character and attainments of Srijukta Susil Chandra Chatterjee who attended my lectures in the Post Graduate classes of the Calcutta University. His conduct in the class was excellent and I have a very pleasant recollection of his industry, ability and intelligence. His First Class (top of the list) was thoroughly deserved and from what I have seen of him I believe he will devote himself faithfully to the performance of whatever work come to him. I shall be glad to hear of his success in life.

The 17th September, 1927.

Susil Chandra Chatterjee, M.A., was a pupil of mine in the Post-Graduate Classes in the Department of History in the University of Calcutta for a period of two years. I came into close and intimate contact with him during this period both as a Lecturer and as a Tutor and I was greatly impressed by his wide range of studies, his critical faculties and his unusual freshness of outlook. I examined his papers both for the B.A. Honours and the M.A. Examinations of this University and am consequently in a position to state freely that excepting perhaps one other ~~of~~ pupil of mine when he fully equals, he is the best student whom it was my duty and privilege to train up. Mr. Chatterjee secured 538 out of 800 marks in the M.A. Examination in History, very high marks, I should say, for this University. His manners and address are those of a gentleman; he is an energetic young man; his character is strong, he has initiative and organising faculties; he is a good debater, a deep writer, an erudite scholar and I am sure although young and inexperienced, Mr. Chatterjee would prove a very efficient teacher and leader of students who would be benefitted not only by his methods of instruction and action but by his example.

I have the greatest pleasure in stating how highly I think of Srijut Susil Chandra Chatterjee who has topped the list of successful students in the M.A. Examination in History. Certainly the best student, I found in the M.A. classes in recent years, he is a young man of great industry and remarkable talents. His examination results speak of his attainments and as regards character and conduct, it was to our experience above reproach. His natural inclinations make him eager to join the teaching line and if appointed a lecturer or professor in a first grade college or University, he will prove a valuable acquisition. I am confident he will rise high in life and hope to hear of his continued success.

I have great pleasure in testifying to the intellectual attainments and high moral character of Babu Sushil Chandra Chatterjee. He had been a pupil of mine in the History Classes of this College for four years, during the sessions 1920-24; and during that time I had ample opportunity of finding out the excellent qualities of Mr. Chatterjee as a student. I consider him to be one of the very best of the students that have passed through my hands in recent years. The earnestness of purpose, the thoroughness and the extensive character of his studies and the capability of taking infinite pains which characterised his work as a student eminently fit him for the career of a researcher and I am distinctly of opinion that he fully deserves every encouragement at the hands of the Government in this respect.

Principal,

The crossing of the efficiency bar in the case of Prof. Umesh Ch. Bhattacharya will take effect from 18.11.32.

Dr. Shastri reports "Prof. Bhattacharya has been on the staff for just a few months and it may be too premature to form any definite opinion - - - - -". Unless the Sr. Prof. recommends him very strongly, it will be difficult to secure permission to cross the efficiency bar.

If Mr. has no objection, we can wait & dispose of the case before the coming long vacation. Meantime Dr. Shastri may form a definite opinion about his work.

For favour of orders.

Dhien  
9/3

I think he deserves  
promotion when it falls  
due to him, and recom-  
mend that he may be  
allowed to cross the  
efficiency bar.

B.  
19.2.

Circular No. 31  
105-15a.

From                   The Director of Public Instruction, Bengal,  
To                     The Principals of Government Colleges.

Calcutta, the 28th October 1926.

Sir,

I have the honour to state that two efficiency bars have been prescribed in the time-scale of pay for the Bengal Educational Service, viz. one at the stage of Rs.460 and the other at the stage of Rs.650. The main object of efficiency bars is to ensure a continuance of good work. It has come to my notice that an impression exists in Colleges that only those officers whose teaching work is definitely unsatisfactory will be prevented from crossing a bar. Such an impression, if it exists, must, in the interests of Collegiate education in this Presidency, and in order to prevent a general deterioration in efficiency of the service, be removed, and the following instructions are, therefore, laid down for your future guidance.

One year before an officer in the Bengal Educational Service serving as a teacher in a college approaches an efficiency bar, the Principal of the college should submit a full report on the officer, with a recommendation whether in his opinion the officer should be allowed to cross the bar or not. In such report the Principal should indicate -

- (i) whether the officer has been carrying out his duties with energy, ability and success;
- (ii) whether he is in enjoyment of good health;
- (iii) whether he has been taking an active part in the social life of his College;

- (iv) whether he has shown, during the previous 3 years, that he is maintaining his mental alertness by the publication of any original paper, or book, or in any other manner;
- (v) whether he has been taking his due share in training the character of students and in teaching them self-reliance and discipline; and
- (vi) whether his work is characterised by defects, e.g. tactlessness, super-sensitive temperament, want of zeal, etc., which impair in any marked degree his efficiency as a College teacher.

Every such report should contain definite recommendations as to whether the applicant should be allowed to cross the bar.

I have the honour to be,

Sir,

Your most obedient servant,

E. F. Oaten,

Director of Public Instruction, Bengal.

Sir,

I have the honour to inform  
you that Babu Upesh Ch.  
Bhattacharya, Prof of Philosophy  
in the College will ~~come~~ arrive at  
the Efficiency bar of the D.R.S.  
at Rs 468/- on the 17<sup>th</sup>

Nov. 1932.

He has been with us only  
a few months having been posted  
here in July (?) last. So far  
as we have been able to  
judge, he is an able and  
efficient teacher <sup>who is expected</sup> ~~who will~~ do  
credit to the Philosophy department.

He has been keeping good health  
and also taking his share in the

social life of Mr. [unclear]. He  
is certainly in intimate touch  
with his subject <sup>and has written a</sup> ~~though he~~  
~~number of papers which have been~~  
~~has not produced any~~  
~~published in some learned periodicals~~  
original work. He is <sup>well</sup> liked  
by his pupils. And his work  
is not marred by ~~the defects~~  
~~mentioned in the~~ tactlessness  
or super-sensitive temperament.

I have therefore to re-

I have therefore to recommend  
that he may be allowed to cross  
the efficiency bar if necessary after  
consultation of his previous reports.

I have etc

Offg. Principal, Presidency College, Calcutta.

TO

The Director of Public Instruction, Bengal.

Dated..The 10th March. 1932.

Subject:—

Sir,

I have the honour to acknowledge your letter No. 1267 C dated the 9th March 1932 regarding the constitution of the Governing Body of this College from the next academic session 1932-33.

In each of the three previous years, there have been two meetings held and the attendance was satisfactory with the exception of Rai A. C. Banerji Bahadur who attended only two out of the six and Sir N. N. Sircar who did not attend any. I understand that he was away at Delhi for about a year. He has, however, long family connection with the College and it is an advantage to have a man of his position as the Vice-President.

Mr. S. N. Mallik was an active member for two academic sessions and resigned his seat on his appointment to the India Council. I think it would be desirable to have him back in the place of Rai A. C. Banerji Bahadur, who is

is not known outside his own circle. If this suggestion be accepted, it would be necessary to obtain the consent of Mr. Mallik.

Khan Bahadur Shams-ul-Ulema Dr. Hedayet Husain is anxious for a nomination ; but I do not recommend any change in the sitting Muhammadan members. Nawabzada A. S. M. Latifur Rahman is a valuable member and the other member, Maulvi Amiruddin Ahmed, is a non-official.

I have, therefore, to recommend that the following gentlemen will constitute the Governing Body of the College for the three academic sessions commencing from 1932-33 except the representatives of the staff who will be elected annually:

The Director of Public Instruction, Bengal, President (ex-officio).

Kt.  
Sir N. N. Sircar, M.A., Bar-at-Law, Advocate-General, Vice-President.

Mr. W. A. Burns, M.A., Bar-at-Law.

Mr. Amiruddin Ahmed, M.A., B.L., Advocate, High Court.

Dr. Rai U. N. Brahmachari Bahadur, M.A., M.D., Ph.D.

Mr. S. N. Mallik, C. I. E.

Sir D. P. Sarbadhicary, Kt., C.I.E., C.B.E.

Nawabzada A. S. M. Latifur Rahman, M.A. (Cantab.), Bar-at-Law.

Dr. P. D. Shastri, M.A. (M.A., B.T. (Punjab)

Ph.D (Kiel.), B.Sc (Oxon.)

Mr. Durgagoti Chatteraj, M.A.

Representatives of the  
College staff

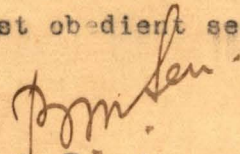

The Bursar of the College (ex officio)

The Principal of the College, Secretary (ex officio)

I have the honour to be,

Sir,

Your most obedient servant,

Principal, Presidency College.

D.P. 1.  
Sir, I have the honor to acknowledge  
your letter of the 10th.  
I have the honor to state  
that the term of office of members  
of the G. B. (other than the  
the elected members) expires on  
30. 6. 1932. In each of the  
previous  
three years, there have been  
two meetings held and the  
attendance of all the members was  
satisfactory with the exception  
of Mr. A. C. Sanerji Sanerji  
who attended only two out of the  
six and Sir Nripendra Nath  
Sircar who <sup>did not</sup> attend any. I  
understand that for a long  
he was away at Delhi for  
about a year.

Q He has however long family connection with the College and it would <sup>be</sup> an advantage to have a man of his position as the Vice-President.

Mr S. N. Mallik was an active member for ~~many~~ <sup>his last</sup> years and resigned on his appointment to the India Council. I think it would be desirable to have him back in the place of Rai A. C. Saneji Sahadur, who ~~has~~ is not ~~well~~ known outside his own Circle. If this suggestion be accepted, it ~~is~~ <sup>is</sup> necessary to ~~obtain~~ <sup>the consent</sup> ~~Khan Sahadur Hedayet Hossein~~ is anxious to come back of Mr Mallik.

Khan Bahadur Dr Hedayat Hossain is  
anxious for a nomination,  
but I do not recommend ~~any~~  
change in <sup>among</sup> the sitting Mahammodan  
members. Nawabzada A. S. M.  
Latifur Rahman is a valuable  
member and the other member  
Maulvi Aminuddin Ahmed is  
a non-official.

~~If you my suggestion~~

~~I have~~

I have therefore to recommend  
that the following gentlemen be  
nominated constitute the G. B. of  
the College for three years beginning  
1st July, 1932.

## Constitution of the G. B.

As three years will be elapsed since the  
17/10/29 A. academic session of 1929-30, it is necessary  
to write to D.D. suggesting the constitution  
for the coming 3 years in the case of the members  
other than the representatives of the staff and  
for one year in the case of the representatives.

In the latter case, if A. has no objection,  
the usual procedure of getting the names of mem-  
bers by election may be adopted.

As regards the list of outside members, a  
statement is submitted for favour of A.'s inspection.  
It appears that Sir N. N. Sarkar has not attended  
a single meeting.

Rai A. C. Bawji Bahadur attended ~~not~~ attended  
only two meetings at the beginning but remained  
absent at all other meetings.

The Mahammadan members have attended practi-  
cally all the meetings. But Shams-ut-ulema  
Dr. Khodayat Hossain expressed his desire to be in-  
cluded in the constitution of the G. B. of the  
college.

If A. thinks that any new name is to be included,  
we may put up the suggestion to the D.D. and  
for favour of order.

Shir

1/2

The Govt. of Bengal in their notification  
No. 2009 Edn of 26.6.1929 (21st A) fixed the terms  
of office of the nominated & elected members  
of the G. B. for 3 and 1 year respectively.

As

As regards the nominate members i.e. other  
than the elected members of the Staff, their  
terms will expire on the 30<sup>th</sup> June 1932 &  
it is the time for suggesting names of  
Gentlemen whom the Principal likes to  
be members of the G.B. for 3 years commencing  
from the academic session 1932-33. A statement  
showing the attendance of present members since  
July 1929 is put up for Principals' information.

As regards the elected members we  
may issue notice fixing the last date for sub-  
mission of names of 2 Professors whom the  
members of the Staff want to serve in the  
G.B. for the next academic session 1932-33.

Sir,

I beg to state that Professors Prabhu Chandra Chatteraj, M. A., and Burgagoti Chatteraj, M. A., have been elected as representatives of the staff in the U.B. for the next academic session 1932-33. I would therefore request you to be good enough to move the Govt. for notifying their names in the Calcutta Gazette.

Yours,

Prin. Secy.

Confidential.

From The Principal, Presidency College, Calcutta,  
To The Director of Public Instruction, Bengal.

No. 309 -Con., Calcutta, the 31st Jany. 1947.

Sir,

In enclosing herewith a special confidential report on the work of Babu Sailendra Mohan Mukherjee, Lecturer in Geology Presidency College, Calcutta, I have the honour to state that as the officer is doing very good work in the Department of Geology he is strongly recommended for confirmation.

I have the honour to be,  
Sir,  
Your most obedient servant,

  
Principal,  
Presidency College.

FORM.

Confidential Report (Special).

1. Name *Saitendramohan Mukherjee*

2. Designation *Lecturer in Geology*

3. Pay (scale and actual amount) *Rs. 12 5/- to Rs. 35 0/-*

4. Actual duty on which employed (i.e., the subjects and classes taught or the kinds of schools visited, in the case of an inspecting officer).

*Geology, Intermediate & B.Sc. (Pass & Honours)*

5. Academic qualifications (with classes or division, whether Honours or Pass, also the subjects taken):—

(i) Matriculation *1<sup>st</sup> Division - English, Bengali, Sanskrit, Mathematics (Compulsory), Mathematics (Optional), Mechanics (Optional).*

(ii) Intermediate *1<sup>st</sup> Division - English, Bengali, Physics, Chemistry, Mathematics, Botany (Optional).*

(iii) Graduate *2<sup>nd</sup> Class Honours in Geology with Physics & Mathematics*

(iv) Post-graduate *2<sup>nd</sup> Class <sup>1<sup>st</sup></sup> in Geology Special Paper on "Coal" Standing Second in order of merit.*

6. Professional qualifications (class or division and subject studied to be stated):—

(i) B. T., L. T., or Diploma in Teaching, etc.

(ii) Departmental Examination in Bengali by the Higher Standard or in Account Rules and Practice (if the officer is liable to pass the examination).

---

7. Length and nature of experience in teaching or inspecting work—

(i) In Government service

*As an Assistant from 1937-1946 with breaks. As Lecturer - 2 years - 7 months.*

(ii) In private service

---

8. Physical capacity (specific training in Drill, Physical Education, Boy Scouting and Cubbing and Bratachary, Games played and Teams played for, if any, and when, to be mentioned).

*He is of good physique and accustomed to strenuous work in the field as a biologist.*

---

9. Capacity for touring work (state whether the officer can ride a horse or a bicycle).

*He can ride a bicycle. He has been conducting many tours for the training of students of biology in the field. He has remarkable organizing aptitude and has always been a beloved teacher.*

---

10. General health (amount of sick leave taken during the last 5 years to be stated).

*Good, no sick leave taken during last 5 years.*

---

11. Character—

(a) Social (including tactfulness in dealing with fellow-officers, teachers, pupils and their guardians or with school authorities).

*He is tactful and of good social standing.*

(b) Moral.

*Good.*

---

12. In the case of a teacher—

Aptitude for developing corporate life in educational matters (i.e., interest in games and sports, debating societies, managing clubs, etc.).

*He used to play foot-ball in school.*

---

---

13. In the case of an inspecting officer—

Aptitude for influencing by inspection the work done in a school. Range of work which the officer can inspect with definite results (e.g., drill, nature knowledge, and other subjects of the primary, middle or high school curriculum).

---

14. Power of maintaining discipline (in the case of a teacher).

*Good.*

---

15. Power of organisation (details to be given including experience in, and capacity for, office work, if known).

*He is familiar with the correspondence work of the Geology Department and is an efficient help in this and other matters. He is almost indispensable in the administration of the Department.*

---

16. Originality in work (give details).

---

17. Any special aptitudes (e.g., musical, scientific, literary, etc.).

---

18. Other qualities (showing *prima facie* fitness).

*He is a sincere worker, a lovable teacher and a man of strict principles. He has been particularly trained for the departmental organisation work under direct contact with the Head of the Department of Geology for the last ten years.*

---

19. Personal appearance and general impression (viz., smart, brisk, untidy, careless of appearance, etc.).

*Smart and tidy in appearance.*

---

20. General remarks on discharge of duties:—

- (i) Whether the officer has been carrying out his duties with energy, ability and success.
- (ii) Whether he is in enjoyment of good health.
- (iii) Whether he has been taking an active part in the social life of the school or college (in the case of a teacher).
- (iv) Whether he has shown, during his previous 3 years that he is maintaining his mental alertness by the publication of any original paper or book, or in any other manner.
- (v) Whether he has been taking his due share in training the character of students and in teaching them self-reliance and discipline (in the case of a teacher).
- (vi) Whether his work is characterised by defects (viz., tactlessness, super-sensitive temperament, want of zeal, ill-health, etc.) which impair in any marked degree his efficiency as a teacher or an inspecting officer.

Yes

Yes

Yes. He is one of the most popular figure amongst his colleagues.

Yes. He comes in close contact with students apart from his lectures, classes, and exerts his utmost influence by way of advice and setting examples himself to mould the character of his pupils.

No. He has always shown toleration backed by alertness in dealing with students and is of a very cool temperament.

21. Whether recommended for confirmation, permanent appointment, promotion or crossing the efficiency bar.

Strongly recommended for Confirmation and permanent appointment.

Head Master, Hare/Hindu School.

Manomohan Chatterjee  
SENIOR PROFESSOR OF GEOLOGY

M. K. Chatterjee

Principal, Presidency College.

Dated the 29. 1. 1947.

Confidential.

17th February, 47.

*D.O. No. 28-Conf.*

Dear Dr. Dutta,

1. I thank you for your D.O. No. 143, dated the 11th February. I am glad to learn that the sanction for Rs 12,000/- for the Statistics Department of my college will be forthcoming very soon.

2. It is very necessary that arrangements for filling up the vacancy in place of Mr. Ahmed Ali is made at an early date. We are actually carrying on our work with one man short in the Department of English which is hampering with the tutorial work in the different classes.

3. Regarding the transfer of Dr. Suresh Chandra Sen Gupta to this college I should tell you that this proposal if ever has been rejected by Government that must have been done on non-academic consideration. What I have told you in this connection I repeat, that for the teaching of Organic Chemistry I require here services of an Organic Chemist, which I am not getting in the person of Dr. Rakshit. He does not hold any qualification to teach Organic Chemistry. Compilation of a book in Organic Chemistry jointly with another person and particularly a book like the one referred to in your letter, which has been condemned by specialists in Organic Chemistry as one giving very wrong information to its readers, does not qualify Dr. Rakshit to take Organic Classes. When he joined Presidency College, I offered him Organic Chemistry class in the under-graduate Department which he said he would not be competent to conduct. The Post-Graduate Classes, can therefore by no means be entrusted to him. These are the observations from me who was once responsible to bring him into the Presidency College. He will be all right as a teacher for Under-graduate classes but not at all suitable for Post-graduate Department still less so in Organic Chemistry branch. I therefore fail to understand how you conclude that there is no reasonable ground in asking

for his transfer. I hope you will agree with me that the staff of the Presidency College should be such as would be able to inspire the students to undertake higher work. I have watched the work of Dr. Rakshit from close quarters for several years now and I am sorry to say he is not a teacher of that type for the Post Graduate Department. I should therefore request you once again to give effect to my suggestion and not to give up the proposal on non-academic consideration.

4. Although I received orders of leave granted to Mr. Mahalanobis, up to December and then about lending his services to the Government of India till June next the orders about officiating arrangements in the subsequent vacancy have not yet been communicated. There is also a case for a house allowance connected with the same question, where for reasons of temporary nature of the vacancy of the Post of the Principal, Presidency College and non-availability of a house within the distance limit mentioned about it I have asked for relaxing the condition relating to the distance limit for the present, orders regarding this also have not yet been issued. These are causing difficulties to me and therefore I requested you to please expedite the issue of the orders.

5. Yes, the T.A. bills referred to were for excursions in Chemistry for teachers who accompanied the excursions. Excursions are equivalent to Practical Classes. In the matter of the number of teachers accompanying an excursion the ordinary rule prescribed by the University namely one teacher for every 15 students in the B.Sc. Classes and one teacher for every 10 students for the Post-graduate classes is always followed. For Botany and Geology where excursions are taken for quite a long time, this same rule is in vogue. Moreover in consideration of probable accidents, illness etc. of some students on excursion, which may necessitate the removal of that student by a responsible officer, even in a small party of 10 or 15 students two teachers accompany. In taking out excursions in Chemistry this same rule had been followed. Our opinion is that the University rule mentioned above should be very strictly followed when taking out students in Excursions. The objection of Government, if any, must have been based on misapprehension, which should be immediately removed. If Government insist on restricting the number of teachers, going on each excursion to one, the position will be very unhelpful and will result in the stoppage of this

activity for which in the sessions following the present one, an enhanced grant of Rs 1,500/- has been sanctioned, for students alone. The sanction of money has always been provided to enable us to give effect to University regulations. In this case also there should not be any violation of the same principle. As one, who had been closely connected with college work, I expect you will understand these things much better and help us in carrying on our work in the way we should.

I expect I have now made the different points touched in your letter quite clear. If even now you feel the necessity of discussing any of these points, I shall only too glad to do. I should however request you to kindly expedite the matter.

Yours sincerely,

Dr. S. Datta, D.Sc., D.I.C., F.N.I.,  
Director of Public Instruction, BENGAL.

PO. No 28 - Com.  
dt. 12.2.47

Dear Dr. Dutta,

So.

1. I thank you for your letter No 143, dated the 11<sup>th</sup> Feb. I am glad to learn that the sanction for Rs 12000/- for the Statistics Department of my college will be forthcoming very soon.

2. It is very necessary that arrangements for filling up the vacancy in place of Mr. Alward Ali is made at an early date. We are actually carrying on our work with one man short in the department of English which is hampering in the tutorial work in the different classes.

3. Regarding the transfer of Dr. <sup>Sures Chandra</sup> Sen Gupta to this college I should tell you that this <sup>proposal</sup> ~~case~~ if ~~has~~ ever been rejected by Government that must have been done on non-academic considerations. What I have told you in this connection

I repeat, that for the teaching of Organic Chemistry I require here services of an Organic Chemist, which I am not getting in the person of Dr. Rakshit. He does not hold any ~~degree~~ qualification to teach Organic Chemistry. Compilation of a book in Organic Chemistry jointly with another person and

and particularly a book like the one referred to in your letter, which has been condemned by ~~for~~ specialists in Organic Chemistry as one giving very wrong information to ~~the readers~~ <sup>students</sup>, does not qualify Dr Rakoshik to take Organic Classes. When he joined Presidency College, I offered him Organic Chemistry class in the Undergraduate Department which he said he ~~was not~~ <sup>was not</sup> competent to conduct. In Post graduate classes, ~~can~~ <sup>therefore</sup> no means be entrusted to him. These are the observations from me who was once responsible to bring him into the Presidency College. He will be all right as a teacher <sup>in</sup> ~~in~~ for Undergraduate classes but not at all suitable for Post graduate Department + still less so in Organic Chemistry branch. I therefore fail

to understand how you conclude that there is no reasonable <sup>ground</sup> ~~in~~ <sup>for</sup> ~~expectedly~~ asking for his transfer. I hope you will agree with me that the Staff of the Presidency College should be such as would be able to inspire ~~confidence~~ the students to undertake higher work. Dr. Rakhit I have watched the work of Dr. Rakhit from close quarters <sup>for several years now and</sup> I am sorry to say he is not a teacher of that type for the Post Graduate Department. I should therefore request you once again to give effect to my suggestion and not to ~~also~~ give up the proposal on non-academic considerations. I want to ~~improve our teaching work in~~ <sup>leave</sup>

4. Although I received orders ~~regarding~~ granted to Mr. Mahalanabis, up to Dec and then ~~up to~~ <sup>about</sup> lending his services to the <sup>Government</sup> Government of India till June next, <sup>the</sup> <sup>orders about</sup> officiating arrangements in the Subogy vacancy have not yet been communicated. There is also a case for a house allowance connected with the same question, where

4

for reasons of temporary nature of the vacancy  
the Post of the Principal Presidency College and  
non-availability of a house ~~very near~~ within  
the distance limit mentioned about it  
I have asked for relaxing the conditions  
relating to the distance limit for the present; <sup>but</sup>  
regarding this also have not yet been issued.  
These are causing difficulties some and therefore  
I requested you to please expedite the issue  
of the orders.

5. Yes, the J.A. bills referred to were  
for excursions in Chemistry for Teachers  
who accompanied the excursions. Excursions  
are equivalent to Practical Classes.  
In the matter of the number of Teachers  
accompanying an excursion this ~~rule~~  
the ordinary rule prescribed by the  
University namely ~~that~~ one teacher for  
every 15 students in the B.Sc. Classes  
and one teacher for every ten students

5  
for the Post graduate classes, is always followed  
for Botany and Geology where excursions  
are taken for quite a long time, this same  
rule is <sup>followed</sup> ~~followed~~. Moreover in consideration  
of <sup>probable</sup> accidents, illness etc of ~~the~~ some  
students on excursions, which may  
necessitate the removal of that student  
by a responsible officer, even in a  
small party of 10 or 15 students two  
teachers accompany. In taking out  
excursions in chemistry this same rule  
had been followed. ~~The~~ ~~op~~ Our opinion  
is that the University rule mentioned  
above should be very strictly followed  
when taking out students in ~~for~~  
Excursions. The objections of govern-  
ment if any, must have been based  
on ~~some~~ misapprehension, which should

6

be immediately removed. If Government insist on restricting the number of teachers going on each excursion, <sup>the</sup> position will be <sup>very</sup> ~~unhelpful~~ <sup>unhelpful</sup> and will result in the stoppage of this ~~to~~ activity ~~or~~ or spending more money, as then the same class will have to go on more than one occasion according to the number of the students in the class. ~~is for which in the coming financial years~~ <sup>in the sessions</sup> following the present ~~session~~ one, an enhanced grant of Rs 1500/- has been sanctioned for students alone. The sanction of money has always been provided to enable us to give effect to University regulations. In this case also there should not be any violation of the same principle. As one who had been closely connected with College work, I expect you will understand these things much better & help us in carrying

on our work in the way we should.

If I expect <sup>to</sup> I have now made  
no different points touched in your  
letter quite clear. If ever now you  
feel ~~discuss~~ the necessity of discussing  
any of these points, I shall be only too  
glad to do. I should however request  
you to kindly expedite the matter.

Yours Sincerely  
W. B. K. [Signature]

D.O. No. 143

Calcutta

February 11, 1947.

Dear Dr. Qudrat-i-Khuda,

As requested by you I have gone into the various cases mentioned by you during your yesterday's call to my office. The position in regard to them is as follows :-

- (a) Regarding grant of Rs.12,000 to the Statistics Department - Finance Department's order has just been received. Order will soon be issued sanctioning the amount out of this year's savings.
- (b) Regarding filling up of the temporary vacancy in the Bengal Senior Educational Service in place of Prof. Ahmed Ali - Prof. Manju Gopal Bhattacharyaya was thought of in this post but he having expressed a desire for not being considered for promotion, the matter has been delayed. However, arrangements are being made for immediate action.
- (c) Dr. S.C. Sen Gupta is an approved candidate for appointment in the Bengal Senior Educational Service. His posting in place of Bartley is a quasi-permanent arrangement.
- (d) Transfer of Dr. Sen Gupta in place of Dr. Rakshit - This proposal has on previous occasions been put up to Government and rejected. Very recently my predecessor in office decided not to disturb the present arrangement. I also hold the same opinion. Dr. Rakshit, I believe, has written a book in Organic Chemistry - jointly with some one else - and will be quite competent to take up Organic Chemistry up to Post-Graduate classes. Hence I do not see much reason in your repeatedly asking for his transfer.
- (e) Appointment in place of Mr. Mahabur Rahaman - A number of applications in originals from candidates have been sent to you for your selection. You may select an organic chemist, if you desire to strengthen the organic staff.
- (f) Appointment to the newly sanctioned post of Additional Lecturer in Chemistry - The post has been advertised, meanwhile a temporary arrangement can be made by selecting some one from the list already forwarded to you.
- (g) Orders for your officiating appointment - Orders sanctioning leave to Principal Mahalanobis up to November have just been received and orders relating to your officiating appointment in that vacancy are being waited and similar proposals are being submitted for this last period also.
- (h) T.A. bills presumably refers to Excursion bills - arrear for 1941 and 1945-46 : Government has objected to sanctioning T.A. to more than one teacher with each Chemistry excursion.

Yours sincerely,

Dr. M. Qudrat-i-Khuda, D.Sc.(Lond.),  
D.I.C.,  
Principal, Presidency College,  
Calcutta.

3rd March,

FORM.

Confidential Report (Special).

1. Name *Dr. Sadananda Bhadwaj*

2. Designation *Professor of Sanskrit, Presidency College, Calcutta*

3. Pay (scale and actual amount) *B. S. E. S. Scale.*  
*Present pay - Rs 550/-*

4. Actual duty on which employed (i.e., the subjects and classes taught or the kinds of schools visited, in the case of an inspecting officer). *Teaching Sanskrit and Pali in the I.A., B.A. and M.A. Classes.*

5. Academic qualifications (with classes or division, whether Honours or Pass, also the subjects taken):—

(i) Matriculation *First Division with a Government scholarship.*

(ii) Intermediate *First Division with a Government scholarship.*

(iii) Graduate *B.A. with Honours in Sanskrit: First in Class I.*

(iv) Post-graduate  $\left\{ \begin{array}{l} \text{M.A. in Sanskrit: First in Class I.} \\ \text{M.A. in Pali: First in Class I.} \\ \text{Ph.D. (Subject - Indian Philosophy)} \end{array} \right.$

6. Professional qualifications (class or division and subject studied to be stated):—

(i) B. T., L. T., or Diploma in Teaching, etc.

(ii) Departmental Examination in Bengali by the Higher Standard or in Account Rules and Practice (if the officer is liable to pass the examination).

7. Length and nature of experience in teaching or inspecting work—

- Lecturer in Sanskrit, Presidency College, (August, 1924 to December, 1925), Rajshahi College (January, 1926 to April, 1926), Presidency College (July, 1926 to June, 1934).  
 Professor of Sanskrit and Pali, Presidency College, in the B.E.S. (July, 1934 to January, 1945).  
 Professor of Sanskrit, Presidency College, in the B.S.E.S. (since 16<sup>th</sup> January, 1945).  
 Appointed substantively to the B.S.E.S. post with effect from the 19<sup>th</sup> February, 1946.  
 (ii) In private service  
 Lecturer, Post graduate Department, Calcutta University.

8. Physical capacity (specific training in Drill, Physical Education, Boy Scouting and Cubbing and Bratachary, Games played and Teams played for, if any, and when, to be mentioned).

9. Capacity for touring work (state whether the officer can ride a horse or a bicycle).

10. General health (amount of sick leave taken during the last 5 years to be stated).

No sick leave taken.

11. Character—

- (a) Social (including tactfulness in dealing with fellow-officers, teachers, pupils and their guardians or with school authorities).

He is a very capable and Teacher  
 pleasant and a ~~pleasant~~ Collegue.

(b) Moral.

Excellent—

12. In the case of a teacher—

- Aptitude for developing corporate life in educational matters (i.e., interest in games and sports, debating societies, managing clubs, etc.).

Very capable person He has  
 always been ~~very~~ useful in  
 building up college social  
~~or~~ ~~fair~~ ~~of~~ ~~college~~  
 building up a corporate  
 life in the college.

## 13. In the case of an inspecting officer—

Aptitude for influencing by inspection the work done in a school. Range of work which the officer can inspect with definite results (e.g., drill, nature knowledge, and other subjects of the primary, middle or high school curriculum).

## 14. Power of maintaining discipline (in the case of a teacher).

*Capable teacher, with a strong sense  
A good disciplinarian and 7*

## 15. Power of organisation (details to be given including experience in, and capacity for, office work, if known).

*Professor-in-charge, Presidency  
College Union, Socials Section  
(1933-42).*

*Secretary, Professors' Common Room,  
Presidency College (since 1944).*

## 16. Originality in work (give details).

*Author of a number of published research papers  
and of a book entitled "Studies in Nyāya-Vaiśeṣika Physics  
and Metaphysics" (in the press).*

## 17. Any special aptitudes (e.g., musical, scientific, literary, etc.).

*A very distinguished scholar with-  
remarkable aptitude for both Sanskrit and  
Pali. He teaches both the subjects very well  
and is a possessor wide reputation among  
his students.*

18. Other qualities (showing *prima facie* fitness).

*~~Proven a good~~ He is a  
dependable Colleague*

## 19. Personal appearance and general impression (viz., smart, brisk, untidy, careless of appearance, etc.).

*He gives a very good  
impression about his health  
and aptitude.*

20. General remarks on discharge of duties:—

- (i) Whether the officer has been carrying out his duties with energy, ability and success.
- (ii) Whether he is in enjoyment of good health.
- (iii) Whether he has been taking an active part in the social life of the school or college (in the case of a teacher).
- (iv) Whether he has shown, during his previous 3 years that he is maintaining his mental alertness by the publication of any original paper or book, or in any other manner.
- (v) Whether he has been taking his due share in training the character of students and in teaching them self-reliance and discipline (in the case of a teacher).
- (vi) Whether his work is characterised by defects (viz., tactlessness, super-sensitive temperament, want of zeal, ill-health, etc.) which impair in any marked degree his efficiency as a teacher or an inspecting officer.

He has been enjoying a good health and has been doing his work with dignity. He is interested in the social activities of the students and has built up a reputation and has ably conducted the students' work in this respect. His work has been very satisfactory and appreciated by all his students. His new work is expected to be a good excellent work. ~~on the~~

21. Whether recommended for confirmation, permanent appointment, promotion or crossing the efficiency bar.

Recommended strongly for confirmation in the B.S. E.S.

Head Master, Hare/Hindu School.

ACJP--A 813--1942-43--8,20,000

Dear Dr. Datta,

I beg to refer to your D.O. letter No. 253, dated the 4th March, 1947, and to state as follows :-

Dr. Kar is not here at present. What I have been able to gather about him from records and from the personal impression of our present Head of the Department of Physics do not go in his favour. I have no doubt about the scholarship and research capacity of Dr. Kar but these alone do not make a man suitable for a job of Professor in a college. A teacher is expected to work after the welfare of his students as well as to take part in the building up of a corporate life of the institution he is in. Unfortunately Dr. Kar had been rather self-centred in his activity and never helped the student folk to any remarkable extent. On the other hand instances are known when he took very unhelpful attitude and refused to go through the students' records of work. As a colleague his association with the different Heads of his department has not been nice. After years of tolerance things came to such a pass that a feeling has grown about Dr. Kar which can perhaps be summarised in a simple sentence that "he was a nasty colleague".

Regarding his work on Theoretical Physics I should not venture to say much. I can only say that his work is not of a very outstanding quality. Some specialists in his subject expressed rather damaging opinion about his work.

Taking all these views together, I feel that the representations sent by Dr. Kar do not deserve much consideration. It will be a piece of definite injury to this college if he is appointed in the Senior Educational Service here in the Physics now.

I hope the expression of this opinion will be treated as very confidential. The papers connected with this matter and enclosed in your letter are herewith returned.

Yours sincerely,

*M. S. Khurda*

Dr. S. Datta, D.Sc., D.I.C., F.N.I.,  
Director of Public Instruction, Bengal.

Dear Dr. Dutta,

I beg to refer to your <sup>to</sup> letter no 253, dated the 4<sup>th</sup> March 1947 and to state as follows :-

Dr. Kar is not here at present. What I have been able to gather about him from records and from the personal impression of our Present Head of the Department of Physics don't go <sup>in his</sup> in his favour.

I have no doubt about the scholarship and research capacity of Dr. Kar but these alone don't make a man suitable for a job of Professor in a college. A teacher is expected to look after the welfare of his students as well as to take part in the building up of a corporate life of the institution he is in. Unfortunately Dr. Kar had been rather self centred in his activity and never helped

the student folk to any remarkable  
intent. On the other hand instances  
are known when he ~~was~~ took  
very unhelpful attitude and  
refused to correct ~~the~~ so through  
the student records of work. As  
a colleague his association with  
the different heads of his department  
has not been nice. After years  
of tolerance things came to such  
a pass that a feeling has grown  
about Dr Kar which I can per-  
haps summarised in a simple  
sentence that "he was a nasty  
colleague".

~~Taking these views about~~  
~~Dr Kar~~ Regarding his  
work on Theoretical Physics  
I should not venture to say  
much. ~~On the other hand,~~ I  
if I can only say that his

work is not of a very outstanding  
quality. Some specialists in  
his subject ~~particularly~~  
expressed rather damaging  
opinion about his work.

Taking all these views  
together, I feel that the  
representations sent by  
Dr. Kar, don't deserve much  
consideration. It will be  
a piece of definite injury  
to this College if he is appointed  
in the Senior Educational  
Service, <sup>here</sup> in Physics now.

I hope that ~~will be taken~~  
~~in the~~ expression of this opinion  
will be treated as a very confidential.

The papers connected with this  
matter and enclosed in your letter  
are herewith returned.

Yours sincerely

BENGAL

Calcutta

The 4th March 1947.

Dear Dr. Khuda,

Telegraphic Address  
Instruction

Pursuant to the conversation that I had with you regarding a report about Mr. K. C. Kar, who was a Professor of Physics in the College for a long time, I am sending herewith his application to H.M. with H.M.'s noting on it for your perusal. I have been instructed by H.M. to refer the matter to you in the first instance for a preliminary report. The matter may kindly be treated as confidential. Along with the report you are requested to return the representation of Mr. K.C. Kar together with H.M.'s note.

Yours sincerely,

Dr. M. Qudrat-i-Khuda,  
D.SC.(Lond.), D.I.C.,  
Principal,  
Presidency College,  
Calcutta.

*M. Khurda*

Principal, Presidency College.

Dated the.....18.4.72.....194 .

Confidential.

There was an informal meeting of Prof. J.C.Sinha, Prof. S.C. Sarkar, Prof. A.C.Chakravarti and Prof. G.D.Bhar on the 2nd August, 1947. Certain questions were raised regarding administrative arrangements during the transition period.

(1) College Office. The College Office will remain closed from 5th till the 20th August, both days inclusive. This will not naturally prevent any work being done by any member of the staff informally. In the same way, informal arrangements in the different laboratories may be made at the discretion of the respective Heads of Departments as is done during periods of closed holidays. Prof. Sinha will naturally maintain contact with the Secretariat and use his discretion to open the office if necessary at any time.

(2) Principal. I shall hand over charge to Prof. J.C.Sinha on the 5th or 6th August in anticipation of formal orders from Government and he will act as Principal in my absence until further orders from Government.

(3) Bursar. I shall ask Prof. G. D. Bhar to take charge as Bursar with effect from the 5th August. I shall ask Prof. Rahman to hand over charge or at least to explain the position of accounts and cash to Prof. Bhar. If Prof. Rahman agrees there will be no difficulties but if Prof. Rahman is not prepared to hand over charge as Bursar, then in the present emergency I suggest that Prof. Bhar should make arrangements for double padlocks being used for safe custody of cash, accounts books, etc. If there is not enough room for two padlocks, chains or other locking arrangements will be arranged by the Physics Department.

In case any urgent expenditure is to be met Prof. Sinha will naturally make such arrangements as he considers proper on his own responsibility or in consultation with the D.P.I.

(4) Library. The Assistant Librarian has already been asked to take charge of the Library. If he is not prepared I should like to get some member of the staff from any one of the different departments of the college to take charge of the Library. If no one is prepared to do so Prof. Sinha and Prof. Chakravarti will kindly let me know by Monday afternoon, when I shall make necessary arrangements. Office and Care-taker should immediately arrange for a sufficient number of padlocks to lock up the whole Library.

Confidential

(5) Security. I have discussed the question of security with the D.P.I. and I have already asked Prof. Chakravarti in writing to take charge of the security of the college buildings, laboratories and the libraries. I have authorised him to appoint additional guards and make any other arrangements that he may consider necessary or desirable. I have also authorised him to incur necessary expenditure for this purpose. It is not necessary to write to the Secretariat in this matter before the 15th August. A suitable report should be forwarded after that date or when the college re-opens.

(6) Muslim Hostel. I have discussed the matter of the Muslim Hostel with the D.P.I. and told him that we should try to keep up the hostel as long as possible. If the Superintendent leaves before my departure I shall take the responsibility of making whatever arrangements I consider suitable. In the same way if any emergency arises after my departure Prof. Sinha will have to use his discretion.

(7) National Flag. I have arranged for a new National Flag being prepared for the college at my own cost. I should personally welcome the hoisting of the flag on the 15th August provided suitable arrangements can be made in this regard. Prof. Sinha will have to decide what what arrangements would be feasible.

*J. C. Mahalanobis*  
Principal, Presidency College.

4 August 1947

Draft.

CONFIDENTIAL.

There was an informal meeting of

Prof. J. C. Sinha, Prof. S.C. Sarkar, <sup>on the 2nd August 1947</sup>  
Prof. A.C. Chakravarti and Prof. G.D. Bhar.

Certain questions were raised regarding  
~~the~~ administrative arrangements during  
the transition period.

College Office

(1) The College Office will remain  
closed from 5th till the 20th August,  
both days inclusive. This will not  
naturally prevent any work being done by  
~~by the Principal, the Dean or any other~~  
<sup>any</sup> member of the staff informally. <sup>informal</sup> In the  
same way, arrangements in the different  
laboratories may be made at the  
discretion of the respective Heads of  
Departments during ~~xxxxxx~~ <sup>as in done</sup> periods of  
closed holidays. Prof. Sinha will  
naturally maintain contact with the  
Secretariat and ~~use~~ his discretion  
to open the office if necessary at any  
time.

Principal

(2) I shall hand over charge to  
Prof. J.C. Sinha <sup>on the 5th or 6th August</sup> in ~~an~~ anticipation of  
formal orders from Government and he  
will act as Principal in my absence  
until further orders <sup>from Government</sup>

Bursar

(3) I shall ask Prof. G. D. Bhar ~~xxx~~  
to take charge as Bursar with effect  
from the ~~5th~~ <sup>5th</sup> August. I ~~propose~~ <sup>shall</sup> asking  
Prof. Rahman to hand over charge or <sup>at least</sup> to  
explain the position of accounts and  
cash to Prof. Bhar. If ~~he~~ <sup>Prof. Rahman</sup> agrees there  
will be no difficulties but if Prof.  
Rahman is not prepared to hand over  
charge as Bursar, then in the present  
emergency I suggest that Prof. Bhar  
should make arrangements for double

<sup>very use</sup>  
padlocks for safe custody of cash, accounts books,

etc. If there is not enough room for two padlocks,

chain or other locking arrangements will be <sup>arranged</sup> made

by the Physics Department. ~~in~~

*expenditure is to be met*

In case any urgent ~~appointment~~ <sup>matter</sup> is to be made

Prof. Sinha will kindly contact the D.P.I. and

<sup>practically</sup> decide. Prof. Sinha will make such arrangements

<sup>proper</sup> on his own responsibility or <sup>as he considers</sup> in consultation with the D.P.I.,

4. Library. The Assistant Librarian has

already been asked to take charge of the Library.

If he is not prepared & I should like to get some

member of the staff from any one of the different

departments of the college to take charge of the

Library. If no one is prepared to do so Prof.

Sinha and Prof. Chakravarti will kindly let me

know <sup>by</sup> on Monday afternoon, when I shall make

necessary arrangements.

⑤ Office and Care-taker <sup>should</sup> ~~will~~ immediately

arrange for a sufficient number of padlocks to

lock up the whole Library.

⑥ <sup>5. Security</sup> I have discussed the question of security

with the D.P.I. and I have already asked Prof.

Chakravarti <sup>in writing</sup> to take charge ~~of the matter~~ of the

security of college buildings, laboratories and

the libraries. I have authorised him to appoint

additional guards and make any other ~~internal~~

arrangements that he may consider necessary or

desirable. I have also authorised <sup>him</sup> to incur

~~the~~ necessary ~~and~~ expenditure for this purpose.

It is not necessary to write to the Secretariat *in this matter*

before the 15th August. A suitable report should

be forwarded after <sup>that date or when</sup> the college re-opens.

7. I discussed the matter of the Muslim

Muslim Hostel

Hostel with the D.P.I. and told him that we should

try to keep up the hostel as long as possible.

If the Superintendent leaves before my departure

I shall take the responsibility of making ~~what~~

whatever arrangements I consider suitable.

In the same way if any emergency arises after my departure Prof. Sinha will have to use his discretion and arrange accordingly.

<sup>8.</sup> ~~ixhaxaxaxreadyxxsanctionedxxmoney~~  
Natural Flag.  
S. N. I have arranged for a new National Flag being prepared for the college at my own cost. I should personally welcome the hoisting of the flag on the 15th August provided suitable arrangements can be made in this regard. Apart from the ~~Ramzan Holidays the college will remain closed on that date in terms of India~~ Government Notification. Prof. Sinha will have to decide what arrangements would be feasible.

Gm  
2/8/47

Notice.

I am sorry I shall have to leave Calcutta on the 6th August. I have made ~~provisional~~ arrangements for the preparation of new flag of the Dominion of India at my own cost. In case the Presidency College remains within the Union of India, ~~it is my earnest desire that the flag should be hoisted on the college buildings~~ ~~xxx~~ on the 15th August, ~~say at 9 a.m.~~ Everything will however naturally depend on ~~the~~ ~~circumstances and~~ the discretion of the Principal.

Gm  
2/8/47

~~and before the~~

I hope this flag will be accepted from me, and arrangements will be made to hoist the flag

Head of the Dept. of English, Presidency College.

3/7/47

Dated the 3rd July 1947.

Confidential.

I had a talk with the Police Officer yesterday. I consider it necessary to take certain precautions for the security of the college buildings and the two libraries and the laboratories. I have discussed the matter with Dr. J. C. Sinha who will remain in charge of the college during my absence and with his concurrence I am asking Prof. A. C. Chakravarti to make all necessary arrangements for the security of the college, libraries and the laboratories and to incur expenditure for this purpose in anticipation of formal sanction. I have discussed the matter with Dr. Dutt (D.P.I.) and ~~XXXXXX~~ he has agreed that official communication in this matter may be sent in due course but action should be taken in anticipation.

In particular Prof. Chakravarti will carefully consider and take the necessary action to increase the number of guards and to make all arrangements regarding their postings and duties. Besides he is fully authorized to take such action as he considers necessary on behalf of the Principal. I am asking the office to give Prof. Chakravarti necessary funds for this purpose in the form of special and contingent advances. In case the office is closed <sup>and</sup> such advances cannot be obtained in time Prof. Chakravarti is authorised to incur expenditure on his own responsibility.

In view of the impending administrative changes I have discussed ~~the~~ with the Secretariat that immediate action is to be taken in the college, and with the concurrence of the Secretariat I am making the following arrangements in anticipation of formal orders:-

1. Prof. J. C. Sinha to be in charge of the college during my visit to Delhi and to take over ~~h~~ as charge of the Principal when I proceed on leave.
2. Prof. G. D. Bhar to take charge of the post of Bursar with effect from such date as I or Prof. Sinha may decide.
3. Babu Dwijendra Nath Dutta at present in charge of the Science Library to take charge of the post of Librarian with effect from such date as may be decided by me or Prof. Sinha.
4. Prof. N. K. Sen to take charge as Head of the Department of Chemistry as may be decided by me or by Prof. Sinha.

Prof. Sinha will kindly note and take necessary action. A copy of this is to be sent to Prof. Chakravarti and to be treated as strictly confidential.

---

19. Personal appearance and general impression (*viz.*, smart, brisk, untidy, careless of appearance, etc.).

*Smart*

---

20. General remarks on discharge of duties:—

(i) Whether the officer has been carrying out his duties with energy, ability and success.

An able and conscientious teacher.

(ii) Whether he is in enjoyment of good health.

Yes.

(iii) Whether he has been taking an active part in the social life of the school or college (in the case of a teacher).

Yes.

(iv) Whether he has shown, during his previous 3 years that he is maintaining his mental alertness by the publication of any original paper or book, or in any other manner.

Work done during the last three years:

- (1) Extent of starvation among the landless workers of Bengal — Science and Culture May, 1946.
- (2) Manuscript of a text book on Astronomy.
- (3) "পরিচয় অষ্টকোষ" — ১৯৪৬ (৪), ১৯৪৭
- (4) "পরিচয় অষ্টকোষ" — ১৯৪৬ (৪), ১৯৪৭ (Indian Riders Journal) ১৯৪৬, ১৯৪৭, ১৯৪৮.
- (5) "পরিচয় অষ্টকোষ" — ১৯৪৬, ১৯৪৭, ১৯৪৮.

(v) Whether he has been taking his due share in training the character of students and in teaching them self-reliance and discipline (in the case of a teacher).

Yes.

(vi) Whether his work is characterised by defects (viz., tactlessness, super-sensitive temperament, want of zeal, ill-health, etc.) which impair in any marked degree his efficiency as a teacher or an inspecting officer.

No.

21. Whether recommended for confirmation, permanent appointment, promotion or crossing the efficiency bar.

Recommended for crossing the efficiency bar.

Head Master, Hare/Hindu School.

*J. Chandra*  
Principal, Presidency College.

PRESIDENCY COLLEGE  
CALCUTTA

The 15 - 9 - 1947

D. O. No. \_\_\_\_\_

Mr. B.C. Bhattacharya joined this department less than a month ago. The remarks which follow emerge, therefore, out of less than a month's impressions.

Mr. Bhattacharya has struck me as as a good and conscientious teacher. He did research work in mathematical statistics under Pearson in London during 1936-1939 and published two original papers on the same subject in India since then. But during the last three years he has produced no original work of statistical mathematical nature. He has, however, published one paper in 1946 of a purely statistical nature. Work of that nature is not considered very favourably in the mathematical world. He has copious popular articles in Bengali to his credit. He has manuscripts ready for a book of astronomy, but its publication is still in an embryonic stage. He acted as a part-time lecturer in Statistics at Dacca, and the lecture notes which he has published are well-written and carefully thought out.

I cannot help feeling that with his training

FOVER

he could have achieved a good deal more. Considering everything, however, I recommend his application for crossing the efficiency bar.

S. Dn. Perawala

15/9/1946 Deptt. of H. & A.

To The Director of Public Instruction,  
West Bengal  
Through  
The Principal, Presidency College, Calcutta

Dated, Presidency College, Calcutta, the 8th September, 1947.

Sir,  
I have the honour to ask the favour that you may be pleased to grant me the next increment of my pay which is due on the 7th February, 1948 and is at the first Efficiency Bar on the scale.

During the last two years, I served as the Head of the Mathematics Department of the Krishnagar and the Rajshahi Colleges successively, and tried to discharge my duties to the best of my ability, and, I hope, to the satisfaction of my superiors in office. Further, I beg to mention that the following technical and literary works were done by me during the period.

- (1) Extent of Starvation among the landless workers of Bengal — Science and Culture, May, 1947.
- (2) A manuscript of a text book on Astronomy.
- (3) *স্বদেশীয় জীবনী* খণ্ড ১ — *স্বদেশী* (The Indian Red cross journal) জুলাই, ১৯৪৮।
- (4) "স্বদেশী জীবনী" — *স্বদেশী* ১৫, ১৯৪৮।
- (5) *জীবনী* খণ্ড ১ — *স্বদেশী*, জুলাই, ১৯৪৮।

I have the honour to be,

Sir,

Your most obedient servant

Bimal Chandra Bhattacharya  
Professor of Mathematics,  
Presidency College.

Confidential

No. 239

From- The Headmaster, Hindu school, Calcutta.

To- The Principal, Presidency College, Calcutta.

Dated the 29th. December, 1946.

Sir,

I have the honour to report that the work of Babu Hriday Govinda Vidhyalankar, Headpandit of this school, is most unsatisfactory. Hriday Babu joined this school on the 15th. March, 1946 and his Annual Confidential Report could not be submitted on the due date for his work could not be judged within such a short time. After Carefully watching his lessons for these months, I now find that he is a hopeless failure in this school. He is absolutely incapable of maintaining discipline in any of the classes, nor is he <sup>at all</sup> keen on his work. His retention on the staff of this school will adversely affect the interest of the school. I would very strongly recommend his transfer from this school before the commencement of the new session.

In this connection I beg to suggest that Babu Hrishikesh Bhattacharjee, M.A., Headpandit Barisal Zilla school, may be placed here, for at one time he worked as the Headpandit of this school with great credit.

I have the honour to be,

Sir,

Your most obedient servant,

*K. L. Mukherjee*

Headmaster, Hindu school, Calcutta.

Subject:—

Sir,

Referring to your Confidential letter No.C/2812 Misc. dated the 12th January 1939 making some enquiries about strikes in the College, I have the honour to state that there were no strikes during the sessions 1936-37 and 1937-38 in which the College was directly involved. There was one partial -- sympathetic strike during the session 1937-38 on the Detenu Day. Only a small proportion of the boys took part and classes were held as usual.

I addressed the students on the occasion and the normal conditions were restored the next day.

D. O. No. 164 - Con.

Dear Dr. Datta,

When I spoke yesterday to the Secretary, Department of Education, that the existing teaching arrangement in the Department of Physiology in the Presidency College should be continued till a permanent arrangement was made, I was under the impression that there was no difficulty in making such permanent arrangement within a few months. But it appears from your conversation that it might not be possible to make any permanent arrangement for a considerable length of time. In the interest of the college, I would therefore **strongly** recommend that an experienced and well known scholar like Prof. N. M. Bose should be re-employed till a permanent professor is appointed. I have communicated this fact <sup>on telephone this morning</sup> to the Secretary, Dept of Education.

Yours sincerely,

*J. Chandra*

FEDERAL PUBLIC SERVICE COMMISSION.

From

The Secretary, Federal Public Service Commission,

To

Principal B.M. Sen, M.A. (Cantab), I.E.S.,  
Principal Presidency College Calcutta.

XXXXX/Simla/Delhi, the JAN 23 1939

Sir,

I am directed by the Federal Public Service Commission to inform you that the Commission has been invited to make recommendations in regard to the appointment of Mr. **P. Bhattacharya of a Scholarship** to the post of **XXXXX for training in Animal Genetics in the United Kingdom**

of which particulars are enclosed, and to say that Mr. **P. Bhattacharya** has given your name as a reference in connection with his application for the **Scholarship** in question.

2. I am to ask if you could very kindly furnish for the confidential use of the Commission your opinion in regard to-

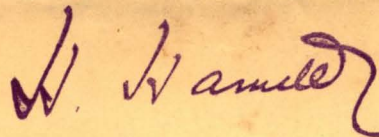

- (1) the character of the candidate named, and
- (2) his special qualifications for the post for which he is a candidate.

The favour of a reply before the 6th February, 1939 on which date the candidate is to be interviewed will be much appreciated.

I have the honour to be,

Sir,

Your most obedient servant,

Secretary, Federal Public Service Commission.

FEDERAL PUBLIC SERVICE COMMISSION.

Selection of a candidate for the award of a scholarship  
for training in Animal Genetics in the United Kingdom.

INFORMATION FOR CANDIDATES.

1. Applications accompanied by a Treasury Receipt for Rs.7/8/-, must be submitted on the prescribed form enclosed herewith. They must reach the Secretary, Federal Public Service Commission, Delhi, not later than the 12th December, 1938. If a candidate desires to have his application acknowledged he should send it "Acknowledgment Due".

A candidate must, if required, attend at such place as may be appointed for personal interview. The Federal Public Service Commission do not defray the travelling or other expenses of candidates summoned for interview. They will, however, contribute towards those expenses at a rate corresponding to the amount of the intermediate railway fare by the shortest route to the place of interview from the Railway Station nearest to the candidate's normal place of residence or from which he actually performs the journey, whichever is nearer to the place of interview, and back to the same station. No such contribution is paid to candidates who apply from outside India.

2. A copy of the Instructions to Candidates for appointment by selection is enclosed herewith for the guidance of the candidates.

3. Candidates must be prepared to proceed to the United Kingdom for training as soon as possible after selection.

4. Candidates must be British subjects of Indian domicile or subjects of Indian States who have secured the necessary declaration under Section 262(1) of the Government of India Act, 1935.

5. No age limits are prescribed but other things being equal a candidate under 40 years of age will be preferred.

6. Qualifications:-

- (i) A degree preferably an M.Sc. degree in natural Science with Zoology as a Principal subject;
- (ii) Training and experience in work connected with the breeding of large animals; and
- (iii) A veterinary diploma will be an important additional qualification.

If the candidate did not take zoology as his principal subject in his degree classes, he should have a degree in Science or in Agriculture and a Veterinary diploma plus the training and experience mentioned in (ii) above.

7. The selected candidate will be required to proceed to the United Kingdom for post graduate training in animal genetics including the Physiology of Reproduction, Endocrinology and allied subjects with special reference to the breeding of large animals.

8. The scholarship may be withdrawn before the termination of the period for which it is awarded if the scholar fails in health, or if his conduct or progress is unsatisfactory, or if it is found that he will not benefit by a further study in the United Kingdom.

9. The scholarship is for the value of £250 per annum for two years plus college fees.

If a Government servant is selected, he will be allowed study leave allowance mentioned in Appendix 9 of the Posts and Telegraphs Compilation of the Fundamental and Supplementary Rules, Volume II, including the payment of fees and certain travelling expenses in accordance with the scale laid down in Appendix 7 ibid.

10. If a Government servant is selected, he will be required to obtain study leave from the department under which he is serving, under the usual rules.

11. Women are eligible to apply.

12. (a) The candidate will be provided with a tourist class return passage to the United Kingdom;

- (b) The selected candidate will be required to execute a bond in the attached form undertaking to repay the scholarship, if called upon to do so, should he fail:
- (i) to return to India when directed by the High Commissioner;
  - (ii) if he settles in some country other than India within five years of the termination of his scholarship; and
  - (iii) if he fails to serve the Government of India or a Provincial Government or the Imperial Council of Agricultural Research if so required, for at least five years after return from training.
- (c) The scholarship carries with it no guarantee of subsequent employment, but it is probable that the scholar would find suitable employment immediately on return, as the object of this scholarship is to train a man in a subject in which there are no fully qualified Indian research workers available at present.
- (d) The scholar will be subject to the general rules for the guidance of the scholar under the Central State Scholarship Rules promulgated by the Government of India, Department of Education Health and Lands No.F.111-2/32, dated the 28th February, 1934, during his stay in England but will be under the orders of the Educational Adviser to the High Commissioner.
-

1. Amiya Kumar Bose---- A capable student and and certainly above the average in mental capacity and in duty. His contribution in essay writing and oral participations in the seminar meetings were of very good quality. Popular with fellow students. Politeness, good breeding and perfect manners. Well-connected and thoroughly reliable.

2. Atiquazzaman Khan---Very regular and extremley well-behaved. Distinguished himself in College Cricket where he was noted for steadiness moments and great resourcefulness. Seemed to have the makings of a competent leader well-connected and ~~thoroughly~~ generally smart

3. Aron Kumar Basak----A hard worker with an excellent brain and pleasant personality. He was decidedly the best student of his year, and took the B.A. degree with First Class Honours in Economics, standing first in order of merit. He participated in most of the Debates held in the College and was always present in seminar meetings. He used to present his arguments quite cogently, although his articulation seemed somewhat defective. He enjoyed considerable popularity amongst his fellow students and was liked by the members of the staff for his polite manners and serious disposition. He is thoroughly reliable and bears an excellent moral character.

4. Ashim Kumar Roy---- A sound scholar and a fine smart young man. He belongs to a very respectable and cultured family. Excellent character and polished manners,,capable of initiative and may be trusted as a leader.

5. Malay Kumar Halukdar<sup>A</sup>---hard worker and far above the average in intellectual calibre. His essays for  
P.T.O.

(2).

the Seminar were always of very good quality. Popular with fellow students food breeding and perfect manners. Comes of a very respectable family and thoroughly reliable.

6. Nikhilendu Roy----- A competent scholar, persevering and hard working. Comes of a respectable family. Possesses excellent character and is thoroughly reliable.

7. Sailendra Kumar Sen-----Intelligent and hard working. Appears diffident and nervous but is really confident perhaps ~~in~~ a little to excess. Does not seem to possess much initiative but gives one the impression of being reliable.

8. Syed Nazir Hossain Meerza-- A competent scholar, Possesses initiative and self reliance. Comes of a very respectable family and quite reliable.

9. Subodh Kumar Mallick---- Of average intelligence. Smart looking and possesses pleasant manners.

10. Debabrata Dhar-----Intellectually mediocre, but smart and alert in general bearing. Has fine physique and seems to possess initiative.

11. Monishi Mohan Sen----- "Exceptional qualities and abilities. I have no hesitation in stating that in my dozen years of experience as a teacher I never had the occasion to observe in any other student the same degree of all-round perfection that he has reached. His success in the B.A. examination was striking and requires to be emphasised. Between him and the candidate who was ranked second in First class there was a difference of about fifty marks. Moreover, as far as I know, no other student during the last ten or twelve years succeeded in equalling the total marks that he secured in his subject in his examination.

His activities in the academic field
